Mr. Kipping's fame is extending. In the Twenty-fourth infantry, a colored sergeant of that colored regiment now in Luzon, when asked "what are you boys doing here?" replied in the classic phrase, "Why, boss, we're here to take up de white man's burden." When the negro feels himself helping the government, he will feel a close sympathy with that government.

Friday evening of last week, J. M. Keeves killed a large peccan, measuring seven feet seven inches from tip to tip of wings. He also shot a goose, but it was so fat that he could not find it.

Mr. and Mrs. Milo Kellogg, J. F. Kellogg's father and mother, arrived last Friday evening from Nebraska, and will make their future home in Skidmore, Nebraska. We gladly welcome these estimable people to our town.

D. P. Doherty, the senior of this paper, who has been at the Sisters' hospital in St. Joseph, since the 28th of last August, where he was taken to undergo a surgical operation, is now able to get up and about, and is able to sit up a few hours each day, and if his improvement continues as it has in the last ten days, he will be able to return home in November, probably the first or second week.

Put your boy to work if he is not in school. If there is nothing else for him to do put him to whitewashing the back fence, keep the lawn mowed and even cut the winter supply of winter wood.

Anything is better than loafing about town at the rear end of a cigarette, learning all the evil habits and contracting all the vices that are apt to catch filth, to honest labor will hurt your boy, but the evil habits he may contract in the streets may kill his soul and poison his moral nature so as to make him a detriment to the community in which he lives and bow down his gray-haired parents with sorrow. If the fathers and mothers of today would only learn the importance of training the sons so as to be industrious and keep them off the street, the coming generation would be inestimably better for it. Weston World.

After the jury in the Jesse case was dismissed Tuesday afternoon, the interested attorney in Judge Craig spent a short time discussing with the defendant's second trial shall take place. They finally agreed that the first trial should be "continued by agreement," the understanding being that the subject shall again be taken up during the first week of the November term, and, if possible, the date of the second trial then decided upon. It appears highly probable that the second trial of C. G. Jesse will not take place before next April. There are various obstacles in the way of his immediate re-trial. There are only two months in the year when a term of court does not begin in some county in the Fourth circuit, July and October. A regular November term begins in Nodaway county on the second Monday in November, a regular term in Centry county on the second Monday in December, a regular term in Holt county on the first Monday in January, a regular term in Atchison county on the fourth Monday in January, and another regular term in Nodaway county on the third Monday in February. The November term in Nodaway county, unless it is unusually short, will almost certainly be the last term in Centry county, and the December term in Henry, and Mrs. Jesse who lives in the latter county will probably wait some time in which to prepare his case for court in his own county, and by the time the December term in Centry is over the time for the January term in Atchison, unless the former is short, will have arrived, and when it, in turn, has expired, the regular time for the February term in Nodaway will almost certainly have arrived. It is, of course, possible that some arrangement will be made for Jesse's trial in the meantime, but this appears improbable. The killing of Griffin occurred on April 8, 1890, and if Jesse's second trial does not finally take place until April he will have already languished in jail a year for it.—Maryville Tribune.
