 —A good woman, middle aged, with good references, can find a good home by calling on or addressing Leo Hughes, Oregon, Mo.
 —Johnny Peret is putting in his vacation reading probate law and assisting Probate Judge Aikire. This beats holding down empty dry-goods boxes.
 —When in the city these hot sultry summer days, you can get cooled off by calling at Moore & Seeman's store, or at Mrs. Sayles' bakery, and get a dish of Mrs. Bennett's superior ice cream.
 —Our school board is having an additional cistern built at the school house. It will be 8x24, with a 6x11 filter. Henry Holtgreve is doing the work, assisted by George Higge, Paul Howell and Janitor Nipher.

 —And now comes the news through the Maitland Herald, that it is all a mistake about Jos. Hollister going to move from that town. It says that he is going to stay in Maitland, which impresses us that Joe is "level headed," to say the least.

 —The Kansas City Star remarks that Chauncey I. Filley's scheme for the Missouri Republican was a success many weeks ago, is a silver candidate on an anti silver platform. The "Old Man" wants to catch "ben gon" and "com". Yes, yes, but the "Old Man" is likely to wait and see how the scheme works down in Kentucky with the Democrats.
 —The editor of The SENTINEL was favored last week with a call from Mrs. Morgan, who kindly remembered us with a goodly supply of nice peaches. Our long and weary sojourn "continues" to our home by express has been borne by us with greater patience by the friendly calls of friends. "As you would that others should do unto you, do ye even so unto others."
 —The secret of raising such immense crops of corn in the bottoms below and above Forest City is made plain by an examination of their methods of culture, for they keep their cultivators going in their corn until it gets so large that they cannot use them, and then if the corn is not free from weeds and grass, they go through their corn with one horse and a double-shovel, and if it is not clean, they then follow with a roller, men and boys and free the field from weeds and grass.
 —The Great Burlington Route, with Vice Hovey generalissimo at Forest City, will run an excursion train to Council Bluffs, Iowa, next Sunday, July 14, 1895. There will be many attractions, bicycle races, base ball, barbecue, prize beef killing contest, cowboy's pony race, etc. This will be the banner excursion of the season, and you want to be sure and get on board. Train will leave Forest City at 8:50 a. m., arriving in Council Bluffs at 12:25 p. m. Returning will leave Council Bluffs at 8 o'clock p. m. The dollar and fifty cents will pay for round trip. See time table in another column.
 —Although a vast majority of our people stay at home, many large numbers never passed beyond the boundaries of their county, yet there are many citizens who have been world wide travelers and seen many strange sights. A case in point of our county would show us how some old settlers who have settled down as tillers of the soil after tossing upon the main, the never resting boundless ocean for long years in the past. Upon one of such we came the other day, and having that name upon their caps, the sailors were treated with great respect by the Genoa's, who, says our informant, John Curtis, the old sailor, "re-gained the memory of Columbus very much as we do Washington, and they keep a constant guard around the house where he was born."

 —We are in receipt of the initial number of the Northwest Farmer of St. Joseph, J. S. Rigdon, editor and publisher. Among the editorial we clip the following: "If you have anything to offer send it in. It is not just in the latest style language we will fix it up. We have a hired man for that purpose, see! This sounds like Rug and we wish him success in his efforts to make the north-western farm a winner."
 —In an article last week from School Commissioner Maxwell on the teachers institute to be held in Mound City, commencing July 23, and continuing three weeks, an error occurred through some oversight, as the commissioner's copy was incorrect. In the article read "against pedagogical information," when it should have been "toward pedagogical information." We republish this week, and cheerfully make the correction.

 —The race meeting held at St. Joseph, last week, was a winner in more ways than one, and took more people to St. Joseph than any other attraction given by that city for years. Manager W. C. Brown, of the Burlington Route, was one of the principal movers and managers of the meeting, and this, like everything he takes hold of, was a grand success, for he spares no efforts when he takes hold of anything, to make it go.
 —Dr. Aiken, of Forest City, and wife, are here visiting their daughter, Mrs. B. F. Weaver, of Forbes township. They are also old friends of George Meyer, formerly of this place, who is also here, and are also visiting. The doctor and his wife are well advanced in years, but carry their age remarkably well, not being a day over sixty years of age. While in fact, the doctor is four score and four and his wife in the seventies.
 —It would seem that while we have a stock law it should be observed. All over town people have, until lately, been "holding out" their horses and cows while they grazed. This is contrary to the law, yet it has been done, and so familiar has it become that the precaution of "holding out" is in many cases omitted, and half-starved horses are turned upon the streets with perfect confidence by their owners that they will not be disturbed by the authorities. With some it is a habit, and before and could reach him. The remains were brought to Forest City and interred in the Forest City cemetery on the Friday following. A large concourse of sympathizing friends. The grief-stricken parents have the sympathy of the entire community in their sad affliction.
 —The Gibson had a narrow escape from death last Monday. He was helping his father and some other men to raise aerrick near the Oakland school house, where they were getting in a bridge, and when the derrick was almost up the props gave away, letting it fall, and Giles not having time to get away, was struck on the head by an iron plate attached to the derrick, cutting a gash about five inches long. He was at once brought to town, and the wound was dressed by Dr. Aiken. He is now getting along in good shape, and no serious results are apprehended.
