

# Important Announcement!

Owing to a complete change in my business about the first of the year, it will be necessary to reduce my large stock of Clothing, Dry Goods, Shoes and Groceries to the very lowest point possible, even to CLOSING IT ALL OUT, and in order to do this with as little delay as possible, I have determined to

## Put The Knife Deep Into The Prices of My Present Stock.

This notice, coming as it does at this time of year, when but a few have laid in their winter supply, WILL BE VERY INTERESTING NEWS FOR THE PUBLIC. The simple announcement of our Determination to Make This Sale at This Time,

## Barnum's Monkeys

"All well—all happy—lots of fun". That is the regular report from the monkey cage of Barnum's Circus ever since the keepers began dosing the monkeys with Scott's Emulsion. Consumption was carrying off two thirds of them every year and the circus had to buy new ones.

One day a keeper accidentally broke a bottle of Scott's Emulsion near the monkey cage and the monkeys eagerly lapped it up from the floor. This suggested the idea that it might do them good. Since then the monkeys have received regular doses and the keepers report very few deaths from consumption. Of course it's cheaper to buy Scott's Emulsion than new monkeys—and that suits the circus men.

Consumption in monkeys and in man is the same disease. If you have it or are threatened with it can you take the hint?

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle. Send for free sample.
