Hospital, after undergoing an operation for tumor. The day previous to her death, she asked the time and being told that it was 7 o'clock, said, "Tomorrow at 7 I will be sleeping in the arms of Jesus." She was for many years a member of the Second Baptist Church and the funeral was held from the home at 7:30 Sunday morning, after which the body was carried to Versailles, Mo., for interment. The floral offerings were beautiful. She leaves to mourn her demise a husband, mother, two children, two sisters and a host of friends.

We beg to announce the return of Madam Hattie Lucas to her already celebrated Concert Work. The Madam has sustained several sad bereavements recently, but which she has already shouldered bravely as the Heroine of an actual drama with its touching events and deep pathos. Her mother, daughter and husband passed away in quick succession. The constant care she exercised for her mother could not have been more beautiful or heroic, but is only characteristic of the devoted daughter and singer that she is. Madam Lucas will open her Concert engagements about the third week in November. She expects to go North about the last of December. However, Kansas Citizens express the wish that she may be heard in recital here before she leaves. Parties or communications may reach Madam Lucas at 1229 Michigan avenue, Bell phone E. 3045W.

## TAILORING AND CLEANING

G. V. GOLDEN

1605 East 18th St., Kansas City, Mo., Bell E. 539.

Improper cleaning and pressing ruins the construction and the shape of your clothes.

Garments of today are made by the most skilled designers of the 20th Century. The art of making a suit or a dress is done by experts; the iron being one of the Principal Factors in shaping a garment. The inner construction of your coat, is the foundation upon which it is built. Time and patience, the proper kind of canvas padding, hair cloth, wadding, etc., is carefully selected to get the desired results.

If such patience and skill are required to build your suit it is only reasonable that it requires the same to keep its shape; therefore, the inner construction and shape are at stake in the hands of the inexperienced.

It is very easy for your garment to lose its Gracefulness and Body Lines if not Properly Pressed.

We are showing and selling suits from \$18.00 and up. If you have a misfitting overcoat or suit that needs remodeling, send them to us. We specialize, for we look after the small things.

It requires a thorough knowledge of the business in taking a garment apart and altering it, giving the same article a fit to your figure and still retaining its life and satisfaction to the wearer. Ladies' suits, furs, winter coats, refined, altered to the different styles, are successfully handled by us. A trial will convince.

THE OLD WAY OF PRESSING.

### OUR CLEANING DEPARTMENT.

Everyone knows there are only two kinds of successful cleaning—DRY and STEAM CLEANING. Steam Cleaning is the use of distilled water, neutral soaps, borax, ammonia, the use of chemicals and a great deal of thought and reasoning on account of the great variety of materials and the condition of the same. Articles steam cleaned require patience and re-shaping by the presser.

THE NEW WAY OF PRESSING.

OUR MACHINE IS A GERM EXTERMINATOR. THE HIGH STEAM PRESSURE KILLS THE EGG LIFE.

DRY or FRENCH CLEANING is the process of cleaning soiled garments or other textile fabrics by means of benzine, gasoline or similar volatile solvents, which extracts the greasy matter, thereby removing the dirt.

It is indicated for goods which would be spoiled by coming in contact with water, by losing the shape or original finish, or where the colors would not be sufficiently fast for steam cleaning. Dry cleaning does not clean every article perfectly, because benzine loosens the dirt held by greasy matter only, but has no influence on water, soluble matter like sugar and glue. For instance, if you get wine, ice cream, or water spots on a silk dress, benzine will not remove the spot. You cannot treat the spot the same as you would for wool or cotton goods—silks of today are mostly artificial, tin-weighted and finished with glucose and other sizing properties.

The colors in silk are not deep dyed. To prove the same, if you slightly rub a spot on silk, it removes the color.

Organized cleaners of today are fighting the artificial silk manufacturers as many of the best shops do not guarantee silks.

### PRESSING DEPARTMENT.

Our HOFFMAN STEAM PRESS is a germ exterminator, even killing the egg life. One cannot be too careful as clothes worn by people in every walk of life, reach some Tailor shop.

The GOLDEN TAILORING AND CLEANING SHOP is located at 1665 East Eighteenth Street near Eighteenth and Vine, and our Bell Phone is East 539.
