The NEW EDISON

No Needles to Change—Even Records of All Other Makes Sound More Human When Played on The New Edison

WHEN you think of music—think of RE-CREATION. Let that word "RE-CREATION" burn into your memory. It represents a new standard—a new art in music. It means the imperishable "Re-Creation" in your own home of the living music of the masters—Re-Created with all the fleeting breath of reality.

¶ Don't misunderstand. There is talking machine music—as ordinarily conceived—and there is a wonderful new art—the Re-Creation of Music. In that field the New Edison stands alone—a solitary, dominating figure. Other instruments are made only to reproduce music. The New Edison Re-Creates it. A small distinction in words but a tremendous one in performance.

¶ In thousands of public tests it has been conclusively demonstrated that it is impossible to distinguish which is the New Edison and which is the living voice when the instrument and the artist are heard together. This direct comparison test is one test that no other phonograph manufacturer dares to make.

¶ Close your eyes and the record in your home is the living artist singing. It is wonderful. It is true Re-Creation of music. Come and hear the art of

the New Edison. It will be a revelation to you.

¶ There is a wide range of Edison models. There is one to meet your need. Come and ask to hear it.

¶ Miss Elsie De Wolfe, America's foremost interior decorator, after examining the new line of Edison Period Cabinets volunteered this unqualified endorsement of them:

"The Period Cabinets which Mr. Edison has adopted are in pleasant contrast to the rather grotesque cases one so frequently sees—the superior furniture value of the Edison cabinets can scarcely fail to impress the lover of good furniture."

And they will impress you. So come in today and see these beautiful cabinets—hear the marvelous music Re-Creations. Both will delight and surprise you.
