ADVERTISING RATES.

Display Advertising: 15c per inch, run of paper, where display exceeds three inches; under three inches, 25c per inch. Line Rates: 10c per line, first insertion; 5c per line, each additional insertion. All straight readers to be counted at line rates, unless matter exceeds half column, over that to be 25c per inch.

Yearly Contracts: 12 1-2c per inch, net, each insertion. Where an advertisement has extra composition, same will be charged accordingly.

(These Rates are NET to All Advertisers and Agents.)

Notice.

Beginning the first of the year, THE SENTINEL decided to charge a half-rate to churches, schools, and all societies, for all locals and notices published, where there is a money consideration made by the churches, schools, societies, etc. All of the papers in the county have always charged for this class of matter, and in justice to ourselves and our contemporaries, and on account of the increased cost of all things entering into the production of a newspaper, we decided to adopt this course, and it is still in force.

"MONEY"

The mint makes it and under the terms of the CONTINENTAL MORTGAGE COMPANY you can secure it at 6 per cent for any legal purpose on approved real estate. Terms easy, tell us your wants and we will co-operate with you.

How Tell Age of Horse.

To tell the age of any horse inspect the lower jaw, of course; The six front teeth the tale will tell And every doubt and fear dispel.
Two middle "nippers" you behold Before the colt is two weeks old. Before eight weeks two more will come Eight months the "corners" cut the gum.
The outside grooves will disappear From middle two in just one year; In two years from the second pair; In three the "corners" cut are bare.
At two the middle "nippers" drop. At three the second pair can't stop; When four years old the third pair goes, At five a full new set he shows.
The deep black spots will pass from view At six years from the middle two; The second pair at seven years; At eight each spot the "corner" clears.
From middle "nippers" upper jaw At nine the black spots will withdraw; The second pair at ten are white; Eleven finds the "corners" light.
As time goes on the horsemen know The oval teeth three-sided grow; They longer get, project before, Till twenty, when we know no more.
—Blacksmith and Wheelwright.

Adam and Eve and That Apple.

How many apples did Adam and Eve eat? Some say Eve 8 and Adam 2—a total of 10 only. Now we figure the thing out far differently. Eve 8 and Adam 8 also—total 16.
And yet the above figures are entirely wrong. If Eve 8 and Adam 82 certainly the total would be 90. Scientific men, however, on the strength of the theory that the antediluvians were a race of giants, reason something like this: Eve 81 and Adam 82—total 163.
Wrong again; what would be clearer than, if Eve 81 and Adam 812, the total 893?
If Eve 811st and Adam 812, would not the total be 1623?
I believe the following to be a fair solution: Eve 814 Adam, Adam 8124 Eve—total 8,938.
Still another calculation is as follows. Eve 814 Adam, Adam 81,242 obliged Eve—total 82,056. We think this, however, not a sufficient quantity. For though we admit Eve 814 Adam, Adam if he 8,081,242 keep Eve company—total 8,082,056.
All Wrong. Eve when she 81,812 many, and probably she felt sorry for it, but her companion, in order to relieve her grief, 812. Therefore, when Adam 81,814,140 by Eve's depressed spirits. Hence both ate 81,806,994 apples.—Exchange. THE SENTINEL is published in an apple country and firmly believes it knows something about figures and gives the following: that if when Eve 81,812 many and Adam wanting to comfort her 81,028,124,240 by her thus making a grand total of 81,028,124,306,052, that the pair got away with.

Motto of the Siamese Nation.

Have you heard the motto of the government of Siam? And having heard it, have you repeated it? And having repeated it, have you caught its purely personal application? And having caught it, have you tried it on your friends? This is the motto: "Ah Wa Ta Nas Siam." It sounds unintelligible nonsense, but keep saying it over as long as you can and as fast as you can and you will discover at last that the eastern patois has a western sense that aptly classifies many a remorseful subject of Uncle Sam. For "Ah Wa Ta Nas Siam" is easily evolved into "Ah, what an I am."—Chicago Chronicle.

The Kilties are coming!
to the **Chautauqua 5th Day**

Here's the Band that spent two and a quarter years in a grand world tour in which they played before kings, queens, princes, princesses, dukes, duchesses, lords, ladies and many of the high moguls of royal blood in twenty countries. King Edward VII commanded them to play twice in his royal presence at Balmoral Castle and at his beautiful Sandringham palace. They filled important engagements in the famous Crystal Palace, London, and a score of the notable halls and temples of the world, where in one instance as many as 170,000 persons gathered to hear them in a single day.
Now they are coming to our Chautauqua on a tour of many hundred miles over the Chautauqua circuit. They will appear here in their regalia and splendor on the afternoon and night of the fifth day. It is the original world-renowned Kilties Band with Will F. Newlan as conductor, "Wee Jamie" Clark, pipe major and J. Coates Lockhart, tenor soloist. Nineteen men in all.

