

Biliousness
Is caused by torpid liver, which prevents digestion and permits food to ferment and putrify in the stomach. Then follow dizziness, headache, insomnia, nervousness, and, if not relieved, bilious fever or blood poisoning. Hood's Pills stimulate the stomach, rouse the liver, cure headache, dizziness, constipation, etc. It costs, sold by all druggists. The only pills to take with Hood's Sarsaparil.

Unconditional surrender. Is the only terms those famous little pills known as DeWitt's Little Early Remedy will make when constipation, headache and stomach and stomach troubles. Sold by T. S. Hinde.
Americans are the most inventive people on earth. There have been issued nearly 600,000 patents, or more than one-third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Colic, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Vaughn, of Oakland, Ky., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for several years, and find it to be the best medicine I ever used for cramps in the stomach and bowels. For sale by Clark O. Proud.
For Woman Suffrage.
Inasmuch as the admission of women into citizenship has not caused any radical alteration in the laws where women have become legislators, it is gravely argued that the exclusion of women from these rights cannot have been prejudicial to society. If ten thousand voters do the same as half that number did why increase the number of voters? Arguing thus we might get down to but half a dozen voters. Why have more if the few will do the same? The absurdity is apparent. The more will who collected judgment we get the greater our ability to get the wisest and in all ways the most able. There is a peculiar capacity in women to direct and regulate as to certain affairs. Why was it that the regents of Queens and Essex were so markedly prone to foolishness without exception? From Maria and Zenobia of antiquity down to Queen Victoria of day how the regents of Elizabeth Anne, Maria Theresa, Catherine loom up for our admiration. Grace has excluded women from all such power, but if she had one or two regents, wise and judicious such as Elizabeth's or Victoria's, her revolution would have come without such storms of fire and blood. We have never yet had a real people's government and never can until we admit that wise counsel, that cautious administrator and judicious observer, woman to equal power of rule with men.
"TO TIME AN UNLUCKY DEVI." It is well known that whenever any creature is deprived of the kind of food required to supply the duty waste that goes on, it begins to live upon its own bones flesh. Just as on nails and hair and skin are constantly growing away from the body and finally falling off just as our bones and flesh passing off and unless the right kind of food to re-supply the waste is given disease. It is for this reason that growing animals and work animals like horses and mules suffer when fed exclusively on corn, because corn affords so very little bone and muscle producing matter. Time and again are our western farmers warned about the kind of food they feed their animals. It is the kind of food that is the medicine you need. Health and Strength are guaranteed by its use. Fifty cents and \$1.00 at Clark O. Proud's drug store.
Ingenious Contribution Box. There is a Boston church where the contribution box has a small bell concealed in it, which rings only when a deposit is made. The collection is taken during the sermon, and the stung churchgoers are thus easily detected.
TO CURE A COLD IN ONE DAY Take Laxative Broom-Quinine Tablets. A single tablet relieves the most distressing cold.

male are due to the corn diet. Far better to confine them until a good hay or the year round. In fattening cattle to the same mistake is made. If some turnips or beets are given to them they can be made to weigh as much again by judiciously feeding corn along with these vegetables. At our Farmers Institute here last winter the lecturers warned us against feeding corn to growing or working animals. So far as hog raising is concerned the cheapest way to raise hogs is upon artichoke potatoes. President Evans of our state Horticultural Society says he has for thirty years turned of from eighty to one hundred fat hogs yearly on six acres of artichoke alone, when the winters were open enough to allow the hogs to root. Perhaps six weeks of corn feeding in all would improve the pork. Any man who will only study how, make more of a twenty acre farm than most of the farmers make of several hundred acres. Any thirty acres are more than enough for a careful, intelligent and industrious farmer who will keep posted on all the best methods. There are hundreds of ways of turning things into money, but one must learn how. For instance every small farmer might just as well put up eight or ten more hogs into bacon if he will learn how to feed his hogs properly so as to make first class meat and then how to cure it. Every pound will bring ten to fifteen cents to the farmer. Each hog will then bring him at least twenty dollars instead of seven or eight, besides the sausage and some and pipe feet for home use. Yet in all Holt county there is not one farmer who is now an expert in this business. Good potatoes bring thirty to fifty cents every spring—if they have been carefully kept. So far as the experience of many small farmers goes—it is everything to buy as soon as spring comes and horses die off, or get sick from an all winter corn diet, instead of coming out healthy as they should. "O I am so unlucky" is the cry, no you are only ignorant and careless. You never read a farmers paper or if you do you are too lazy indeed to remember any price you do read. You never try to attend a farmer's club or meeting and therefore because of such as you then are no farmer's club—which are the best and only true method of advancing farm interest. Is there one in Holt? XXX.

It will not cure everything. It is not claimed that it will cure but one complaint, that is, dyspepsia. We cannot say that it will cure every case of dyspepsia, but it will cure a large majority of them. Such cases are adapted to its use will derive immediate benefit. One small bottle will be sufficient to test it.
The Shakar Digestive Cordial is especially adapted for emaciated or elderly people whose food does them but little or no good because it is not digested. The Cordial contains an artificially-digested food and is a digester of food happily combined. Read one of the little books which your druggist is now giving away and learn of this wonderful remedy.
A really palatable Castor Oil can now be had under the name of Laxol.
When the spring time comes, "gentle Annie," like all other sensible people, will cleanse the liver and renovate the system with DeWitt's Little Early Remedy, a famous little pill for the liver and stomach all the year round. Sold by T. S. Hinde.
Everything Running Right.
So far as the condition of the treasury counts, business men have a solid basis for hopefulness. Everything is running right. The gold reserve is steadily rising under the inflow from the domestic production of the yellow metal—the best possible influence for the support of the currency. Last week the reserve gained another point in its upward movement, rising above the \$153,000,000 line. To be exact in the matter, it now stands at \$153,114,438, an increase of \$15,797,825 since January 1, and of \$1,414,438 in the fiscal year. This growth of the reserve, and the fact that growth continues at a very gratifying rate without the stimulus of foreign supplies, is a very favorable symptom, for it shows that, in spite of the persistent efforts which have been made in the past four years to discredit our present currency system, that system still commands the confidence of the country as fully as it did before it was so vigorously assailed.
Another very welcome feature in the current returns from the treasury is the increase in the largeness of the receipts. In March, as our readers may remember, the monthly deficit disappeared, to give place to a surplus of a little over \$600,000. This month, thus far, there is a deficit of \$1,060,913, but its reappearance is attributed to heavy payments of interest and pensions, which run large during the first of the month. Yet, large as the disbursements in these classes have been in April, the receipts have come within a little of balancing them. If the revenue continues on the present scale through the current April, it gives promise of showing a surplus of at least \$4,000,000. On that estimate, the returns for the first four months of the calendar year, when completed, will display an excess of receipts over expenditures to the amount of at least \$5,000,000.

THE NEW WAY.
WOMEN used to think "female diseases" could only be treated by "examinations" by physicians. Dread of such treatment kept thousands of modest women silent about their sufferings. The production of Wine of Cardui has now demonstrated that nine-tenths of all the cases of menstrual disorders do not require a physician's attention at all. The simple, pure Wine of Cardui taken in the privacy of a woman's own home insures quick relief and speedy cure. Women need not be troubled with "examinations" by physicians.
