THE CELEBRATION AT GLENDALE. On Saturday last, according to previous arrangement, the friends of Temperance in this city and county, appropriately celebrated the 76th anniversary of American Independence.

THE MEETING was organized by the election of Bro. Cunningham, of the city, as President of the day. The Lockland brass band was present, and enlivened the day with the most delightful music.

AT NOON, the company scattered through the beautiful groves in the vicinity, and partook of dinner in regular pic-nic style.

ON THE WHOLE, it was a glorious meeting, and reflects much credit on the committee of arrangements—who were untiring in their exertions to secure the comfort and happiness of all present.

TO OUR FRIENDS in the other counties of the State, we send out the glad tidings that the ball is set in motion, and a good report will be made to the next Legislature.

BOTH PARTIES are now busily at work preparing for the conflict at the ballot box, in November next.

LET US MAKE war upon his manifications of war—spike his guns and blow up his magazines. Instead of man, God's image, lying in the gutter, we can make alcohol take its turn to lie in the gutter.

LET THIS LAW be faithfully executed and we shall experience the same blessings that are enjoyed in our sister State, that has the high honor of having originated this legal movement.

WE HOPE our co-laborers in the work will not relax their exertions, or suspend their labors on account of the political excitement, but work more energetically in consequence of the increased danger of those who are in the broad way to death.

"OH LORD, HOW LONG." Henry Hughes and his wife Bridget of Louisville, Ky., were both drunk on Sunday; a fight ensued between them, which resulted in the father's seizing their child about a year and a half old, and dashing out its brains against the house.

ONE OF THE largest delegated bodies ever seen in Massachusetts, assembled at Worcester, and continued its session during the 23d and 24th ult.

TO ACCOMPLISH this object, we would urge you to hold conventions, organize by efficient committees and other means, and embody in the most executive form, public opinion in favor of the law.

ADDRESS. Of the Massachusetts Temperance Convention held at Worcester, June 23d and 24th, to the Citizens of the Commonwealth.

example of the Maine State, and let us present a united phalanx in the cause, and the demon alcohol must fall in every State of our Union.

WHEN THE Declaration of Independence was announced, a thrill of joy went through the land. But every patriot felt that the great struggle for freedom was yet to come.

Besides, it is well known, that formerly, it was a very difficult thing to obtain a conviction? We were harassed by constant failures. The grand jury might refuse to indict through some defect of evidence.

Bro. J. P. Smith, Ruraldale, Ohio, \$1. In writing to us, our worthy brother, S. T. Jewell, informs us that "Temperance is, I think, gaining in this county,—the progress is slow. The Deputy for this district has a charter for a new Division, to be instituted in a few days, in Plymouth, where alcohol has held almost undisputed sway in times past.

THE COMMITTEE reported the following Resolutions for adoption; after a lengthy discussion on the first resolution, they were unanimously adopted:

Resolved, That the means heretofore made use of within the borders of this our own beloved State, have to some extent assuaged the evils of Intemperance, yet they have not proved sufficient weapons to conquer the enemy and compel him to yield the ground; Therefore,

Resolved, That it is the duty of every Temperance man in Ohio, to use his influence to have a law grafted upon our statute books, similar to the law known as the "Maine Liquor Law."

Resolved, That although our legislature has not passed such a law as we have asked at their hands upon the subject of the liquor traffic, we will not let our efforts cease; but will continue to petition like the poor woman in the parable, that should they neither fear God nor regard man, they may avenge us of our adversary because of our impotency.

Resolved, That this Council recommend that Mass Temperance Meetings be held at the following places, between this and the first of November next, viz.: Baltimore, Havensport, West Rushville, and elsewhere, if expedient, for the purpose of bringing before the public mind the importance of a united effort to insure the passage of a law similar to that of the State of Maine; and that a committee of three be appointed to procure suitable speakers on said occasions.

Resolved, That we look back upon the past achievements of the Temperance cause with pleasure and satisfaction; and that as the use of intoxicating liquors as a beverage is an organized evil, that owes its origin and continuance to a vicious and ignorant public sentiment, it is only by an organized effort that public sentiment can be corrected and the evil eradicated; we, therefore, recommend to every township to organize Temperance Societies.

Resolved, That the cause of Temperance is the cause of God and humanity; and, although the pledge has been evil spoken of, it has, like the brazen serpent in the wilderness, saved the victim of the fiery serpent, and he has been enabled to look and live.

On motion, the following persons were appointed a committee as directed in the 3d Resolution—D. Wilson, Rev. Schlosser, Adam Brandt.

On motion, the proceedings of this meeting were ordered to be forwarded to the "Organ of Temperance Reform," and the County papers for publication.
