This factory will do a retail and wholesale trade for the Willamette valley, and will manufacture all kinds of crackers which will enter into competition with the Portland trade. They expect to have everything in readiness for taking orders by the first of January. This is an investment which is likely to bring in good returns, and these men, understanding their business as they do, will build up a profitable business. They will doubtless carry a large share of the trade of the valley. The addition of this factory to the industries of Corvallis is an encouragement to the already favorable outlook of our city's prosperity. We will do all we can to encourage schemes of this kind.--Salem (Oregon) Statesman.

To The Editor of The Sentinel. Through the columns of your paper I would like to thank my patrons for waiting so patiently for their pictures. Now that I am over the trip I will make arrangements for prompt action. Although on the road but a short time I am styled a tramp and humbug by would-be competition. However the citizens of Oregon realize the difference and appreciate good work and show it by their patronage. It does not seem to have taken me 10 years to work up a trade, had it done so I would consider I had missed my calling. As I will remain here but a short time, all parties wishing good work, will call at once, as they can save the expense of a trip to St. Joe. Respectfully, C. G. WILLEY.
