**Be Attractive-Have A Only Glowing Complexion**  
A cleansing cream is the only cosmetic that safeguards a woman's beauty and solves the problem of increasing her attractiveness. Every day the skin receives a thick coating of grime and dirt from roads and streets. The use of soap and water is not sufficient; a cleansing cream should be rubbed into the pores and then wiped off, then and not until then is the face clean.

**PILPHINO SNOW CREAM**  
"As Pure and White as Driven Snow"  
Is a scientifically compounded cleaning cream. Renders the skin soft and velvety by removing dirt and waste matter from the skin, and at the same time exerts a healing and tonic action. It also protects the complexion from the harmful effects of wind and weather. Superior to many higher priced cosmetics, containing a combination of suitable emollients specially selected for their unctuous properties. Perfumed with a French Blended odor of fragrant flowers that cannot be reproduced.
