The All Right Washer.

Is something entirely new. Some of its prominent features as; It is the quickest. It is the simplest. It runs the easiest. It removes the dirt. It gets the streaks out. It is the most durable. It weighs the least—25 pounds. It will not rust or go to staves. It washes the dirtiest places the fastest. It washes by the latest scientific principle. It will wash a cambric handkerchief alone. It will wash 6 yards of carpet at one time. It adds years of happiness to the laundress. Hear what some of our prominent citizens say regarding its merits. They know good washings when they see them.

OREGON, Mo., June 15, 1903. We can cheerfully say that after trying the "All Right" washer on a large and dirty washing, we find it a complete success, it surely gets the worst soiled clothing clean without hard rubbing. We would rather have it than any machine we ever saw.

Seelig will preach his farewell sermon here next Sunday and will leave the same week for his new field of labor. Another pastor will be called here as soon as one can be decided.—Hopkins Journal. On Tuesday evening of this week, Rev. Seelig and wife were tendered a good bye reception at the home of C. S. —We have heard of a number of farmers losing cattle from clover bloat of late which calls to mind an old and simple remedy that is almost a sure cure, at least 90 per cent of the clover bloat cattle can be cured by the following plan: Take a round stick some eight or ten inches long and the size of a broom handle, or a little larger, and place it in the brute's mouth like a bridle bit. The result will be marvelous.—Maryville Republican.

—There is only one way to advertise, says John Wanamaker, and that is to hammer your name and your business so constantly so persistently, so thoroughly into the people's heads that if they would walk in their sleep they would constantly turn their heads to your store. The newspaper is your best friend in spite of your criticism. It helps to build up your community which supports you. When the time comes that the newspapers are dead the people are near the edge of the grave with no one to write their epitaph.

—Miss Alice Price was the surprised party at a complimentary dinner tendered her on Sunday last by her parents on the occasion of her arriving at the twentieth mile post in her life's journey. A few friends had been invited in to enjoy the hospitality of Papa and Mama Price, and they came bringing with them tokens of love and esteem for the little lady so dear to her large circle of friends. A most delightful and happy occasion it proved to be, not only in a social way, but the repeat was of the Delmonico order and certainly enjoyed by the little coterie who were so fortunate as to be there. May the recipient's future twenty years be as beautiful and happy as those that have just been curtailed to the past.

His son Grant is now the manager of the largest wholesale drygoods house at Wichita, Kas. They too formerly resided here; the former was in the harness business and the latter farmed on the land now occupied by James Vaughn, but owned at that time by Sam Davidson. —We are glad indeed to hear of the improved condition of Judge Craig, and trust he may continue to improve until he may soon "be himself again." While we would be glad to see him back upon the bench at the coming August term, we believe it would be the better part of wisdom if he would call some one to hold the coming term, and let the docket be cleared of every case possible, thus giving Judge Craig a light docket for the coming January term. His full and complete recovery is sincerely wished for by THE SENTINEL.
—On last Tuesday night the school board let the contract for the building of the new school house, the successful bidder being Lou Nunn, of Stanberry. This has been a hard problem for the board, but after continuous work on the receiving of bids they at last secured a good contract at \$28,000, the contractor buying the old building at \$2,000. The contract for heating and ventilating has been let for some time to the American Heating and Ventilating Co., at Kansas City at \$3,452. This makes the entire cost of the building excluding furniture \$32,452.—Savannah Democrat

—Omar D. Gray, who has a habit of saying things in a style peculiarly his own, printed the following in his Star-gazer Leader: A woman will yank up the gyo ropes of her corset until she almost squeezes her immortal soul out of place, put a dead bird on her hat and go strutting around over town selling tickets for an entertainment to raise money to help send missionaries to some foreign clime for the purpose of teaching civilization to the poor heathens who have never known what it is to wear a corset and have been struggling on in the ignorant belief that birds were created to sing instead of being worn on the hat.
—W. R. Herabborger, better known as Will, who was raised and educated in this city, and who was here over the Fourth, accompanied by his daughter, visiting his sister, Mr. Elma Jones, had "oodles" of fun with his former school and playmates. Some few would call his name, but the majority would guess almost everyone that had ever lived here. We do not see much change in Will, only that he may weigh a little more. He is the same jolly, laughing, good fellow that he always was. We are glad to learn that he is prospering, being one of the leading jewelers of Kansas City, Mo.—in fact in the diamond merchant of that city.

Don't juggle with the hat question. If you have secured the hat habit, it will be dollars in your pocket to wear the

Longley Hat

and be assured of perfect style and a gracefully wearing hat. By "gracefully" we mean that the LONGLEY doesn't fade or wear shapeless and the sewing doesn't turn dirty and the felt doesn't grow spongy. You may spend more money for a hat. It's useless. If you'll come in and put your eyes on a LONGLEY you'll know why. The LONGLEY HAT will suit you in price. So will our Longley, Low & Alexander brand of gloves and caps.
