He thinks he will see us again. —They have revived the Benders over in Kansas again, only to have a man come forward for the forty-seventh time to tell just how it was done. The story differs this time just a little. The new story teller had a friend who was there at the killing who says the bodies were burned. This part of the story is new. Now that they are dead again and at a place where they burned, we suggest they be considered dead for keeps, and that the governor issue a proclamation "anathema maranatha."

MISSOURI FRUIT.

Big Red Apples and Luscious Peaches at the Missouri State Fair. The "Big Red Apple" and the luscious peach of Missouri, surpassing in high color and exquisite flavor the productions of any spot on earth, will be exhibited in great abundance at the Missouri State Fair to be held at Sedalia, September 9-13, and the displays of fruit of every kind will be of such an excellent quality as to confirm the claims of the most enthusiastic fruit growers of the state. Liberal premiums have been offered for the best plates of the various varieties of grapes, apples, pears and peaches. Sweepstakes are offered for best and largest displays of apples and grapes and for the best collection of pears, plums, peaches and quinces. Premiums of \$50 and \$25 will be given as first and second prizes for the best and largest collection of fruit, open to any county, society, or one or more persons representing any county in the state.

Gorgan Graham's Philosophy.

Baron Munchausen was the first traveling man, and my drummers' expense accounts still show his influence. Adam invented all the different ways in which a young man can make a fool of himself, and the college yell at the end of them is just a frill that doesn't change essentials. Pay-day is always a month off for the spendthrift, and he is never able to realize more than sixty cents on any dollar that comes to him. But a dollar is worth one hundred and six cents to a good business man, and he never spends the dollar. If you give some fellows a talent wrapped in a napkin to start with in business, they would swap the talent for a gold brick and lose the napkin; and there are others that you could start out with just a napkin who would set up with it in the dry goods business in a small way and then cox the other fellows talent into it. I always lay it down as a safe proposition that the fellow who has to break open the baby's bank for car-fare toward the last of the week isn't going to be any Russell Sage when it comes to trading with the old man's money. —From the letters of a self-made merchant to his son, now appearing in The Saturday Evening Post, of Philadelphia.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CRENNEY & Co., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best.

A Days Outing.

A merry crowd of our young people took an outing last Sunday at the country home of Wm. Burrows, about nine miles east of this city. A bounteous dinner and supper had been prepared and the day was enjoyed by all and will be long remembered. Those that attended were Mr. and Mrs. Harve Robinson, Mr. and Mrs. F. L. Gench, Mrs. Jane Burrows, Dr. Oleson, Anna Griffith, Forest Caldwell, Kate Klumpp, Loren Logan, Marie Klumpp, Clint Smith, Nora Ellis, Geo. Burrows, Kittie Brown, Wilson Weathers, Crissy Caldwell, Seymour and Vanie Williamson.

M. F. M. Reception.

The M. F. M. Club held a neat farewell entertainment at the home of their president, George A. Huckeby, last night, in honor of Frank Kalston, who departs for Illinois tomorrow morning to be gone for quite awhile. Music, crokinole, and other like amusements whiled away the hours pleasantly, until ice cream and cake closed the evenings entertainment well pleasing to all.

Hanna and Strikes.

If Mark Hanna is working to settle the steel strike, as some of the Democratic papers say he is, so as to give himself a boost for the Republican nomination for president, we confess we don't know when he ever made a shrewder move. During the last campaign he was accused of settling the coal strike for political purposes. Now if he settles this strike, confessedly one of the most extensive ever inaugurated in this country, it will show him to be one of the most remarkably influential men in the United States. If this be so there will be no power to prevent his nomination, and if he is so popular with the labor and so friendly with the capital of the country, what can prevent his election. This is a combination that no power on earth can successfully resist, and we counsel our Democratic friends to climb into the band wagon while there is room, or they will get so badly left they never will find out "where they're at."

Fashions for the Stout.

The general run of fashion plates are the despair of those women whom nature has decreed for stoutness, or who time has snowed with gray hair. Many fashion cuts show an impossible sylph-like form of women everlastingly youthful. The delineator, whose long career of success shows that it meets the needs of women, contains in the September number a special article, carefully illustrated and devoted to the attire of stout and elderly women. This article, with its practical, useful advice about fabrics and quantities, will be appreciated by those who are neither slim nor under twenty-one.

Money to Loan.

For from one to three years, on good farm property. H. P. ROBINSON.

—A copy of the Democratic Topic, published weekly by Hess & Carr, at Norman, Oklahoma, is on our table. The neatness of the print indicates the handwork of Carr and we presume the matter in the columns indicates the hand of Hess. But wherever he goes, we wish Walker M. Carr success and as the boy is father of the man, we believe he will get there eventually. —Thos. Ellis has decided to move with his family to Colorado. A good citizen and a serious loss to the local working force of the Democratic party. We wish him well in his new location. —Mrs. Lucy Lanz and Miss Olive Sellinger returned yesterday from a visit to Colorado Springs. They had an enjoyable trip and visit.

Ask your druggist. —Work has been resumed on the court house, but the fussing goes merrily on. It's a regular Democratic pow-wow. Much bark, but only the people get bit. Those who dance should pay the fiddler. In this case the fiddlers must be paid. —Every citizen of Missouri ought to read the Globe Democrat and get posted and keep posted on the school fund matter. It has been telling some wholesome truths about the political mistakes and shortcomings of the Democratic party, that every good citizen ought to know. —John L. Welch of Eldorado Springs, a former resident of Rich Hill, was in the city this week. He was one of the lucky men in Uncle Sam's recent land lottery down toward Texas, pretty close to that place where Phil Sheridan didn't want to live because he preferred another place. John L., not being as much of a military man as Sheridan, we think prefers Texas or close therabouts. He is now in the condition of the man invited to the supper on a certain occasion. He's got a piece of land and must needs go and see it, and he's going.

Ask your druggist. —Vol. 1, No. 2 of the Rockville Star, is a new candidate for public favor and patronage at Rockville in this county. It is nearly gotten up and deserves the loyal support of the city and community it represents. —Capt. J. A.
