Heinz's Mince Meat

is the best. For sale only by J. N. Zachman & Co.

—The Forest City Journal is responsible for the statement that Jack Jimison last week sold 2,000 bushels of corn at thirty cents a bushel, and that D. A. Young and Henry Boyd were the purchasers.

—We are glad to hear of Miss Mattie Randall's success as a teacher. She is in charge of the Benton school, and under her management it is said to be one of the best disciplined schools in the county.

—The Peake Sisters will give one of their sparkling entertainments in Odd-Fellow's hall, New Point, on Saturday evening of this week, December 2. Music will be furnished by the Nickell's Grove string band. Admission, ten cents.

—Many farmers are done husking corn. This is tolerably early and is accounted for by the fine weather that has prevailed all fall. What a contrast to last year, when bad weather set in at the time of the great snow storm, October 17, and with but little intermission.

—Mrs. Jane Mauck, wife of Ferdinand Mauck, one of the oldest settlers in this section of Kansas and Missouri, died at her home in this city Tuesday night about 11:40, after an illness of several months. She was surrounded by her entire family when death claimed her. The funeral services took place this afternoon from the family home at 2 o'clock.

—White Cloud, (Kan.) Globe, Nov. 23.

—School Over Montgomery & Roecker Bank.

This coupon is good for one dollar payment on "Standard Square Inch Tailor System," if presented at school in 15 days.

MRS. M. E. AND ADA STINE.

—Wm. Peterson of Andrew county, drove to this city Monday 31 head of cattle which won considerable attention. They averaged 1212 pounds and were on near the same size that there was not a small nor a coarse steer in the herd. Bishop & Lightle sent them to St. Joseph where they sold for \$345. Mr. Peterson has twenty steers of the same herd left which he will turn off in a few days. He bought these steers when they were calves, gave them grass and corn feed this summer and is said to be making easy money on them.—Maitland Herald.

—Our good old town in many respects keeps fully abreast with the times. She has a Chrysanthemum society, a Chautauqua, a Chicken fancier society, and a Gun club. The latter had their regular monthly shoot last Friday afternoon, and the gold badge was won by Esquire Rostock. Charley Roeker has been wearing the badge for quite a while, but the badge now adorns that "manly bosom" of the Squire, and he is all-fired proud of the ornament besides. The club is composed of F. S. Rostock, president, Will Hinde, secretary, Charles E. Marsh, treasurer, T. S. Hinde, Selb Carr, Perry Moore, Phil Schlottzauer, Hugh Burrier, J. C. Philbrick, Chas. Bunker, Channing Kunkel, Chas. Roecker, R. S. Keeves, C. D. Zook.

—The house occupied by Ed Fitzmaurice on the old Wilson farm, about 2 1/2 miles north of town, was burned to the ground Monday morning about five o'clock. Mr. Fitzmaurice did not save anything from the building, and he and his family are now at the home of his father, P. Fitzmaurice. The farm belongs to P. Fitzmaurice. A part of this house was built by J. H. Wilson's father when he pre-empted this land some time in the forties. J. H. and his brothers and sisters were born in the old room, which was constructed of logs. It was a five room building, dry as tinder, and burnt rapidly. We did not learn how the fire originated. There was no insurance. We understand Mr. Fitzmaurice will rebuild at once.—Forest City Journal.

—The canning factory received during the season, eight carloads of empty cans, three carloads of box stuff and four carloads of coal, and sent off 28 carloads of canned goods.—Forest City Journal.

This reminds us that Forest City would be a first-class location for a cellulose plant, the by-product of the cornstalk, which is now used in the building of warships. The location is certainly favorable, to consume the cornstalks of Eastern Nebraska and Kansas, and the great Missouri belt from Omaha to Kansas City. A plant is now being built at Peoria, and it would cost but a few postage stamps for the business men of our neighboring city to get in correspondence with the Marsden company. We suggest that they try it. The prevailing price is \$100 an acre for the cornstalks delivered. This alone will pay for the ground rental.

—This assertion will not be contradicted by anyone that gives us a call. We are selling goods at a very small profit. The goods bespeak our popular prices—the people like them. Our success has made us like that way of doing business, and "Popular Goods at Popular Prices" has become "The Feature" at our store. New goods are being unpacked every day. OREGON, MISSOURI.

Office Hours: 8:30 to 11:30 a. m., 1:00 to 5:00 p. m.

—Miss Cora Evans has been appointed postmistress at Elmira (Fortress), vice Samuel Tribble, removed. We congratulate Miss Cora upon her appointment, and know that the citizens of Forties will have no reason for complaint under her administration of the office.

—Charlie Danlos attended the Mammoth show at Oregon last week. He was highly delighted with the display and says it was the finest display he ever attended. He brought back some premium flowers and presented them to several of his lady friends—Corning items in Craig Leader.

—From the record made by the weighing of mails recently, it appears that Rockport is entitled to first place for the greatest amount of mail matter sent forward by that office as compared with Tarkio, Mound City and Oregon. The amount sent forward by these offices is as follows: Rockport, 468 lbs. 11 ounces; Tarkio, 286 lbs. 15 oz.; Oregon, 247 lbs. 13 oz.; Mound City, 3,101 lbs. 6 oz.; Savannah, 1,412 lbs. 6 oz.

