BIG DOINGS IN ANDREW

That Hustling County Has Done Much the Past and Present Year.

Andrew county has been showing up her importance during the past few months by doing some rather large and handsome things. In the Liberty Loan drive the people of the county responded well and big sales of Thrift stamps are being reported daily. The Red Cross movement has been vigorously prosecuted eliminating in the big sale last Saturday in which more than \$3,000 was realized. The articles sold were contributed by people all over the county and comprised all kinds of farm products, hogs, calves, poultry, etc. In fact nearly everything from a can of fruit to a grand piano was given for the sale. Had the day been a pleasant one instead of one of the most disagreeable of the year at least one fourth more would have been realized from the sale. Many thought that more than \$4,000 would be taken in and this no doubt would have been the case if more people could have attended the sales.

In another important particular Andrew county has been "going over the top" during the past few months. Sales of real estate have been unprecedented.

Everyone who knows the virtue of Andrew county land has been wanting to buy a farm and scores have succeeded in doing so. The real estate transfers announced last week aggregate more than half a million dollars, and over \$200,000 per week has been a common occurrence. Thus when it is said that millions of dollars worth of land has been sold in the county during the last few months no mere guess work is done. As was natural, too, good prices were received in nearly every transaction. In many other ways the county has distinguished herself but these features seem sufficient to sustain the claim of "big things" being done as set forth in the caption of this article. It might be mentioned, too, that the output in the county for the present year promises to be the greatest in its history.—Savannah Democrat.

The primary is yet months away, but still a few local candidates are beginning to show up. The disposition to vote for the best men seems to be growing more popular every year in politics and many will do this year. It thus behooves the Democratic party to get out the best possible timber for office, and this will be done.

It would not have been nice for them to give Speaker Clark a rattle on his birthday, but they might have given him a gavel.

PRECIOUS RELICS AND RICH ART TREASURES ARE HOUSED IN THE HISTORICAL CHURCHES OF CANADA

Are you one of those travelers whom the world-war is keeping from Europe? Are you lamenting the destruction of the age-old churches in which you have spent delightful hours in years gone by? Are you aware that just across our northern border in what was once New France—now termed French Canada—there are many churches whose beginnings were co-incident with white man's advent in America, churches with interesting histories?

The city of Montreal is highly favored. First and foremost stands the great Notre Dame Cathedral, a \$6,000,000 edifice built on the site of the original church that was founded in 1658. It has high twin towers, famous chimes, rich interior decorations and treasured relics. St. James' Cathedral, near the foot of Mt. Royal, is a small edition of St. Peter's at Rome. It boasts the highest dome in the city and numbers among its treasures some wonderful vestments, the work of Jean Leber's

nineteen years of cloistered life. Notre Dame de Bonsecours embodies in its structure the foundations of the first church of that name, built in 1673. The Jesuit Church and that of our Lady of Lourdes as well as Montreal's many other churches are well worth visiting, but we shall hurry on to Quebec.

We shall visit first the Church of Notre Dame de la Paix, so named for the Iroquois peace of 1644. This church may well be called the Westminster Abbey of French Canada, for in it are interred many men and women famous in the history of Canada. It has a wonderfully carved pulpit, beautiful chapels and many precious paintings. Under the floor of the Church of the Ursulines, founded in 1641, rest the bones of the great Montcalm. In a little out-of-the-way square in Lower Town on the site of Champlain's house, stands a plain little church—one with a name that tells a whole story—Notre Dame des Victoires. Up and down

the quaint old streets we wander and in and out of the many churches, each with its own particular attractions, all with dimly lighted, incense laden interiors.

Then we must take a run to Tadoussac to visit the Jesuit chapel founded in 1615 and the present structure built in 1748.

And last but not least, is the visit to the celebrated Ste. Anne de Beauport, whither sailors go to pray for safe voyages. History tells us that this miracle-working shrine was founded by some ship-wrecked sailors in 1650. It was a fulfillment of a vow of Ste. Anne, mother of the Virgin, to build a chapel in the event they were saved. Their prayers were answered and Ste. Anne's stands a monument to their faith. Miracles have been happening there for several centuries and streams of pilgrims have been journeying thither all the intervening years. The week of July 26th to August 2nd is the time of the great pilgrimages.

