**Notice.**

Beginning the first of the year,  
THE SENTINEL decided to charge a  
half-rate to churches, schools, and all  
societies, for all locals and notices  
published, where there is a money  
consideration made by the churches,  
schools, societies, etc. All of the pa-  
pers in the county have always  
charged for this class of matter, and  
in justice to ourselves and our con-  
temporaries, and on account of the  
increased cost of all things entering  
into the production of a newspaper,  
we decided to adopt this course, and  
it is still in force.

**The Late Elections.**

Mr. McComb's native remark about  
local issue has not reconciled the  
White House to the results of the late  
election. The President had no special  
wire run to the executive mansion  
to get reports on "local issues." He  
knew that the administration was in-  
volved. No White House comment  
has been made. Mr. McCall pushed  
national issues to the fore in Massachu-  
setts. In three congressional elections  
in New York, national issues were  
emphasized, as they were in the con-  
gressional election in Pennsylvania.  
In the 24th district of New York, the  
tariff was the one big issue. A Repub-  
lican was chosen to fill the seat of a  
Democrat elected last fall by 6822  
plurality. A Republican displaces a  
Progressive from Pennsylvania. Repub-  
licans succeed Republicans every-  
where except in Maryland. The Repub-  
licans strengthened their control of  
the legislatures of New Jersey and  
Massachusetts, held their control in  
New York and made legislative gains  
in Maryland and Kentucky. The  
elections in the various cities in var-  
ious states showed a Republican trend.  
The Democrats carried Maryland by  
a small margin, when compared with  
the 54,888 plurality Mr. Wilson received  
in 1912 and the 16,000 plurality  
Senator Smith received last fall. In  
Kentucky the Democratic plurality  
shrank from the 31,000 of last fall to  
almost nothing. Nowhere did the  
Democrats make gains except in New  
York City. Tammany won some  
offices, but could not turn the Repub-  
lican congressional tide.  
But the most significant victory  
was in Massachusetts, for that was  
the hot bed of Republican defection.  
Mr. McCall is the first Republican  
governor chosen after five annual  
elections.  
The sentiment of every section that  
spoke Tuesday, November 2d, was  
more anti-Democratic than last year,  
when a Republican president would  
have been elected had it been a presi-  
dential year.

**Home From Expositions.**

Edwin A. Welty has returned from  
his extended visit to the Pacific  
Slope. He gives a glowing account of  
the expositions, but says they are  
strictly American, as there are no  
foreign exhibits of any note. Mr.  
Welty, we believe, is one of those  
men, who can see as much, in the  
same space of time, as any man we  
know, and he can tell you more about  
the sights and what he saw, than any  
man we ever met.

**Will You Join Me**

In a tour of the North Platte  
Valley of Nebraska and the  
Big Horn Basin of Wyoming,  
leaving Omaha, December  
7th? The prevailing high  
prices and great demand for  
agricultural products will  
soon force a big increase in  
land values. This trip will  
enable you to see first hand  
the almost unbelievable op-  
portunities that abound in  
these sections and give you  
a chance to buy land before  
the price goes up. Neither  
the company nor myself have  
any lands for sale and my  
services are free. We want  
reliable farmers as residents  
along our lines. I strongly  
urge you to make this trip,  
because it won't cost you  
much, and because I believe  
it will pay you handsomely  
to do so. How many will  
there be in your party and  
where will you start from?  
Let me know soon, please,  
so I can make the necessary  
arrangements. S. B. How-  
ard, Immigration Agent,  
Room, 412 Q Building, Oma-  
ha, Nebraska.
