—Our citizens and farmers took advantage of the recent snow, while it was here; by actual count, 50 sleighs and sleds were hitched around the court house square last Saturday. But now there is hardly a vestige of snow left, and early in the morning one is reminded of spring by hearing the birds twittering and singing.

—Holt and Caldwell counties claim to have each more corn in cribs than ever before in the history of those counties, and the farmers who own them are using it there in enough will be very glad that they cribbed it instead of selling it at 17 cents a bushel even if one-third of it does waste in keeping.—Brookfield Gazette.

This chicken is, or was a hen; we say hen, because it has been gradually going through an evolution until it is, it has grown a full set of rooster's tail feathers, and can now let out a clarion note as full, strong and clear as any rooster, and as far as appearance goes, is a full fledged rooster.

—In our article on our "Financial Conditions," in the issue of January 17, we made the statement that Oregon had the only bank in Holt or Atchison counties, that did not have any borrowed or rediscouted money. —Platte City has invested in a rock crusher that will make from 75 to 100 perch of macadam per day. We believe it would be a good investment for Oregon to do likewise, and when fellows are sent up it will be the means of furnishing them employment to pay their fines, besides the fact that the public square would in time become macadamized.

—The Brookfield Gazette last week gave a very extensive review of the assessment of Linn county for 1896 taxes, and according to this report, the average assessed value of the lands in Linn county is only \$7.16 per acre, whereas the average value of Holt county lands is \$11.50. It is just such inequalities as these that make the assessment laws of Missouri a mere farce.

—Of course the snow will melt soon of the sidewalks, but it takes considerable time occasionally to do it; we believe, however, it would be more comfortably for pedestrians if property holders would clean their walks, in the time and manner provided for by our city laws—but then we have a class in every community that can violate such laws with impunity, and we suppose we will always have them, but they should be made to obey the law just the same.
