A Journal until Friday. Physicians are often startled by remarkable discoveries. The fact that Dr. King's New Discovery for Consumption and all Throat and Lung diseases is daily curing patients that they have given up to die is startling them to realize their sense of duty, and examine into the merits of this wonderful discovery, resulting in hundreds of our best Physicians using it in their practice.

Godley's Lady's Book for January is truly a holiday number opened with a decided originality and little things crowning the magazine as Queen of the two steel engravings, enlaid respectively "The First (all in the City)," "The First (all in the Country)," will undoubtedly gain many a smile. The Fashion illustrations are fully up to the standard of the late productions of this magazine, and the new features in this month of color illustration of household furnishing, if continued as proposed will certainly find an appreciation with all the readers of the book. The literature in this number is exceptionally good.

Dr. Lewis' Mouthy will keep step with the most ambitious and vital of our large magazines. It will be illustrated whenever the subject demands and such aid, but its peculiar feature, as heretofore, will consist of an earnest and determined discussion of Sanitary and Social Questions. Those who have read the past issues of this magazine will need no assurance of the unalloyed vehemence of its work. It leaves no room to doubt its meaning or purpose. Dr. Dio Lewis will contribute to each issue papers on hygienic themes whose value even earnest people will find difficult to exaggerate, while near a hundred writers known to the public will contribute papers on living subjects. A thorough among the largest and most beautiful of our magazines it is only \$2.00 per year, or 15 cents a number. For sale by all news dealers.

Why is it so many suffer from rheumatism, neuralgia, kidney diseases, liver complaint, heart affections, etc? It is simply because they won't come and be healed. All diseases begin from a want of iron in the blood. This want of iron makes the blood thin, watery and impure. Impure blood carries weakness and distress to every part of the body. Supply this lack of iron by using Brown's Iron Bitters and you will find yourself enjoying perfect freedom from aches, pains and general ill-health.

FROM CALAWAY COUNTY.

EDITOR SENTINEL—I promised to write you, but have been rather negligent. I left Mound City Nov. 28th, and spent Thanksgiving in Mexico, Mo., where I saw, but did not meet, Rev. I. S. Hill. He was assisting in a protracted meeting. At Mexico, Aunt Sallie Manjin, who had come with us, parted company with us, stopping with her sister there. Taking the evening train at Mexico, we reached here about dark, Thursday the 29th ult., and found all well.

For a few days after our arrival the weather was good, and I thought I was improving rapidly, but a week ago it rained and remained damp a few days and it is now quite damp, and I grew considerably worse. My head is now no better than when I left home.

I have not been able to go about much yet, but from what I have seen and heard, the wheat crop this fall is much larger than usual, but is very backward on account of the dry fall. With a favorable winter and spring, however, the yield will be very large. The corn crop was short this season and the wheat crop almost a failure. Oats and grass were good. The fruit crop was a poor one. Stock sells high; mule colts sell from \$60 to \$100 each, and mule cows are worth from \$35 to \$60 each. The people appear to be prosperous. Fulton, the county seat, which, fifteen years ago, seemed to have reached its full growth, has, within the last six years, grown almost out of recognition. The improvement began with the immigration of thirty German families and the establishment of a few manufacturing there. The Germans led the way and the infection is now spreading among the old citizens. What were once land-fish years ago, are now the sites of handsome residences. The boundaries of the city have been greatly extended and yet the improvement has kept pace with the extension. The buildings are, many of them, the best in the city. I was told by D. M. Turner, one of the oldest and wealthiest of her citizens, that a hundred houses have been built during the present year. Two very large and fine brick church edifices—one by the Baptist and one by the Disciples, are nearing completion there now. The cost of each will be from \$5,000 to \$9,000. Some seven or eight churches have been built in the county this year. One was built at this place, and was dedicated last Sunday without debt or begging.

This country is rough, woody, hilly and not very productive, and is full of true old Democrats—good men and good, whose politics is an inheritance, not a freely chosen thing. Twenty years ago, and later, a native Republican was looked upon as a kind of monster, but they have become quite numerous since. Fulton, the old Democratic rallying ground, has fallen into the hands of the Republicans, as do Democrats here would say: "into the hands of the Dutch and niggers!" In conversation with an active Democrat the other day, he said in speaking of the gubernatorial race, that Marmaduke would never have been thought of as a candidate against such a man as Phelps if he had not been a Brigadier-General in the Confederate army. Some others are of the same opinion.

The young men are not all Democrats. I have found a number who are either openly Republican or Independent. It is true, I believe a large portion of the young men coming of age would be Republicans openly.
