—Tom Huston, lineman for the Farmers' Telephone company, was in Bigelow, Tuesday, working on the Mound City line. Mr. Huston is having quite a lot of trouble these rainy days, and it keeps him pretty busy hunting trouble. Understand that Tom got a nice raise from the company, a few days ago.
—We have been having some pretty fine weather, the past few days, and the ground is getting so that the farmers can get into the fields. The continued rains kept them out of the fields so long that some of the corn is getting in pretty bad shape, and it is to be hoped that the weather will permit them to get their corn in good shape now.
—All of the teachers of Consolidated District No. 3, have been employed, with the exception of assistant in the high school. The principal, Mr. W. T. Butler, is a graduate of Missouri Wesleyan College, at Cameron, Mo., and has taken post-graduate work at the State University for one year and six months. Miss Esther Shiner, who so successfully taught the 7th and 8th grades last year, was re-employed for the same position this year. Mr. Fred Waggoner, who taught a very successful term at Elm Grove, has the 4th, 5th and 6th-grade room at Fortescue. Mr. Waggoner is a graduate of the Mound City high school, and took the Teachers' Training course at that place. Miss Jennie Shiner, a graduate of the Brainerd, Mo., high school, has the primary room. Miss Shiner came very highly recommended, and if she makes as good as her sister who had the 8th grade last year, there can be no room for complaint. In the country districts, the following teachers were employed: Idlewild, M. Genevieve Price; Walnut Grove, Miss Elsie Park; Elm Grove, Miss Elsie Crow, and of the Walker school, Mr. Loren Joslin. All of the teachers, with the exception of two, are experienced teachers, and all have been very successful in their work.
—We wonder how many people there are in the district who may have a number of good books which they would be willing to donate to the school library? There are generally

a good many people who have a number of good books which they have read, and who are willing to donate them to a good school library. We have quite a nice library started now, having around 400 volumes, but could very nicely make use of a number of books, if any one feels like donating anything to the library. If there are any who have any books which they are willing to donate to the school, they will please give a list to the clerk of the school board. The books most needed are for outside reading. Any good book will be thankfully received.

Robert Evans

This horse has been in this community now one year and from the looks of this spring colts which have already been foaled he is certainly proving himself a great sire.

Robert Evans is an American-bred Percheron horse, 8 years old this May; has a large flat bone, a good broad back, a beautiful dark dappled bay, perfect in conformation, splendid action; no better breeding horse in the county; weighing 1900 lbs in condition, and of a very kind disposition, any 15-year-old boy can handle him.

BIG JUMBO

Is a Black Mammoth Jack, who has been in this community now one year, last season being his first season for service. Jumbo is 4 years old, has a 9-inch bone below the knee, 15 hands high, a large broad foot and not a pimple of any kind on this Jack. No old Jack sores or stiff joints or anything of the kind. Black as a crow, with white points; a very 'one body, and good and close in the flank.

This Horse and Jack are both sure breeders, as over 85 per cent of last season's breeding are showing safely in foal.

Robert Evans and Big Jumbo will make the season at my own place this season, better known as the old Luck-hardt place. Just go north from the Auto Sales garage as far as you can go, which takes you to the Charles Meyer place, then turn west to my residence, which is a large brick house and a large red barn. Come and look my stuff over.

TERMS AS FOLLOWS: \$12.50 on both Horse and Jack to insure a living colt. Will not charge for any deformities. Care will be taken to prevent accidents, but will not be responsible should any occur. If the mare is traded or disposed of at any time after she is bred, the service fee becomes due right then and there. A lien on both mare and colt will be held for the service fee.

As I am holding special breeding hours from 9 to 10 in the morning and 3 to 4 in the evening, and using the capsule form of breeding for both horse and jack, anybody can breed that comes during those hours. Dr. Long will attend to the breeding for me. You do not need to phone, if you can't get me, come anyway, as you can always get service at the above hours mentioned—so you are there at 9 in the morning or 3 in the evening.