—Farmers with a lot of feeders on hand and an inadequate supply of corn to carry the cattle over to market in proper shape, are commencing to feel a little shaky. Corn is locally worth 20c, while the shipping market will only stand 22c. At points in Holt county the demand for corn among feeders has run the price to 20c, and we hear of some who have contracted for a lot at 25c. That looks like a pretty stiff price for corn to put into cattle.

—Remember that the ladies of the M. E. church will hold a Fair in the Collier building, first door east of Schulte Bros. store, Friday and Saturday, Dec. 15 and 16. They will have on sale fancy articles of different kinds—just what you will want for Christmas presents.

—Miss Nova Polk, who has been visiting her father, brother and sister in Oregon for several weeks, returned to her home in Chicago, this week, where she was called to take charge as forewoman in the large military establishment known as the "Millinery World." Miss Nova is a deserving young lady, and we congratulate her upon securing this position.

—The house occupied by Ed Fitzmaurice on the old Wilson farm, about 2 1/2 miles north of town, was burned to the ground Monday morning about five o'clock. Mr. Fitzmaurice did not save anything from the building, and he and his family are now at the home of his father, P. Fitzmaurice. The farm belongs to P. Fitzmaurice. —Thos. Lindsay, aged 21, was shot and mortally wounded by his younger brother, Jesse, at the home of their mother in law, Joseph Yeager, near the west of Maryville, Friday of last week, Nov. 24, 1899. An attempt was made to keep the affair secret, but it leaked out. The mortally wounded young man says the shooting was accidental, but his brother-in-law declares that he heard the boys quarreling in a room; that Jesse desired Thomas to come out into the yard, threatening to kill him if he did so; that they went out and immediately he heard the shot. Another suspicious circumstance is that Jesse disappeared immediately after the shooting and has not been seen since.

—The ladies of the M. E. church will hold a Bazaar or Fair, in the Collier building, first door east of Schulte Bros. store, Friday and Saturday, December 15 and 16. They will have on sale all kinds of fancy articles, suitable for Christmas presents.

—Joseph Conley is now exhibiting his latest invention, an ingenious combination of a coat, overcoat, cape, hampack, bed and dog tent, all of which may be carried as a knapsack. He will present the contrivance to the officials of the war department with a view of getting it adopted for use in the army. It is however, well calculated for hunters, travelers or anyone compelled to sleep out of doors.—Mound City News.

—We don't blame the good people of our enterprising town of Maitland, from feeling a little stuck up. Their post-office will go upon the presidential list on and after January 1st, and the salary has been fixed at \$100. This will make three presidential postoffices in Holt county. Craig ought to be a presidential office, and would soon become such if her people would only send everything mailable through the postoffice. It is a great mistake to send small packages by express, when the postal service is every way as safe.

—Mrs. M. Sayles has a nice lot of mince meat for sale.

—John Young, of Port Arthur, Texas, is here on a visit with home folks.

—See Medallion Portraits, Colored Panels, new enlargements, buttons for Holidays at Zook's gallery.

—Are you looking for Holiday or Christmas presents? It is time to begin to make your selections. Attend the fair to be given by the ladies of the M. E. church, in the Collier building, first door east of Schulte Bros. Friday and Saturday, Dec. 15 and 16, where they will have on sale fancy and useful articles of every description. You will find something there to suit you, and at low prices.

—The Modern Woodmen of America held a rousing meeting last Tuesday evening. One candidate was instructed in the mysteries of woodcraft, in a very credible manner. A large number of the choppers were in attendance and all enjoyed themselves. Lodge closed to meet the second Tuesday in December, when the election of new officers takes place. All should be in attendance at this meeting.

Taylor vs. G. W. Pullen and wife, taken up from this county, in which the plaintiff was awarded \$800 damages in suit for slander.

—The fire rans of the past week have made glad the heart of the farmer as they insure him a sufficiency of water for his stock during the winter. The cisterns have also been filled, and what looked something like a water famine two weeks ago has been happily averted. The very mild weather has also started the pastures afresh, and the wheat fields are looking remarkably fine.

—Last Friday evening about dark Joe Steele, the twelve year old son of A. G. Steele, went to get some articles of clothing which was hanging in a wardrobe and not being able to find the garment readily struck a match in order that he might see clearly. In a moment he discovered that he had set fire to the clothing and before the blaze was extinguished the wardrobe contents had been destroyed and the wardrobe ruined. The wall was also considerably charred. Fortunately neighbors noticed the fire in its incipient stage and came to the rescue of Mrs. Steele, thereby preventing a much more serious loss, and perhaps the total destruction of the building.—Mound City News.

—Go to Mrs. Sayles for choice mince meat.

—H. C. Millican has our thanks for a nice lot of Grand river hickory nuts.

—We are told that the man who found coal for the Kankins, on their land near Fairfax, contracted to do the prospecting and boring for a share in the property or mine should call be found in paying quantities. After the forty five-inch vein was reached W. E. Kankin told the prospector he could either draw on him for the purchase price of the best 100 acres of land in the county or retain a share in the prospective coal bonanza. The prospector was not long in deciding to retain his share, as he is quite well satisfied that the bonanza of the earth will yield an abundance of "black diamonds."—Bank Post Mail.
