-A look about the barns and sheds ought to suggest, whether everything is made warm and snug for the stock during the winter. When prices of feed range high, it will pay to do a good job of sheltering; it does not pay to do this in an indifferent manner. Cover will take the place of a good deal of corn. Every bushel saved means more than fifty cents.

-The Methodist listening to the Sabbath school superintendent of St. Joseph, Mo. "Work."

Make the children smile. They are only with us a while. Santa Claus only comes once a year. What is a dime, a quarter or more, to wipe a tear. Come in to T. S. Hinde's and see his Toys and Holiday Presents, and wipe the tear.

-The little three year-old daughter of George Morgan, of Forbes, while playing in the house one day last week, slipped on an apple peeling, and in falling broke her limb between the hip and knee. -The many friends of Miss Fannie McNutt, who for several years was one of the teachers in our public schools, sympathize with her in the death of her brother-in-law, Preston Holcomb, whose death was caused by the accidental discharge of a gun in the hands of a companion while out hunting near Bowling Green, this state. -James Spencer, brother of Sheriff Spencer, was accidentally shot and possibly fatally wounded near Amazonia about 11 o'clock Sunday morning. Spencer was out hunting on an island in the Missouri river with Jailer John Thomas when the accident occurred. They were walking across a field, single file, Thomas in the rear. Spencer was carrying his shotgun over his shoulder; holding it by the barrel, when his hand slipped, letting the weapon fall to the ground. Both barrels of the gun were discharged. Both shots struck Spencer in the upper part of the thigh, on the inside, making a wound nearly six inches square. The wounded man was taken to the Sisters' hospital at St. Joseph. The wound inflicted is a dangerous one, the discharge from both barrels, loaded with No. 5 shot, passing through the thigh. The serious nature of the wound is deeply increased by the long exposure. The loss of the limb can hardly be averted, and the greatest fear of a fatal result is entertained by the physician.
