A fight ensued, Hogan using a shotgun and firing through loopholes in his barricade and the officers their revolvers from a drift pile on the bank. At night the officers went into the woods on the bank for a consultation, when Hogan got quietly ashore and surprised them with a shot into a clump of bushes where they were building a fire. They took refuge behind trees and the fight continued till Hogan got the drop on Howell, when an armistice was agreed upon and the officers returned to Jeffersonville. To-day a party of four were sent out to make the arrest but they had not succeeded at last accounts.

AN ALABAMA CRIME.

A Man Charged With Murdering His Wife and Daughter That He May Again Marry—Arrested a Few Hours After Marriage.

BRIMINGHAM, Ala., Dec. 6.—The mystery surrounding the death of the young girl found in the lake at Eastlake Tuesday was settled last night by the discovery of her identity. All day the body lay in an undertaking establishment in this city and more than 5,000 people looked on the face. An autopsy was held and it was found that the body had been in the water only about twelve hours when found. There were no marks of violence and it was decided that the girl had been chloroformed and placed in the lake.

Last evening several parties identified the body as that of a daughter of Dick House, a railroad engineer who had lived in the suburbs of the city with a wife and several children. Monday night he registered at the Florence Hotel after midnight and left on an early morning train for Mississippi. Officers went to the house yesterday, but found it closed, and have so far been unable to find any trace of the mother of the dead girl or any of the family. A negro woman informed the coroner that last Saturday House left this girl in her charge for a few days, and Monday night about eight o'clock he called and took her away, saying he was going to place her in a convent in Montgomery. The negro woman evidently knew more than she would tell and she was arrested and placed in jail pending further investigation.

The girl's mother it is now believed has been murdered and her body concealed. She was last seen Saturday afternoon in company with her husband, House, when they were at home packing their household effects. Sunday House placed the girl in the care of the negro woman, Fannie Bryant, and took her away Monday night. The girl was murdered Monday night. So far the officers have been unable to find any trace of the mother.

Later—R. H. House, father of the murdered girl, arrived here with his bride from Columbus, Miss., at ten o'clock last night and was arrested by a deputy sheriff the moment he stepped from the train and immediately taken to the county jail. He was told that he was suspected of having murdered his child, and his only statement was a denial of the charge. His bride was taken to one of the hotels by a friend.

The woman House married yesterday is the daughter of a prominent citizen of Columbus, Miss. When her husband of a few hours was arrested and she was told of the charge against him she was terribly affected, and fainted several times. The couple had tickets to Augusta, Ga. House formerly lived in Atlanta, Ga., and says he was there divorced from the woman now supposed to be murdered.

GARLAND'S REPORT.

Annual Report of the Attorney-General—He Advocates Government Penitentiaries.

WASHINGTON, Dec. 5.—Attorney-General Garland has made his annual report to Congress of the business of the Department of Justice during the last fiscal year, together with statistics of crime against the United States and a statement of the business of the Supreme Court and Court of Claims. The petitions filed in the latter court on French spoliation cases number 5,569, representing 2,286 vessels and about \$3,000,000. The majority of these cases have been disposed of so far as the court is concerned and have been certified to Congress. The remainder will be reported during the present session.

After making a detailed statement in regard to the character and result of litigation in which the United States was a party during the year, the Attorney-General says that the usual examination of penitentiaries in which the United States prisoners are confined, was made during the year and showed the institutions to be in good condition and that the prisoners were well cared for and humanely treated. He advocates the passage of the bill now pending in Congress for the appointment of a Commission to inquire into the advisability of building Government penitentiaries and reformatories.

There were 1,875 Government prisoners in custody during the year. The Attorney-General suggests that the Department of Justice be given entire control over the jail in the District of Columbia and that a separate building for the confinement solely of female prisoners be added to that building. He also recommends that the salary of the warden be increased to \$2,500 per annum.

HOGGISH COMBINE.

A Hog Trust Reported to be the Latest Scheme of the Packers.

ST. LOUIS, Dec. 6.—Rumor gained ground yesterday in this city that a gigantic combine of all the hog packers of the West was in course of formation; that the packers of Chicago were engineering the deal, and were arranging to take in all packing houses at St. Paul, Des Moines, Sioux City, Omaha, Kansas City, St. Louis and Cincinnati. The Des Moines, Omaha and Kansas City houses are largely owned by the Chicago syndicate said to be conducting the negotiations. The story has its origin in the sale by the East St. Louis Packing Company, a branch of the Chicago Packing Company, of the entire plant at East St. Louis, with a capacity of 2,500 head a day to Crossman & Savage, said to represent the trust. It is alleged that Francis Whittaker & Sons, the only other packing establishment here, was invited to join the combine, but declined on the ground that they had brands which were known and that they had nothing to gain by the change. It is rumored further that the same men who are in the dressed beef pool are in this and that the combine will have an oleomargarine manufactory as a side issue.

NEW YORK, Dec. 5.—At last the uncertainty regarding the steamer Haytian Republic, seized by the Haytian gunboat Desalines off the harbor of St. Marie, seems about to be cleared up. This was the news received at Lord & Austin's, agents of the seized vessel, in this city yesterday.
