THE LIMIT WILL BE THE SKY ABOVE THE ROOF

(Continued from Page One)

Co.; Arthur V. Davis, of Pittsburgh, president of Mr. Mellon's Aluminum Trust; Fred B. Patterson, of Ohio, president of the National Cash Register Company; D. H. Kroger, the Cincinnati multi-millionaire baker and grocer; Roy Dikeman Chapin, of Michigan, motor car manufacturer; William Wrigley, head of the Chewing-gum trust, and Charles D. Hillis, former chairman of the Republican National Committee, now identified with big New York corporations.

Vice-President Was There

In the published list of those present are the names of the following Republican officials: Vice-President Coolidge (although it is not reported that he gave anything); Secretary Mellon, Secretary Weeks, Attorney General Taft and Senator DuPont of the Powder Trust family and New York hotel magnate.

Of those present William Wrigley of Chicago, who is reported to have given \$25,000, just to start the thing, has already received substantial benefits by the taking of the tax off which from which chewing-gum is made, and Mr. Patterson has been benefited by taking cash registers off the free list and putting a 25 per cent tax on them. The DuPonts have received innumerable benefits in the chemical schedule of the pending tariff bill.

The important decisions arrived at were to take off the limit of \$1,000 on contributions alleged to have been imposed by former Chairman Hays, and to raise \$500,000 for educational purposes, which in the opinion of many here would not be enough to educate one orthodox Republican; "educational," in this respect, however, is merely a camouflaged term. The amount of money to be raised for other purposes was limited by the sky.

The reactionary leadership of the Republican party, with nothing in the record of the administration to attract or hold voters, has initiated the campaign of 1922 by adhering to the policy of Hannaism and Newberryism of rallying around the dollar mark.

How Ship Bonus Will Rob People

One of the strongest speeches against the proposed bonus to ship owners known as the Ship Subsidy bill was recently made by Representative Edwin L. Davis of Tennessee, who has made a special study of that subject.

Judge Davis, arguments against the proposed ship subsidy may be summed up as follows:

"The Ship Subsidy act will cost \$750,000,000 in subsidies and aids within the next ten years in addition to the loss on the sale of merchant ships and \$125,000,000 to recondition the vessels.

"The estimated returns from the sale of the ships, which cost \$3,000,000,000, will be about \$200,000,000, the people sustaining a loss by deflation of \$2,800,000,000.

"It is contemplated that the companies which purchased the ships will capitalize them largely in excess of their cost to them and sell the stock and bonds to the American people.

"The bill provides for the elimination of the army and navy transports so as to require our troops, munitions and supplies to be carried in privately owned vessels without distinction in time of war, giving to the ship owner about \$7,500,000 per annum in the Pacific alone, \$5,000,000 of which would be net profit.

"The Ship Subsidy bill is so drafted as to strip Congress of the power of legislation and of appropriation, and to usurp powers now exercised by the president and members of his cabinet."

These are but a few of the main points covered in Judge Davis' powerful argument against the bill.

G. O. P. Gains From the Gops

"We favor reform from within and our advice to our great party of progress and moral ideas is not to do quite so many things to make Cordell Hull happy.

"The Republican party, as we have always said, is the party of conservatism and here we find ourselves on the eve of another campaign with almost enough unused campaign promises left over from last time to see us through.

"What Congress needs, and so we wired our great President in care of Senator Fretinghuysen yesterday, as he didn't seem to have thought of it before, is intimidation.

"Princeton University just characterized our great President as a man of immense patience and self-effacing modesty, among other things, as it handed him an honorary degree the other day but we have our moments of depression, as we watch Congress wiggling and wobbling around from day to day, when we wish it might conscientiously have added a little something about how terribly hard-felted he is when occasion demands."

From Ohio State Journal (Rep.)
To Members of the Sewing Circle
You are hereby notified that on June 8 the Republican majority in the United States Senate voted to take sewing-machines off the tariff list and impose a tariff tax thereon ranging from 24 per cent to 40 per cent on the value of these machines, thereby enabling the manufacturers to raise their price to you from 25 to 40 per cent. There is only one way you can show your opposition to this kind of profiteering and that is to vote the Democratic ticket this fall and thus help to get sewing-machines back on the free list.

COMMITTEE.

Mrs. H. C. Henry, 812 East Green Street, has a little niece whose heroism was the sensation of the country around Fortuna, Mo. The little girl, Frances Louise Keller, is the four-year-old daughter of Lewis Keller, a brother of Mrs. Henry. The little girl was with her father and Mr. Uriah Scott in the Keller & Smith coal mines when a cave-in killed the two men, leaving the little girl at the bottom of the mine. She climbed a narrow 40 foot ladder to spread the alarm.

M. J. Grigby, the apple man of near Skidmore, has proposed for a bumper crop this year and has insured it against possible loss by hail for \$25,000.
