We believe in the United States of America, as a government of the people, by the people, for the people, whose just powers are derived from the consent of the governed; a Democracy in a Republic; a sovereign nation of many sovereign states, a perfect Union, one and inseparable, established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes. Our duty to our country is to love it; to support its Constitution; to obey its laws; to respect its flag; and to defend it against all enemies.

**Farm Work Wanted for Boys of the 35th Division.**  
U. S. Department of Agriculture, Office of Farm Management, Columbia, Mo., April 23, 1919.

All County Agents and Farm Help Directors—it is hoped by the different departments of the government that all the boys of the 35th and other divisions which are to be demobilized in the near future, and desiring farm work, may be immediately placed, and with this end in view, I am enclosing herewith several application blanks, and will be glad to receive applications from any farmer in your section needing men.

Of course, we understand that many of these boys are coming back to homes, or their own farms, where a place is awaiting them, and in these instances no application should be sent in, but in all probability some do not have places to return to, and the extreme shortage of labor in other states, and the corresponding high prices being paid for going to induce some to leave the state, who are really needed here for the proper manipulation of the farms in Missouri.

Iowa, the Dakotas and Montana have standing orders now with the Employment Service office at Kansas City for large numbers of men at good wages, and unless opportunities on the Missouri farms are made known to the boys, we cannot hope to hold them for use in Missouri with the kind of opportunities offered elsewhere.

All applications for men will be used to best possible advantage in getting the returning soldier and the farmer needing him together. Kindly use your best efforts to send us applications for help needed by farmers in your section.

As by reason of the great numbers of our boys, the 35th Division is looked to with the greatest of pride by Missouri. It is especially important that every citizen do his utmost to furnish places for them at once. Let us do all in our power in locating them.

Yours very truly,  
OIA F. REED,  
Farm Help Specialist.

**Receives Stolen Horse.**  
Dwight Meyer, one of our splendid young farmers, came near losing a fine horse and saddle a few days ago. Some ten days or two weeks ago, a young man, giving his name as Frank Smith, claiming to be a discharged marine, asked for employment, and Mr. Meyer accepted him. On Saturday last, April 26, Smith asked for the loan of a horse and saddle to go to Forest City, assuring Mr. Meyer of his return by 11 o'clock that night. Mr. Meyer also gave him a check for a small amount.

Smith went to Forest City, riding on a new \$65 saddle. He did not tarry long in Forest City, but rode on to Forbes, where he met George Harper, to whom he sold the horse and saddle for \$25.

Smith not returning, Meyer got busy and in touch with Sheriff Crouser, and the result is Meyer has his horse and saddle back, Harper is out his good money, and Sheriff Crouser is looking for this particular member of the Smith family.
