—C. W. Lukens will be prepared to attend to dental work at the Midland Hotel in Mound City, all of next week, Dec. 31 to Jan. 1, inclusive.

—A series of meetings were begun at the Walnut Grove Christian church on last evening, Tuesday, 23rd inst. by Elder C. G. Stout, of Des Moines, Iowa.

—The Blair Sunday school people enjoyed a genuine old-fashioned "Christmas" on Friday evening. A goodly number of the people of the district were out.

—Miss Anna Wicker and Rob Brown, both of the Blair district, were married recently with their friends and family. They will reside on the J. J. Brown farm near Napier.

—John Miles, of Craig, who recently sold his farm adjoining Craig, to R. M. Froze, has purchased the Springer farm of 277 acres in southern Atchison county, paying sixty dollars an acre.

—The Missouri University Glee and Band club will entertain the friends at Gray's Theatre, St. Joseph, on Friday evening. Several of the Holt county alumni will go down to hear them.

—The Oregon SENTINEL came to us last week filled with advertisements and news and a handsome four page Christmas supplement. THE SENTINEL is surely prospering.—Andrew county Republican.

—Remember that R. C. Benton, the Mutual Insurance agent, will give you a chance to save 50 per cent on your insurance on life or estate property. See him before you insure with an Old Line Company.

—J. S. Smith has opened up a livery and feed stable in the brick barn, north of the New Commercial hotel in Forest City. First class rigs and good horses. Charges reasonable. Give him a call when needing livery.

—We are truly sorry to learn of the death of the thirteen year old daughter of John Kneal, the death occurring on December 9, 1895. Services were conducted by Rev. Flickinger, of the Evangelical church, on the 11th.

—Eugene J. D. Landers, of the Whitesville roller mill, recently got his clothing entangled around a line shaft that was running 142 revolutions to a minute, and a before the machinery could be stopped, his brains were dashed out and his body whipped to a pulp.

—Samuel Davidson and son, of Oregon, Holt county, Mo., who recently purchased Danville county land, went this week, looking over the county. A number of other good people from Holt county are expected here early in the new year.—Dunklin county, Mo., Democrat.

—It is rumored that Theo. Falkner and Les Plummer, of Harmony Grove district, have both left for parts unknown. The former, G. W. Falkner, several head of horses, a wagon and buggy and left his wife and three small children. We do hope the rumor is untrue.

—It is now rumored that Savannah is to be made a division point on the Chicago Great Western railway, and if materialized will be of great value to that anti-progressive town—that keeps its front door open to the Chicago Great Western, and holds its court in an out house. Perhaps the railroad will allow court to be held in the round house as soon as the division is established.

—The lawyers for the past week have been piling up work for the judge and juries in both the civil and criminal branches of our circuit court. The criminal docket presents a prospect of a very large, the most important being the perjury cases against Robt. Foster and wife and his mother-in-law, Mrs. Perry. A new feature of the court's program will be introduced at this term. Heretofore the docket has been so arranged that the criminal cases were placed first for trial, just as the civil cases were placed last, and consequently the state's attorney could not possibly give much attention to the grand jury because his time was wasted in trying the civil cases. In the new arrangement, the criminal cases will be set for trial after the grand jury has completed its labors, thus giving it know exactly what is transpiring in the grand jury room and what class of evidence is being taken. The arrangement we believe will prove of much benefit both to the state, the attorney and the taxpayer. It should have been put in vogue years ago. Judge Anthony, Attorney Murphy and Clerk Morris are to be congratulated.

—Our genial and urbane prosecuting attorney, the Honorable George Washington Murphy, never does anything by halves, as was exemplified last Saturday night. He is a soldier, a patriot, a gentleman in the company of the fair sex, but on this occasion he made up for the fame by a feat. He brought down from Mound City a fine concert given by the Chicago Ladies' Quartette, a company of young ladies, and a glance at their entranced faces would convince anyone that they were enjoying themselves. The following were the fortunate members of the party: Chaperone, the invincible Mrs. John Ross, with her husband; Miss G. W. Falkner, a sister of the late George Gordon; the petite and vivacious blonde, Miss Dora Whobrey, and last but not least, the literary and scientific Miss Fink. After enjoying the concert, the jolly party partook of an elegant luncheon at the Lawn Hotel, and at a light hour drove home, having borrowed one of Mound City's electric light to light them on their way. As it was not long ago, we saw the smiling countenance of "Pat" on the streets here Sunday morning, which is evidence that the party visited the "Hub," the place in Holt county where purely first class attractions stop.

—The Presbyterians and U. B. Sunday schools at Matland united in a very unique and interesting Christmas program. The story was of international character, bringing into use delegates, that represented the various countries. The M. E. people at the same place, presented "The Realm of Time," requiring some forty people to present the story. The Christian people presented Longfellow's "Seven Angels," vocal and instrumental music, with recitations, etc.

—The Horticultural society met last Saturday at the office of William Kaucher. The meeting was not well attended, owing to the holiday preparations going on. The discussions were confined mostly to the planting of pear and peach trees, and we regret exceedingly that our list of varieties recommended were lost and that we are unable to reproduce them or the discussions at the late date. The society promises something new and excellent for the future. Announcements will be made in due time.

—Meyer Post at its late meeting elected the following officers: Commander Daniel Kunkel, senior vice; E. W. Moore, junior vice; James T. Howell, officer of the day; A. C. Ware, officer of the guard; A. H. Greene, Quartermaster, Fred Seeman.

Mrs. Zok, the hostess, had a sumptuous dinner prepared and her friends witnessed the marriage. Our best wishes go with the young couple for a happy voyage on the sea of life.

—The collector of Macon county was largely copied out of the county books to collect the delinquent personal tax or they would collect it from his bondsmen. The result has been that the collector has gone after the delinquents and he takes whatever is in sight, as to wit: He visited one delinquent who said he could not pay and nothing out of which a horse could be made. He saw the turkeys and "gobbled" them—levied on them. The man owed \$1.40 and he sold his turkeys for 70 cents each, thus squaring the debt.

—For the first time we believe in the history of our county the railroad taxes for the current year were paid for the Holt county citizens. The Holt county Board of Commissioners has sent its check for \$6,880.23, and the Burlington for \$2,146.13, a grand total of \$9,026.36. There has been brought about by the efficiency of our officers and the correctness of the estimates made out by the various district school clerks. It is to be hoped that the district clerks next year will manifest the same interest as has been shown by those of this year, and if so then there will be no difficulty whatever in collecting the railroad taxes.

—Bates—that fellow that blew out the gas—who was in Oregon this summer and blew his buzz so, some, setting the front of the Holt county road, and he blew his horn, Carlisle, Sherman, et al. should conduct the national finances, has again peered out. He followed the Holt county road, and he did so; just like the woman run the Chicago hotel. Well, Bates is gone from Stanberry and Bates is now deporting himself to the States run, and he is just such a man as Bates that are a curse to the newspaper business, and never should be recognized by the faternity, or any reputable newspaper.

—The "Museum of Antiquity" that has been exhibiting in our city for several days, and creating much interest among our citizens, is this day of the week for Mound City, where they will commence a week's engagement. They have a wonderful interest in the Holt county, a pre-historic race of people, whose remains are found sealed up in the canyons of Colorado, Mexico and Arizona. They have a fine collection of 250 different articles found with them—stone, bone and wooden implements, baskets, beads, seeds, fabrics of various kinds, feathers, and other articles.
