## *Prohibition, if Adopted on November 5th, Will Entirely Wipe Out This Indispensable Revenue!!*

REMEMBER:

- Six of the proposed amendments, meritorious as they may be, provide for increased taxes.
- State and Municipal revenues are now short of meeting unprecedented public requirements.
- If Single Tax Amendment No. 8 is adopted the burden of taxation will, in case of prohibition, fall mainly on farm lands and town lots.
- The State government, which has striven and must continue to strive to keep Missouri solvent by devising new methods and sources of taxation, will, in case of prohibition, be hampered.
- City Governments will not be able to meet increased wages and expenses.

## National Revenue from Liquor Industry (Last fiscal year)

Beer .....	\$126,285,857.65
Distilled Spirits .....	317,553,687.33

Capital stock, income and other taxes paid into the National treasury by corporations and individuals engaged in the industry and auxiliary lines, when added to the foregoing internal revenue receipts, will make the total over \$500,000,000 annually.

The Government now expects to collect over ONE BILLION DOLLARS annually from this industry—or almost one-sixth of the total taxes provided for by the NEW REVENUE BILL.

Is it patriotic for Missourians to deprive the Nation of our States's share of these revenues needed to win the war?

Is it good business policy to deprive Missouri of revenue so necessary in defraying state, city and county expenses?
