—L. P. Watson, "Lou"—everybody in this section knows him, and they do not make any better men. Well, to introduce him a little more and "betterer," we will say that he is manager of the Forest City Canning Factory, and he is a hustler and a rustler, too. But, to get down to the gist and facts in this case: It happened that Lou first saw the light of day 43 years ago last Wednesday, June 1, 1911. His many friends at Forest City planned and executed a surprise upon him on this occasion, and one of the tokens left him by his admiring friends was a handsome Morris chair. It is needless for us to say that Lou will do full justice to this chair and test it thoroughly in the various positions it can be made to assume. We join with his numerous friends in wishing him many happy returns of the occasion.

—A couple of travelers across the prairie saw a cyclone tearing along in their direction picking up houses, barns and livestock as it came. One of the travelers in his fright dropped on his knees and commenced to pray.
