

Protect your buildings at little cost

Any weather-beaten barn that you know of would still be in fine condition if it had been kept painted with

DEVOE BARN PAINT
The Guaranteed
In two colors: Moss Green and English Red Oxide

This is a mineral paint made in two colors—red and moss green.

It costs very little, and you'll be surprised how much surface a gallon will spread over.

We recommend it for use on barns, fences, roofs and buildings of all kinds where a good preservative is needed at small cost.

Paint Devoe next time you paint.

HOME BUREAU NOTES.

Cora Ellen DeVault, Emergency Home Demonstration Agt.
Mrs. F. L. Wright, of Columbia, is in Holt County, this week, giving demonstrations on dress fitting, children's clothing, how to buy textiles, and costume design.
Miss Essie M. Heyle, assistant home economics extension leader, was in Holt County, Friday, May 2. The extension department is getting out a bulletin on school luncheons. A picture of the Bigelow school lunch was taken for the bulletin.
Don't forget the poultry meetings with Mr. Mason, extension poultry husbandman, May 13 and 14, on the poultry demonstration farms:
Clyde Kuhn, Tuesday, May 13, at 10:00 a. m.
Nelson Noland, Tuesday, May 13, at 1:30 p. m.
Ralph Meyer, Tuesday, May 13, at 4:00 p. m.
Albert McKown, Wednesday, May 14, at 1:30 p. m.
Fred Meyer, Wednesday, May 14, at 1:30 p. m.
Chas. Dankers, Wednesday, May 14, at 4:30 p. m.

Holt county is at the top in egg production per hen, on the demonstration farms of Missouri. Mrs. Nelson Noland's flock of Brown Leghorns averaged 21 eggs per hen during March. Read the Farm Bureau Notes for particulars.

The Home Bureau office now occupies the upstairs west room in the Court House. Office hours, 8:30 to 5.

FLIES.

Flies breed in filth. They are man's dangerous enemy.

A fly lays one hundred and twenty eggs at a time. In a year a fly can lay enough to hatch 5,398,720,000,000 flies. The eggs are laid in manure heaps, garbage cans, and filth.

There are four stages of the fly. They are egg, maggot, pupa, and grown fly. It is fourteen days from the time the egg is laid until the fly is grown.

Flies carry all sorts of dangerous germs on their hairy legs and bodies. They come from the manure pile, garbage can, spittoon, sick bed, and toilet to the kitchen, dining room, and bed room. They carry typhoid fever, summer complaint and tuberculosis.

Flies may be caught in fly traps, killed by fly poison, sticky paper and swatting them.

The great fly season is in July and August.

Flies are a sign of filth. A good way to get rid of flies is to clean up all filth. Keep the backyard clean and take away manure heaps from the barn. Keep the windows and doors screened. Do not leave food where the flies can get at it.

We are going to have a flyless Holt County this year. Every one should try to make it flyless. We can help by keeping things clean.

Swat the fly and do all you can to make it "Flyless Holt County and Blaid District."

RUTH LAWRENCE.

7th and 8th Grade Essay, Blair School.

—For Sale—Corn, oats and haled hay by A. W. Cotton, at the old livery barn in Oregon.

Climbing Higher.

Ed L. Hart, Jr., son of his daddy, Ed L. Hart, Sr., is going right up the ladder in the financial circles. Our young friend who has been cashier of the North St. Joseph Bank, goes to Wichita, Kansas, where he will become the cashier of the Union National Bank, and secretary-treasurer of the Stockyards Loan Company of that place. Ed. Sr. will take the ladder of the North St. Joseph Bank. The Senior Hart for years was one of Matland's prominent citizens, and still owns a fine farm near there. The Old Sentinel, which he has been reading these forty years sends congratulations, both to the senior and junior, hoping ever it may be well with them and their families.

PRINCE ALBERT

the rational, joy smoke

SAY, you'll have a streak of smokeluck that'll put pep-in-your-smokemotor, all right, if you'll ring-in with a jimmy pipe or cigarette papers and nail some Prince Albert for packing!

Just between ourselves, you never will wise-up to high-spot-smoke-joy until you can call a pipe by its first name, then, to hit the peak-of-pleasure you land square on that two-fisted-man-tobacco, Prince Albert!

Well, sir, you'll be so all-fired happy you'll want to get a photograph of yourself breezing up the pike with your smokethrottle wide open! Talk about smoke-sport! Quality makes Prince Albert so

appealing all along the smoke line. Men who never before could smoke a pipe and man who've smoked pipes for years all testify to the delight it hands out! P. A. can't bite or parch! Both are cut out by our exclusive patented process!

Right now while the going's good you get out your old jimmy pipe or the papers and land on some P. A. for what ails your particular smokeappetite!