FELT THAT WAY

And Many Others do When They Are Facing the Great Beyond

Two negroes were caught in a terrific thunderstorm in the south and took refuge in a barn, but before they could enter they were completely drenched.

The thunder crashed and pealed between flashes of lightning and blinding dashes of rain. One of the darkeys thought maybe a little strong language would ease his mind.

"Look heah, you' Charles Richard—you' quit yo' cussin'. Don't yo' know that Gawd's got yo' completely in his power jest now?"

And He Will Find It

The Germans have a mustard shell which they use to cause tears to interfere with the eyesight of the enemy. It is now up to some Yankee to outclass it with a horse-radish shell.

There is a White Guard and a Red Guard in Russia, but the red, white and blue guard is found in France.

Horse meat, we are informed, is more nutritious than beef—has more kick in it.

In those watery trenches, the trench rats may evolve into a breed of muskrats.

REBUKER THE PROFITEERS

A Nebraska Banker Goes After the "Patriots" Who Would Gouge the Farmers.

Hogwash profiteering upon the part of a seed house at Jefferson, Ia., which is attempting to hold up farmers in Nebraska for \$10 to \$12 a bushel for seed corn has been rebuked by a Tecumseh banker who was asked to boost the sale of this corn on the "liberal" offer of 25 cents per bushel commission for himself.

The Jefferson-Ratekin Seed company wrote to this banker, and presumably to many others in Nebraska, asking him to act as agent for the sale of the corn. Along with the letter it mailed a printed poster to be put up in the bank advertising the seed. Heading the poster were these sentences:

"Help win the war. Plant pure seed."

Then followed a statement about the corn, priced at \$10 and \$12 per bushel for different varieties, and instructions to "leave your order with this bank."

When Fred Bodie, the Tecumseh banker, got the letter, he did not put up the advertisement but instead sat down and wrote the following letter, a copy of which he sent to the state council of defense:

"Tecumseh, Neb., Feb. 25.—Dear Sirs: I am in receipt of your letter and card advertising seed corn of 1918 crop for the 'patriotic' price of \$10 per bushel (f. o. b. Jefferson). 'I smile when you mention that you have been very fortunate, in securing 10,000 bushels of this corn to distribute among the farmers at \$10 and that you feel this is your 'patriotic duty.' I will say in passing that I shall take great pleasure in placing very carefully, in the bottom of my wastebasket, all such literature as you may send regarding this corn at that 'patriotic price.' I may have done a few things wrong in my life, some that I regret, but this will not be one of them.

"Our state council of defense has named the maximum price for 1918 seed corn in Nebraska, of \$5 per bushel. This our people expect to abide by. There are numerous farmers over this territory who are selling good corn, pure and graded, for \$3.50 to \$4 per bushel.

"Did you ever read Bill Nye? In one of his books he tells of a man in Wyoming, in the town in which he lived, whose house caught fire one day, and he sent in the call for help. The fire company rushed up, put out the fire, saved his home, etc. In recognition of their heroic efforts, Mr.

WHERE SCIENCE FAILED

A woman of intellectual taste found it difficult to remember all the facts she collected. She therefore secured the services of a professor of one of the best memory systems. Scarcely had the professor taken his departure after a first successful lesson, when a loud double knock was heard at the front door.

"Who was that, Mary?" the lady inquired of the servant.

"Oh, if you please, ma'am," said Mary, "it was the memory man; he forgot his umbrella!"

There seems to be something peculiarly appropriate in the report that the first fatality of the year caused by the "fool who rocks the boat" comes from "Tippacaw" county in another state.

Now that it has been discovered that bones can be turned into glycerine and glycerine can be turned into high explosives, a number of baseball players are growing extremely uneasy.

Colonel Roosevelt has lost the use of one ear. He had already lost the sight of one eye, but we may expect that he will continue the activities of a two-eyed and two-eared man.

Another evidence that the Americans intend not to be backed out of France is the fact that the United States has decided to build a \$25,000,000 ordnance plant there.

The county farm advisor seems to have sat down to eat a bag of peanuts and gone out of the employ of the seed merchants.

With women admitted to Tammany there will be another question of the lady and the tiger.

Of course we all hope that Moscow will succeed better at being a capital than Petrograd.

The golf clubs that are raising pines will no doubt make a specialty of link sausage.
