If you should ask a Kansas City man as to the most elegant and popular barber shop in the city he would unhesitatingly say—The Palace Barber Shop at 1516 East Nineteenth street (near Vine) owned by that prince of good fellows—Prof. J. C. Hobbs—who, also, has next door one of the neatest and best kept Pool Halls in town.

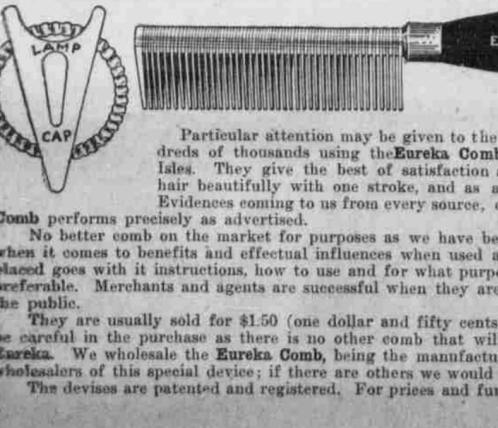

Prof. Hobbs employs only the BEST workmen, T. D. Henderson, Henry Hobbs, David Robinson, W. T. Scott, and H. A. Peace, while he himself is a barber of acknowledged ability. Ernest Turner, the best known porter in Kansas City, looks after the comfort of his patrons with Miss Mary A. Woodson, the neat and capable cashier. Prof. Hobbs is also Kansas City's most popular dancing master, being manager of the People's Dancing Academy, which dances every Thursday night at Lytle Hall, 1731 Lydia avenue, all the latest dances. Particular attention may be given to the following subject, since there are hundreds of thousands using the Eureka Comb throughout the United States and Isles. They give the best of satisfaction as to our recommend, straightening the hair beautifully with one stroke, and as assistance in causing a rapid growth. Evidences coming to us from every source, of which is pleasing, that the Eureka Comb performs precisely as advertised.

No better comb on the market for purposes as we have been advised that other combs are toys, when it comes to benefits and effectual influences when used as to directions, for which every comb placed goes with it instructions, how to use and for what purposes. Wherever introduced the Eureka is preferable. Merchants and agents are successful when they are placed conveniently in quantities for the public.

They are usually sold for \$1.50 (one dollar and fifty cents) each complete. The only thing is to be careful in the purchase as there is no other comb that will answer the purposes so well as the Eureka. We wholesale the Eureka Comb, being the manufacturers and promoters, and are the only wholesalers of this special device; if there are others we would be pleased to be informed.

The devices are patented and registered. For prices and further information write

Having settled in this part of the county soon after the war, no man under similar circumstances contributed more to the development of his immediate community than he. He was always a supporter of any movement that was for the betterment of his people, and in many cases was the originator. He originated the first school for colored children in this part of the county, building the school house on his own land. The first school was a script school, but he continued until a public school was provided and oftentimes he boarded the teachers free of charge. He was an ardent believer that the farm was the logical place for the masses of his people and continually advising them to buy homes, and through his influence many bought land. Simon Harvey was born in Franklin county, state of Kentucky in the year of 1824. He came to this county in 1838 and has lived in Howard and Randolph counties ever since. He died May 26 at the age of 99 years. He was married twice, was the father of fourteen children, eight living and a wife, thirty grandchildren and nineteen great grandchildren.
