

The Cerrillos Rustler.

VOL. IV, NO. 2.

FRIDAY JULY 17, 1891.

\$3 PER YEAR

CERRILLOS LODGE, No. 19.
A. F. & A. M., meets at its hall on the first Saturday evening in each month.
CHAS. F. EASLEY, W. M.
STUART F. LOUGHBOROUGH, Sec.

VESPER LODGE, No. 15, K of P.
Meets Tuesday evening of each week, at 7:30.
Z. M. CRUTCHFIELD, C. C.
D. J. JONES, K. of R. S.

Church Directory.
M. E. Church South.—Rev. J. M. Crutchfield, pastor. Preaching every Sabbath, morning and evening. Sabbath school at 9:45 a. m. Prayer meetings Wednesday evenings.

A. T. & S. F. Time Card.
Trains carrying passengers leave Cerrillos as follows:
EAST:
No. 2, Passenger, 8:10 a. m.
" 4 " 5:42 a. m.
" 34 Freight 9:35 p. m.
" 36 " 1:06 a. m.
" 38 " 8:53 a. m.
WEST:
No. 1, Passenger, 1:06 a. m.
" 3 " 10:33 p. m.
" 33 Freight 6:35 a. m.
" 35 " 1:06 a. m.
" 37 " 5:06 p. m.
In effect Sunday Feb. 1st 1891.
C. E. HARNEY, Agent.

Local Rustlings.
The RUSTLER office has a new sign.
Better grass this year than for many.
Wednesday was pay-day at the mines.
Ames & Gould are receiving a large lot of lumber.
Eldest rains of the season, Tuesday and Tuesday night.
Cherries sold this week in Cerrillos, 12 boxes for a dollar.
Get ready for the Fair. It will be the biggest one ever held in the Territory.
Judge Kendall's card is changed this week. Glance at it and then remember the number.
Attend the children's missionary entertainment Sunday night. It will be worth your while.
No preaching Sunday, on account of the absence of Rev. J. M. Crutchfield. Sabbath school at the regular hour.
It is to be hoped that Cerrillos will soon have natural gas that does not emanate from the newspaper offices.
The RUSTLER is devoted to local and mining news, and to the build-up of every interest of southern Santa Fe county.
Notice change in the advertisement of the Cerrillos House this week. The Old Reliable is doing an excellent business.
Best ice sells in Cerrillos, delivered, at 75c. per 100 pounds. Last year the same commodity sold for \$2.00 to \$2.50 per hundred.
Mrs. Nesbitt has opened an ice cream parlor at her residence and will supply this cooling delicacy on Tuesday and Friday evenings.
Mr. Brady lost one of his fine mules last week. The animal having stamped this one fell in an old well in the south townsite addition.
Don't be afraid that the editor of this paper will try to force a subscription upon you. He has never done that in an experience of twenty years.
Arthur Plowman's house, on the Pecos, caught fire from a stove during Mr. Kennedy's visit, and was only saved from destruction by prompt effort.
C. W. Uptegrove's eyesight, which has been seriously impaired for a couple of months by inflammation, is nicely, though somewhat slowly, improving.
Eight lots in the Cerrillos Land Co.'s Town Site Addition, for sale at \$275, cash. These lots cost \$321 four years ago. They are a bargain. Apply to this office.
Cards are out announcing the marriage Sunday July 19th, of Vicente Olivares and Teofilina Urban, of Cerrillos. The happy young couple have the congratulations of the RUSTLER, in advance.

G. W. North has purchased the old well boring machinery from Mr. Catron and is to-day removing the same to Cerrillos where artesian water and natural gas will be bored for.—New Mexican.

Coal orders are said to be a little slack. A railroad to hedges would probably open up a good coal trade for this season of the year. The reputation Cerrillos coals have for creating extra heat would doubtless stimulate their demand down there, too.

Cerrillos narrowly escaped a disastrous conflagration again last week. Had not the fire starting in the Green tenement, located in a cluster of frame buildings and in easy communication with other buildings, been promptly controlled, a very large portion of the town must again have been burned.

Messrs. Geo. W. North and J. M. Rogers have moved most of the artesian well outfit from Santa Fe, and the experiment of sinking at Cerrillos will begin at once. We believe that great results may be obtained from such experiments, and all should lend a helping hand.

E. Huhn, W. H. Kennedy, W. A. Griswold, Cyrus Wells, O. W. Alexander, W. P. Gould, Wm Stein, of Cerrillos; Mrs. Stephen Kennedy, Ithica, N. Y., Henry McCormick, Mechanicsville, Mo., and Mr. Wilson Waddingham, Kansas City, Mo., are RUSTLER subscribers this week.

Renew your subscription to the RUSTLER. If it isn't "the best paper ever published in Cerrillos," it can probably lay claim to being the worst. At any rate the paper merits the patronage of every man in southern Santa Fe county, and every man or woman at any other point, who has property interests here.

