

Don't be confused by the conflicting claims of the dealers selling different makes of ranges.

You know that that the Ranges are not all alike in spite of the fact that you are told concerning cheap and high priced alike. "It's a good baker—a fuelsaver."

Yet, you know it's not so and you know, too, that the good or bad in a Range will show up in years of use:

### Time Will Tell!

How to decide now which Range is built to give long and satisfactory service! That's the question.

It's really very simple. You can plainly see these things if you will look.

LOOK—for a Range that is made of Unbreakable Iron.

—for a Range that has a solid backing of this unbreakable iron at every seam with the metal plates riveted securely to it—for

a Range made proof against "rusting-out" by having its oven and flue walls protected by some permanent material that does not rust—Vitreous Enamel for instance,—and for a Range with a permanent blue-black top that needs no stove-blackening.

When you find a Range that combines these features you will immediately recognize it as the Range that will withstand the attacks of Father Time.

We have this Range in stock. It's the MONARCH Malleable Range!

—J. F. Cameron was here several days, last week, from Prescott, Kansas, looking over the Mike Hart, Jr., farm that he traded for a short time ago. Mr. Cameron wants to rent the farm to a good tenant.

—John Iden sold and delivered to the Mound City Milling company, last week, 400 bushels of white corn, at \$2.25 per bushel. This is said to be the highest price paid for corn in this neighborhood ever known.

—Almost all of Bigelow and vicinity's people attended the Mound City Chautauqua, last week, and all were more than pleased with the program, and are glad to know that another Chautauqua is assured for next year.

—Mrs. Emma Morgan and little daughter, Miss Lavonia, who have been visiting with Mr. and Mrs. S. O. Smith and Mrs. Mary Borchers and family for several days, returned to their home in Kansas City, the latter part of last week.

Gresham, Mr. and Mrs. Ben Conner and Mr. and Mrs. Ben Galbraith drove down to St. Joseph, early last Saturday morning, in their cars, where they took in the sights until Sunday noon, when they returned home. They report a fine time, and the ladies say the men acted just like little boys when they got to the city, and it was a pretty hard proposition to keep track of them.

—The cool weather of last week was pretty hard on the corn, and the farmers are wishing for warmer weather to help out the corn. While we have had several pretty good rains during last week and another of about half an inch, last Sunday night, it is said that the ground was so dry that the rains have not been heavy enough. Fall plowing has been started, and the ground is not in good shape for plowing, as it should be. Without warm weather from now on the corn crop will be cut short.

## OREGON CHAUTAUQUA AUGUST 17-23, 1917

DR. CHARLES L. KLOSS.

One of the most popular of St. Louis big men. An lecturer, writer and preacher he has gained an enviable reputation throughout the country.

Monday, August 20

leg the marriage of Harold Kahn and Miss Leah Barash, of Seattle, Wash., at that place, last Friday evening, August 10, and that they left immediately for a trip through Alaska. Kahn, as he is more familiarly known among his many friends here, is a first-class young man. We join his many friends in the usual congratulations. The plans of the young folks have not been completed and it is not definitely settled as to where they will make their future home. Gee, but won't our old friend, Jesse, better known as "Indian," be lonesome now? You are next, "Indian."

—J. A. VanVickle met with a very painful accident, last Sunday afternoon, when he was knocked down by his team of horses, and was pretty badly bruised up and his left arm broken below the elbow. The VanVickle family had drove up to Cam Wilson's, where they spent the day visiting, and when they were ready to start home in the afternoon, Mr. VanVickle went out to the barn to get his team to hitch up, and in coming through the lot gate, some other horse—that were loose in the lot—prowled against Mr. VanVickle's team, knocking Mr. VanVickle down, and the result is that he was not aware seriously injured. Dr. F. E. Hogan was called and reduced the fracture, and he is getting along as well as can be expected. Mr. VanVickle is about 70 years old, and this accident will no doubt go pretty hard with him.

—The biggest real estate deal pulled off in this neighborhood for a long time was made last week when Lot Brown and son sold their 245 acres, the old Patton Brown tract of land, and Walker & Poynter, 171 acres, the old I. M. Crow farm, to Mr. Fred Anthony, of Steamboat, Iowa, at \$125 per acre. This tract of land is about three miles and a half west of town, and is well improved—the Brown tract having been known in the last few years as "Walnut Meadow Farm," and there is quite a lot of the land on both farms in alfalfa. It is reported that some of Mr. Anthony's relatives will move here in the spring and make their home here. Lot Brown and family moved here and took charge of the Brown tract of land about seven years ago, and have made many friends here by their sociability and their fair dealing with their neighbors, who will trust that they will decide to remain in this vicinity. Just now the Brown family has not completed their plans and do not know what they will do.

—The temperature went down to 49 degrees Thursday night, August 9. Do you remember that on August 1 and 4th in 1915, it was precisely the same temperature? and it was so cold on the 3d, when a ball game was on, that heavy wraps were comfortable; that it was 41 degrees on August 30? No, you had just forgotten it.

He will be succeeded at the state hospital by Dr. Porter Williams, of Boonville. Dr. E. H. Bullock is a brother of Dr. F. E. Bullock, of Forest City, and is well known in Holt county, having made his home at Forest City for a number of years. The Sentinel joins with his many friends here in congratulations.

Regular meetings are held on Tuesday afternoons, but material to work with can be secured at any time from the chairmen. Come and sew with the ladies and take a garment with you to make at home. The knitting department has headquarters at the home of its chairmen, Mrs. Martha Painter. Call there for yarn, needles and instructions for knitting sweaters. Mrs. Clara Fields, chairman of the Department of Sewing for War Orphans, has that material on hand now. Patterns and sample garments were sent with bolts ofingham and outing flannel. Call on or phone Mrs. Fields for material to make some of these small garments. If each woman would only give a half hour a day or a half day each week, we could accomplish a vast amount of work. Do your best.

BASCOMB.

Union People Have Outing.

The Union district has no organized clubs of any kind, but they have as fine a community spirit as you may wish to find anywhere. They have a fine Sunday school and church—not on the decline as many many country churches are, but always progressing. The school building, which is used both for school and church, is equipped with furnace heat and the musical instrument is a piano. The piano and furnace were purchased by donations from members of the church. The excavating and installation of furnace were principally donated by such men as J. P. Lacey, Paul Bucher, Ed Wetzel, Wade Campbell, Seth Curtis and Fred Campbell.

On Wednesday last, August 8, the members of the Sunday school had a picnic at Big Lake. The dinner was all that could be expected and a general good time was had. Those present were: Martin Meyer, Mrs. Henry Host and children, Nettie and Floyd J. M. Campbell and wife, Miss Ruth and Wade Campbell; Mrs. Jasper Radley and children, Ruby and Johnny; Clyde Kuhn, Ivy Kuhn, Esther McKissick, Maude Harshman, Bertha Ferguson, Mrs. Kate Greiner; Dockey, Ray and Harlan Greiner; Jas.
