To the Kansas City Sun: In regard to an article which appeared in the Kansas Elevator May 27, headed "Stay Away From Lincoln Electric Park," I make this reply:

I have played before the crowned heads of foreign countries and have crossed the equator twice, have made America from north to south and from east to west, playing in all first class theaters in this country, have recently returned from Australia and New Zealand, where I played a special engagement under Huso Bros., and I think I am in a position to pass on any play house or park which has come under my observation, and will say in answer the article written in the Elevator was entirely uncalled for.

I am now playing at Lincoln Electric park and have been since shortly after its opening, May 6, and can say without fear or favor that there is not a place in this country or any other that I have been in that is as finely equipped and run exclusively for colored people as this park is.

I wish to say further that I heartily endorse this park to the colored race, and believe that it is deserving of the patronage of all the good respectable colored people, and they should be proud to live in a city in which a few white individuals would invest \$40,000 or \$50,000 for their exclusive pleasure. I can not see why any person who has attended this park could have occasion to regret the dime or nickel that they might spend, without it be some narrow minded man who was prejudiced at the park owner for some reason or other.

As to the present management of the park, from outside appearance everybody employed in the park, and who has attended this season, seem to be perfectly satisfied, and I consider the article in the Elevator a slur on myself as well as the rest of the performers and employees of the park who are all colored, and the manager tells me that he does not expect to employ anyone in this park except colored people.

Hoping my friends and friends of my husband, the late Billy Kersands, now dead, who appeared before Queen Victoria by special request under the management of Charles Frohman, and who had a reputation excelled by none and equaled by few, will take this article as it is written.

Very respectfully,
MADAME BILLY KERSANDS.
