Have you been by the new building at 1826 Forest Ave., and witnessed the wonderful and beautiful improvements that have been made by our contractor? Every Negro in the city and our White friends as well will be proud of this beautiful and imposing stone structure that is to be the future home for those of the race needing Hospital attention. The Ladies Auxiliary No. 1 has already purchased and are making more than \$100.00 worth of linen supplies for the institution paid for out of funds

raised by them; while every room save one in the hospital has been selected by the different Women's Clubs of the City to be completely furnished by them. Isn't this a glorious spirit? tion of the masses, in wise guidance and control, in social uplift and reclamation, in work of moral and ameliorative reform, in spiritual outlook and aspiration. Happy indeed is the lot of those whose privilege it is to prepare to enter the vineyard of humanity, which promises so abundant a harvest. I am there fore writing this letter to urge every youth under whose eyes it may fall to continue his education enthusiastically utilize your increased earning opportunity to defray your scholastic expenses for the coming year; select wisely the college, university, or professional school, where you will prosecute and complete your education. I am not writing this letter in the interest of any particular institution but the basis of my appeal is as broad as the underlying opportunity and need. It is no longer possible to divorce thought and thing, as the world once attempted to do. The thought is married to the thing, and civilization is born. It requires no oracular reading of the signs of the times to forecast future demands. The thinker must work and the worker must think. The coming renaissance of civilization will emphasize anew the wisdom of Goldsmith's philosophy: "A just experience tells in every soil That those who think must govern those that toil." SECOND OFFICIAL CALL OF NATIONAL ASSOCIATION OF COLORED WOMEN. To Be Held in Denver, Colorado, July 8 to 13, 1918—"On to Denver, the City Beautiful" at the Gateway of Rockies. The object of our Association is to secure harmony of action and co-operation among all women in raising to the highest plane home, moral and civil life. This object has been consistently lived up to both by the National and by state and local organizations during all of our years. The list of notable speakers appearing on the platform at these conventions throughout the years includes the names of almost all of our prominent women along every line. The convention this year will witness the greatest gathering of colored women from all sections ever assembled. The period through which we are passing will demand the presence of aall of our leaders, even those who in years past were more active than at the present time. Key Word—Consolidation. Mrs. Blanche Perkins will hold a unique demonstration. Miss Nannie H. Burroughs will give a rousing report on the lynchings and other investigations. Other prominent women to be heard include Mrs. John Hope of Georgia, Mrs. Marion Wilkins of South Carolina, Mrs. Bishop Clinton and Mrs. Charlotte Hawkins Brown of North Carolina, Mrs. Mary McLeod Bethune and Mrs. Ema J. MR. GEO. V. GOLDEN.

This is a splendid likeness of that LITTLE GIANT IN BUSINESS who makes things hum whenever he takes hold. His business is still growing. His tailor shop is making and cleaning many suits. His barber shop possesses a full and competent crew of skilled workmen. His pool hall is equipped with new tables, comfortable chairs. They also serve soft drinks. His laundry agency is open from 7:00 a. m. to 12:00 p. m. so that one can get their laundry at any time. He has splendid automobile car service for the delivery of clothes and both he and his employes extend the same prompt, courteous attention to all patrons. Remember our motto which will stand a test: "Quality Beats Quantity." Bell Ph. E. 539. 1609-11 E. 18th St.

War Essential Industries Are Dependent Upon Light and Power Company.

"It is Essential Public Utilities Be Maintained."

PRESIDENT WILSON SAYS:—"Public utilities should be maintained at their maximum efficiency and everything reasonably possible should be done with that end in view. I hope state and local authorities will, when the facts are laid before them, respond promptly." The Kansas City Light & Power Company is supplying power to more than 150 industries engaged in the production of war essentials. More than forty of these industries each require more than 100 horsepower daily, while 111 engaged in producing war necessities require less than that amount of power. In all we are furnishing the equivalent of 30,000 horsepower that these industries may meet the government's demand upon them for war necessities. We are supplying power for the production of bread, steel equipment, gun stocks, flour, wire rope, cereals, bags, railway supplies, feed for horses and mules, telephones and telegraph. It was of such public utilities as this one that President Wilson spoke when he said they MUST BE MAINTAINED AT THEIR MAXIMUM EFFICIENCY. This power is being furnished at less than cost. We are monthly piling up a deficit. In the last twelve months this deficit has reached \$300,000, which, with an added current cost, based on present coal prices, of \$400,000, will make our deficit fully \$800,000 for 1918. This condition cannot continue indefinitely. We must have immediate relief to keep going. The present costs cannot be met from the present revenues. We have appealed to the Public Service Commission to carry out the expressed desire of President Wilson to protect essential public utilities. The relief we ask is not excessive and will only partly relieve our situation. It is temporary—not permanent.

AN EDUCATIONAL APPEAL TO COLORED YOUTH.

To Ambitious Colored Youth: This is the season when ambitious young men and women are looking around in quest of a higher school or college in which to continue their education. The operation of our educational fabric is apt to be seriously interrupted on account of world-wide war conditions, which appeal to the patriotic emotions of every right-minded American youth. President Woodrow Wilson powerfully appeals to American youth to continue their educational preparation on the most extensive scale as a means of more efficiently helping to win the war. The Hon. P. B. Claxton, United States Commissioner of Education, urgently second the President's appeal. At this time it is particularly important that colored youth should utilize every available educational opportunity. The requirements of the war are opening up a wide area of skilled pursuits, from which they have been hitherto excluded. There is but one standard of efficiency by which all applicants must be measured who seek to render efficient service on a high level. While our chief energies are now focused upon the winning of the world war for freedom and equality. Yet it is easy to project our vision to the consideration of conditions after the end of this titanic struggle. Millions of men of the best brawn and brain that the human race produces will have been destroyed by the awful ravages of war. In order to repair this incalculable loss to civilization the world will require the fullest development and exertion on the part of every individual working on the highest level of his powers, there will be little time or disposition to stop to inquire of the winning participant in the world's work, "Of what complexion is he?" Great will be the condemnation of any individual who fails to prepare himself for such tremendous responsibilities both during and after the war. The need for education and efficient leadership of the colored race was never so imperative as now. Loud is the call for qualified men in the higher arts and crafts, in specialized scientific pursuits, in intellectual stimula-
