A jury was soon gotten together and from the evidence given there was but little doubt left as to his insanity; the jury bringing in a verdict accordingly. He was taken to the insane asylum in St. Joseph on yesterday by our sheriff.
—The people of Holt county, while in attendance at the St. Joseph Fair should remember that a visit to that Arcade complete without calling at the Arcade clothing house on Felix street. He is a man of positive and determined will, and he has determined on making the people of Holt county some of the rarest offers in bargains this fall, and those attending the Fair next week, should not fail to call on Mr. McIninch at No 1900 Fredrick Avenue.

—The New Point baseballists came to town last Saturday and met the Oregon boys upon the "diamond". After very poor playing on the part of our boys the New Pointers came out victorious by a score of 45 to 29. A return game will be played to-day and the result is eagerly looked for.
—Burt R. Chapman, aged twenty-two years, who has been living near Mound City, for some time, was working with Brady's threshing machine, while thrashing for Rolla Ramsey, near this city, on Wednesday morning, got his left elbow into the cylinder, and fractured the arm in such a horrible manner, that amputation above the elbow was necessary.
—A marked and noticeable feature of the play of our city Tuesday and Wednesday, was a graceful manner in which Jennie Holman represented Florence Grantley. If we had faith in the saying that a person was born to fill some special place we might say that Jennie Holman was a born actress, but we prefer saying that she has fine natural abilities, and by good judgment has acquired more and by throwing her whole life in the play, her equal is not found with every company.—Exchange.

—W. C. B. Gillespie, now representing the old reliable St. Louis type foundry, was in our city Tuesday and gave us a pleasant call. He has been nearly twenty years been an active Democratic politician in Northeast Missouri, and for thirteen years edited Democratic papers in Macon and Adair counties, and for three years represented his congressional district as a member of the Democracy in the Central Committee. Barring his political activities, he is one of the cleverest of gentlemen, and represents one of the best houses in the country. We gave him a large order for job stock, and our friends should call and leave their orders for anything in the job line.
—Now that the residence of Ed Pinkston is completed, it presents the handsomest appearance of any mansion in the city, its architectural effects striking the eye with most pleasing effect. The carpenter's work was done by Mr. Lora Baker, and the painting by Mr. John Greene. It is painted on the outside in sage green and the ornaments in brown. Mr. Pinkston is to be complimented on the erection of such a handsome building, which is an ornament to our city, and we hope it may stand for years as a monument to his progressive spirit, and ever prove an abode of beneficial enjoyment, a home in the fullest sense of the term.
—George and James, sons of Mr. L. D. Browning, were hauling straw Monday and while going down a slight descent, and in pulling the lines to keep the team under control, George caused his straw foundation to slide. His brother realizing the consequences, caught him to prevent his falling, but too late; both boys went down immediately behind the splintered horses which took flight and began to kick and run. The boys, realizing their danger, caught hold of the tongue and tugs and were dragged until the horses were under full headway when they lost their hold and the wagon passed over the left breast and shoulder of George and across the back of James. Both boys are bruised and lamed—consequently their injuries are not thought to be serious.—Craig Meteor.

MAITLANDS BOOMS.

Making Maitland a visit last week, we were astonished to see how much she has improved of late in the way of business houses. Among the most prominent additions to the town we noticed the new store building of the St. Joseph Co-operative store, which is without doubt one of the largest and most conveniently arranged store rooms to be seen in Northwest Missouri. The stock of goods now being received at this store is simply immense. They have in stock for your inspection, one of the noblest lines of men's youth's and boys clothing we have ever seen, and at prices that are astonishingly low. To the ladies we would say that those desiring a nice dress pattern would do well to call at the St. Joseph Co-operative store and examine the stock. This house also makes a specialty of warranted handmade Boots and Shoes, which they are offering as a special inducement to the trade. The Maitland fair opens Monday, Sept. 10th, and we would advise those attending to be sure to give this house a call whether you purchase or not. Mr. Rapp, the manager, is well and favorable known through Holt and Aitchison counties and will be delighted to have his old friends and customers not excepting new ones, make him a call.

Operators who have been looking for large receipts of corn and a break in prices in consequence have been disappointed. They got the receipts, but instead of a decline resulting therefrom prices were slightly advanced. Towards the latter part of the week a good speculative and shipping demand was developed and a sharp advance maintained. For wheat the market closed easy @ \$1.06; corn @ 51 c.
Hogs products were fairly active and the market developed some strength @ \$14.00.
Cattle ruled firmer and met with good demand @ \$5.00 @ 5.40 for exporters; good to choice @ \$5.80 @ 5.90.
Hogs have shown slight advance with good demand, while the market closed weak. Packers \$1.50 @ 4.85. Shippers \$4.90 @ 5.25.