You buy Prince Albert everywhere tobacco is sold. Tasty red bag, tidy red tin, handsome pound and half pound tin humidors—and that classy, practical pound crystal glass humidors with sponge moisture top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

April, 1919, Weather.

While April, 1919, was chilly and wet, and the temperature some three degrees below normal, it was in pleasing contrast to April, 1918, when we had 3.2 inches of snow on the 19-20 with a veritable young blizzard from the northwest; and on the 8th, 9th, 10th and 11th of the month we had ice. The mean minimum for the month in 1918 was 35 degrees while that of 1919 was 40 degrees, and the mean temperature for the month in 1918 was 49, while that of 1919 was 50, and the normal temperature for April is 53.

The coldest April day in 1918 was 25 degrees on the 10th and the coldest day this year was 22 degrees on the 11th.

Easter this year came April 20, and was an ideal day.

The normal rainfall for April is 3.50 inches; this year we had 4.14 inches, and last year, 1918, we had 3.10 inches.

The extremes for April, 1919, were:

Max.	Min.
6.....77	1.....28
19.....78	11.....22
21.....74	16.....29
22.....79	17.....32
23.....74	24.....32
Mean Max. 61	Mean Min. 40

Rainfall for April 4.14.
Greatest in twenty-four hours 1.36 on the 8th to 9th.
Hail on the 6th.

From Sergeant Owen Dankers.

The following is a letter received by Mr. and Mrs. A. O. Dankers, from their son, Owen, who is a member of the 354th Ambulance Company, 314th Sanitary Train, of the 82nd Division, which is now in the Army of Occupation, in Germany:

Erzen, Germany, April 14, 1919.

My Dear Parents:
Will try and scribble you a few lines this evening to let you know I am fine and dandy. Has been raining all day and expect it to keep it up. About the only thing this country is good for.

Well, you can change my name a little now. Change it from Private to Sergeant. Better late than never. Well, if things keep on moving as they have I will be home soon. And I am going to Funston. Nearly all the company go there. Western Missouri, Nebraska, Kansas, Oklahoma and Pan Handle, Texas men will be sent there. Our captain goes to Jefferson Barracks. We had to send that list in this morning. Believe me, we have lots of work. Have worked less today than I have the last week. Tomorrow the captain and myself are going to divisional headquarters.

Nearly all of our records are up to date. Wish you could have seen the captain and two of us working with our coats off, Ha!

How is everybody? Received a letter from Jenus the other day and she was fine.

Believe me, I am sure getting enough of this darned country. Sure won't know how to act after leaving it.

Well folks we will be on board ship by May 15th, and give the S. O. S. plenty of time to get ready for us. I am sending my Sergeant's warrant home. If I carry it I will probably lose it, or tear it, and I would like to save it. My first and I hope my last. Ha!

Well, folks, I must close, and hope you are all well, and that I'll see you soon.

Your Son, OWEN.

IT'S NOT YOUR HEART IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. A majority of the ill-afflicted people today can be traced back to kidney trouble.

The kidneys are the most important organs of the body. They are the filters, the purifiers, of your blood.

Kidney disease is usually indicated by weakness, sleeplessness, nervousness, despondency, backache, stomach trouble, pain in loins and lower abdomen, gall stones, gravel, rheumatism, sciatica and lumbago.

All these derangements are nature's signals to warn you that the kidneys need help. You should use GOLD MEDAL Brand. Three sizes. MONEY refunded if they do not help you.

The soothing, healing oil stimulates the kidneys, relieves inflammation and destroys the germs which have caused it. Do not wait until tomorrow. Go to your druggist today and insist on GOLD MEDAL Brand. After you feel that you have cured yourself, continue to take one or two capsules each day, so as to keep in first-class condition and ward off the danger of other attacks. Ask for the original imported GOLD MEDAL Brand. Three sizes. MONEY refunded if they do not help you.

Time's Flight.

There comes to our table one of those gentle reminders of the flight of time. It is in the form of a commencement which invites us to be present at the graduation exercises of Richmond Cash Coburn, son of Mr. and Mrs. A. R. Coburn. Prof. Coburn for many years was at the head of our schools, and on May 5, 1902, this graduate of today was born in our city, and now at the age of 17 he graduates from the Chillicothe High School—and today, Friday, May 9th, 1919, this splendid young man receives his High School diploma, credentials of the best, to start on the road for a higher education—a real education, and our word for it, that Papa and Mama Coburn will interest their part to get it, and Richmond will not linger long on the roadway to the realization that there is "room up stairs."

—Take your prescriptions and family recipes to E. O. Phillips, the leading druggist, who has had twenty-six years' experience.

For Sale.

My residence property, consisting of one lot with seven roomed house; good barn and plenty of fruit.