THEY WILL APPEAR AT POPULAR PRICES

The Chautauqua management is determined to make it possible for everyone to hear the Kilties. We urge that you get season tickets for every member of the family. They bring the cost down to a few cents a number. However, the single admission prices for the Kilties will remain the same as for other Chautauqua attractions: 35c at night, 25c in the afternoon. Children 15c.

CONAWAY'S BIGELOW BUDGET.

From the Last News-Jeffersonian.

—No, siree, no one hit J. E. Slater in the right eye one day last week; that was just a sting from one of his pet bees that caught him when he wasn't looking.

—Guy Jones says it's an ill wind that blows nobody good and that this continued wet weather will do away with the Hessian fly which has been doing so much damage in this vicinity for several years.

—Nelson McKee has recovered from his Fourth of July accident and is back on the schoolhouse job. Nelson is one of the Bigelow boys who went to work on the school building when the work first began and is staying with it, and he is to be commended for his enterprise.

—C. H. Walrath was here, one day, last week, looking over his farm northwest of town, occupied by J. H. Bennett. Mr. Walrath is making arrangements to build a large hay barn on the farm in the near future to take care of the alfalfa crops, and is very pleased with Mr. Bennett's management of the farm.

—James Riley Catron was in town last week wearing that usual good-natured smile. James Riley says crop prospects were never better on his ranch and that his corn is laid by and is in good shape; but when some one mentioned alfalfa to him he didn't have much to say, and we suspect James Riley, like a good many of his neighbors, got quite a lot of his alfalfa wet and spoiled by the recent rains.

—A telegram to Mrs. W. W. Waggoner last Friday, announced the death at Vinita, Okla., on that date of Mrs. Waggoner's uncle, John P. Hinkle. Funeral services were held Sunday; interment at Vinita. Mr. Hinkle was about 72 years old and was a resident of this vicinity forty years ago. He had been ill for the past seven or eight months and was a patient at a sanitarium in that city and will be remembered by our older residents.

—On Sunday, July 25, at 3 p. m., the Sunday schools of Bigelow township will meet at the Christian church for the purpose of discussing the topic, "How We May Succeed in the Sunday School Work." The Tarkio Chapel

Sunday school and the Bethel Sunday school are invited to come and help to make the work a success. Everybody is invited to this meeting regardless of denominations, and the meeting should be a success.

—W. G. Maier, our hustling livery barn manager, bought twelve mules last week. A few around Oregon, one of Kahn Bros. and one from W. M. Morris and also traded an extra fine span of mules to Frank Walker. Under the management of Dutch Bill this livery barn is being put on the map and they are certainly handling lots of mules. If you have a mule to sell or want to buy mules from one up, no limit, call on the Bigelow livery barn and you will be accommodated.

—Another big rain of about three inches last Sunday night, which put both Tarkio and Mound City branch roads out of business and the farmers for several days. Tuesday morning the water was almost up to the ties for a distance of two miles north of Bigelow, and at this writing, (Tuesday morning), prospects are all ground between the main-line track and Big Ditch will be under water before evening. One man Tuesday morning estimated the damage to this vicinity alone to be \$100,000. This weather proposition is certainly getting to be a serious one in this vicinity. Tuesday morning the levee just north of the Jessup place, better known as the old Brown farm, broke, letting a large body of water come down the east side of the track, flooding everything.

—Lee Asher, assistant agent for the Burlington at Napier, met with a very bad accident while working with a gasoline pump engine at Napier last Thursday morning. In reaching over some cog wheels while the engine was running, the sleeve of his jacket he was wearing got caught in the cog wheels and pulled his right arm into the cogs, crushing the fleshy part of the arm between the elbow and wrist, but fortunately not breaking the bone or leaders. A light engine which was fired up for the morning passenger train brought him to Bigelow immediately, where Dr. Hogan attended him and took him to the Basworth hospital in St. Joseph on

the morning train, where he is receiving the best medical attention. It was necessary to graft about four square inches of new skin on his arm, and he is getting along as well as can be expected, and it is thought he will be able to leave the hospital in about three weeks. It was a miracle that his whole right arm was not chewed off, and while the accident was a bad one yet it might have been much worse.
