NEW YORK, May 4.—Samuel Gompers, veteran president of the American Federation of Labor, speaking last night to a crowd that jammed Madison Square Garden in a mass meeting called by the New York branch of the Association Against the Prohibition Amendment, declared that "labor must make the fight now and we will never stop fighting until the rights of the people have been restored to them."

"I have always had faith in the future of my country, but with prohibition I am apprehensive of that future.
