### We Meet Again.

It was our pleasure to meet Mr. F. C. Oakley, who has interested himself largely in bringing to a successful termination the Oregon and Forest City motor line. It was through him that the correspondence came about, that enlisted Mr. Oakley for a number of years, and this meeting was the first for nearly twenty years, and we find that time has dealt gently with him. He is a man of few words, but generally means what he says. We are glad to learn that he contemplates bringing his family to our city early in the spring, and if they do not conclude to take up their residence permanently with us, they will remain during the construction of the motor line and electric light plant. We hope that they may remain permanently with us.

### A Home Enterprise.

George Murray informs us that he entertained Messrs. Moses Townsend and T. B. Saxton, of Troy, Kansas, one day last week, their object being to visit the Holt County Nursery stock. Mr. Townsend is the gentleman that sold his apple crop, on the trees, last fall, to Columbus, Ohio, parties for five thousand dollars. They had just returned from Kansas City, where they were looking over the large nursery of Blair & Co., but they evidently concluded they could get a better stock for less money nearer home, as they gave their order before leaving Mr. Murray's for a \$300 bill, consisting largely of three-year-old Ben Davis apple trees. This bill will make about the fifth car load of stock that N. F. Murray & Co. have sold to Troy parties, to be delivered the coming spring.

### Those Who Helped.

Berres, D. Kunkel, Jr., John S. Curtis, Mrs. Emma Kreider, Ulrich Bucher, James Bucher, Anos Weis, Casper Michael, Jacob Whitmer, Samuel Whitmer, J. A. Kreek, Mrs. Sterrett, Stephen Sweetman, C. L. Riley, Leo Chaddock, J. C. Fitts, J. C. Philbrick, C. J. Hunt, T. S. Hinde, Albert Roecker, Carey Bunner, Clint Leverich, J. B. Payne, Kneale & Zachman, Kreek Bros., Charles Hoffman, N. F. Murray, James Curtis, Gid. Kunkel, Mrs. A. Berres, D. Kunkel, Jr., John S. Curtis, Mrs. Emma Kreider, Ulrich Bucher, James Bucher, Anos Weis, Casper Michael, Jacob Whitmer, Samuel Whitmer, J. A. Kreek, Mrs. Sterrett, Stephen Sweetman, C. L. Riley, Leo Chaddock, J. C. Fitts, J. C. Philbrick, C. J. Hunt, T. S. Hinde, Albert Roecker, Carey Bunner, Clint Leverich, J. B. ### Horticultural Society.

The Holt County Horticultural Society met last Saturday afternoon. Owing to sickness and absence of Secretary Blanchard the meeting was informal. Mr. Kaucher suggested the subject of drainage of our soils, how to prevent or moderate it. Mr. Milne suggested that on all grounds where there is much of hills or declivities, crops like clover, rye, grasses, should be grown. This will stop the running off of water. All the water that falls in Holt county soon gets into the Missouri river and our wells and some run dry in consequence.  
Mr. Brodbeck and Mr. Irvine showed how damming of ravines and hollows had stayed the water at some places and done good. Our soil is very peculiar in this respect, washing away and so porous all the water passes right through too rapidly. Plowing on hill sides is perfectly ruinous and should cease. It was admitted this is a great subject for Holt county to consider.  
Mr. Whitmer made some remarks on cooling moths and suggested lights put over water pans in trees to kill them. Mr. Irvine said that he heard these moths are not attracted by lights. Mr. Menefee objected, that you kill as many friends as enemies by this way.  
Putting cloth around trees to get the worms was advised.  
Mr. Brodbeck remarked at length on the subject. He said let us hire persons to examine the trees and pick off the apples affected by worms. Let us pay by the pound. This thing of turning hogs in to get the worms in fallen apples is a humbug. The worms are out before the apples fall nearly always. As to spraying he could not see any certainty in it. The little worm is in the apple, then what good unless you happen to hit the exact time. Suppose a few try my plan. No harm will be done and may be much good.  
Mr. Menefee did not know how that plan could succeed. It looked doubtful and difficult for several reasons.  
However it seemed agreed that the plan of Brodbeck ought to be tried. Every time you get a worm you prevented the subsequent appearance of hundreds.  
Again it was asked if the worms, etc. do not select old and decaying trees. Brodbeck believed so. Menefee had seen young trees attacked. Then it was asked if there are any young trees any longer. The tree starts at the age of the tree from which the grafts are taken. Four young trees are hundreds of years old by this theory. Experts long ago so declared. The apple is one of the longest lived of all trees. Yet new orchards die off in thirty years with all signs of age. Are not water sprouts a sign of age or decay?  
Much more was said. It was agreed that the two subjects need more discussion and the meeting dispersed.

### The Fire Company.

The fire company have received their hose cart and all other things required for a fire department. On last Wednesday night the company organized and extra steps were taken towards the erection of a suitable house for the hose cart, etc. They have also ordered a fire bell. They organized by assigning the men to the following positions: John Markit, S. W. Aiken, A. W. King, R. H. Russell, Geo. Seaman, Sterling Perkins, Mel Weber, Harvey Evans, et al; B. W. Thomas, R. Schlotzhauser, L. G. Greene, stackers. Kob Ruby, Sam Schulte, Leo Chaddock, John Eiler, sealer. John Philbrick Chief; J. E. Cummins, Capt.

### Surprised.

One of the most enjoyable surprise parties of the season, occurred at the home of Henry Perot, on Wednesday evening last, tendered Johnny Perot by his sister Mattie. The young man had been sent out hunting, and when he arrives home late in the evening with his hunting garments on, one can imagine the feeling of the young man on finding his home literally packed with young lads and lasses; and for a while Johnny thought he would run, but his better judgment took possession of him, and he stood his ground manfully, and he with the aid of his sister, made the evening highly enjoyable for all those who were present. The surprise surprised the young man, and the evening will be long remembered by the fifty guests present.

On the night of the 20th a thunderstorm passed over southeast to the northeast of us. The noise of the thunder was quite faint here. Later in the night a thunderstorm passed over and a light dash of rain fell, and on the following morning from 1 to 2 o'clock a light snow fell, drifting very much. The dry earth absorbed most of it. All that remains is found in patches or drifts.  
Severe cold weather has prevailed in the northwest during the past week the temperature falling to 18 at below zero many places.

### He's the Staff.

In the list of senate committees, appointed by Lieutenant Governor O'Meara, Senator Kennish, of this district, is placed on the committee of criminal jurisprudence, penitentiary and reform schools and justices of the peace. This district is ably represented in the person of Senator Kennish and he is a good man for the first named committee, which is a very important one. The criminal courts are an expensive luxury, the only ones are conducted in this state and the system of costs needs investigation. Our senator is well versed in law and is one of the best speakers on the floor. He will doubtless add laurels to his already enviable record during the present session.—Maryville Tribune.
