## Will Not be One Day Without PE-RU-NA

*This Lady TELLS Her FRIENDS*

Mrs. Mary Fricke, 507 Hornman St., Belleville, Ill., is just one of the many thousands of ladies throughout the country who, after an agony of years, have at last found health, strength and vigor in PE-RU-NA.

Her own words tell of her suffering and recovery better than we can do it: "I suffered with my stomach, had awful cramps and headaches so I often could not lay on a pillow. Saw your book, tried PE-RU-NA and got good results from the first bottle. To be sure of a cure I took twelve bottles. I have recommended PE-RU-NA to my friends and all are well pleased with results. I will not be one day without PE-RU-NA. Have not had a doctor since I started with PE-RU-NA, which was about fifteen years ago. I am now sixty-three years old, hale, hearty and well. Can do as much work as my daughters. I feel strong and healthy and weigh near two hundred pounds. Before, I weighed as little as one hundred. I hope lots of people use PE-RU-NA and get the results I did." An experience like that of Mrs. Fricke is an inspiration to every sick and suffering woman.

MRS. MARY FRICKE  
"An experience like that of Mrs. Fricke is an inspiration to every sick and suffering woman."

If you have catarrh, whether it be of the nose, throat, stomach, bowels, or other organs, PE-RU-NA is the remedy. It is not an experiment. PE-RU-NA has been tried. PE-RU-NA has been used by thousands who once were sick and are now well. To prevent coughs, colds, grip and influenza and to hasten recovery there is nothing better.

PE-RU-NA will improve the appetite and digestion, purify the blood, soothe the irritated mucous linings, eradicate the waste material and corruption from the system. It will tone up the nerves, give you health, strength, vigor and the joy of living. Do what Mrs. Mary Fricke and thousands more have done—try PE-RU-NA. You will be glad, happy, thankful.

### FRUIT TREES FOR SPRING PLANTING

Just a word to our patrons regarding the nursery stock situation.—It is pretty generally known to horticulturists everywhere that the present stocks of fruit trees in the U. S. and Europe are the shortest ever known since fruit-growing became an important industry. So short, in fact, are these stocks that a great many nurserymen are holding them at prices that are out of all reason—figuring that "there is not enough of it to go around anyway," as one prominent nurseryman expressed it in a recent conversation with me. Such extreme prices are not justifiable. However, prices must rule considerably above normal, until production of the leading commercial varieties catches up with the increased demand.

Fortunately, we have on hand in our nursery one of the finest blocks of extra quality two-year-old apple and pear trees we have ever grown or seen anywhere; also a fine block of white pines and spruces, for sale to our patrons who come to the nursery. We have had repeated calls from large wholesale buyers who would have taken every tree on our farm at prices above anything we have ever heretofore asked for them at retail; but these have all been refused, and we shall continue to turn them down. Why? Because our farmer friends have stood by us and with us, and we propose that you (and not distant strangers) shall have first consideration.

We have made arrangements with a reliable grower, whereby we secure a nice line of cherry, plum and other items on which we sold out last season.

All those who come to the nursery in the spring will have the first chance at any and all of this choice stock as long as it lasts. To be safe, we would strongly advise mailing us your orders so we can keep the stock for you until you come. Our 1920 price list will be out about the middle of January or first of February.

## WESTERN Crushed ROCK SALT

If you want that wondrous ham or bacon flavor that makes you hurry through your chores so you can get to breakfast, do your curing with Western Crushed Rock Salt. Being 98% pure, it penetrates clear to the bone, leaving the flesh firm and solid, and imparting a flavor that simply can't be equalled. What's more, it insures against the spoiling and souring that so often occur when ordinary white salt is used. Crushed Rock Salt has for years been the salt used by the big packers of the country.

Western Crushed Rock Salt gives best results for over 85% of all farm uses. Ideal for curing meats, hides, hay, straw and silage; for ice and ice cream making; for feeding stock, for killing weeds, and dozens of other purposes. It costs less than white salt, yet goes 1/3 farther—a double saving.