A miner by the name of Mason had both legs broken in the Lincoln-Lucky shaft yesterday. He was taken through in the evening to the hospital at Santa Fe. The accident was caused by the whim breaking and letting the bucket drop. Two men were in the bucket, but only the one hurt. Mr. John Evans was in charge of the injured man.

The New Mexico division, Uniform Rank, Knights of Pythias, No. 1, held an interesting session last night and elected the following named officers for the ensuing year: C. F. Easley, sir knight captain; A. M. Dettiebach, sir knight lieutenant; George Draughton, sir knight herald; John W. Conway, sir knight treasurer. The officers were duly installed by Col. W. F. Dobbin.—New Mexican.

There are many things talked of for Cerrillos, but talk is cheap. Why don't some of them materialize? While the air is full of promises and the future outlook always encouraging, there is no denying the fact that the present is distressingly dull, and men cannot always live upon a "promising future." What is wanted is more work and less talk; more investment of capital and less promise—more reality and less moonshine. This tin-horn kind of progress is too tiring on the patience. We would all like to realize a small portion of the great future in the present.

The patent medicine locals now running through most of the New Mexico newspapers, are delicately flavored and of a high grade of interest. One begins: "Your heart is bad, your breath is bad and you are bad clear through." Another exclaims: "Don't kill your friend, with your bad breath, etc.," and then goes on to prescribe the never-failing nostrums of old or young Dr. Quack. How a paper which thus publishes for a song, and mixes up with its news matter such advertisements, can lay claim to either dignity, decency or business spirit, can only be accounted for on the basis of a too liberal toleration by the public.

Personal Rustlings.

Mrs. U. C. North is in Santa Fe. Mrs. H. K. Behn is a visitor to Cerrillos.

J. P. O'Brien passed through to Santa Fe.

Mr. John Elder made Santa Fe a visit Tuesday.

Hon. T. P. Gable was down yesterday from Santa Fe.

Mr. Ed. E. Sluder is at St. Vincent's sanitarium, Santa Fe.

Charley Wright was in Albuquerque, Tuesday, from San Pedro.

Ross Uptegrove will attend school at Las Vegas again in the fall.

Wm West has gone to San Pedro in the employ of the Lincoln-Lucky.

W. J. and C. H. Herber, of the Cash Entry, were visitors to Santa Fe, Wednesday.

Clothing merchant Gerdes and Chas. Way, came down from Santa Fe last Sunday.

Mrs. C. W. Uptegrove has been slightly on the sick list this week, but is convalescent.

Charles Berkhart will likely accept the position of saddler at Ft. Apache, offered him.

Miss Effie Green will visit in San Pedro for a few weeks, with her sister, Mrs. Geo. R. Bailey.

S. H. Arnold is down from his ranch on the Pecos. He will probably not return before September.

Mrs. S. C. White, of San Pedro, has been critically ill from paralysis. At last reports her condition is improving.

Mr. H. G. Coors, the Las Vegas lumberman, was in town Monday in the interest of his trade, selling good bills to our local merchants.

Marion Simer expects to get off for the Durango country Saturday. His friends all wish himself and family success in the new home.

Thos. M. Bartlett left Monday for a short trip to his Pecos ranch. He will spend a week or ten days there, then return to his position at the Cash Entry.

Joe Blonger came over from San Pedro the first of the week and returned with his teams Wednesday. He will put them to work on the Lincoln-Lucky whlm.

Prof. F. W. Chatfield, of the Las Vegas Seminary, was a pleasant caller Tuesday. The new catalogue of this popular school shows it to be in an excellent state of prosperity.

Z. M. Crutchfield and family, Rev. J. M. Crutchfield and family, Mr. John Doyle and Mr. Whited, took their departure Monday for the upper Pecos, there to spend a few weeks camping and fishing.

G. E. Hosmer, of the Beacon, came down from Springer again Tuesday, the first time in two weeks. He reports a very heavy rain at that place, the water rising one and two feet in the buildings.

Mr. John H. Robertson on yesterday received official communication of his appointment as Pueblo Indian agent and is now busy preparing his bond which is for \$20,000 sureties to qualify in double this amount.—New Mexican.

W. H. Kennedy returned from his fishing trip in the upper Pecos country, Tuesday night. He reports a pleasant time, the trip benefitting him very much. He caught trout out of Cow creek until he wore out all of his hooks, and then came home. No better fish stories in so few words, have been told this season.

Mrs. Nettie S. Chapin, of Marshalltown, Iowa, accompanied by Mrs. R. H. Taylor, of Santa Fe, but also formerly of Marshalltown, and Mr. Wm M. Berger, Receiver of the Santa Fe land office, were callers Monday. Mrs. Chapin is President of the Woman's Press Association of Iowa and a writer of note. While here she visited the Cash Entry section and the mining claims of the late Harvey Beckwith, of whom she is a distant relative. The party returned to Santa Fe by evening train, Monday.

Mine Rustlings.

A railroad to San Pedro would make of it one of the greatest camps in the Southwest.

Dolores will soon have a lot of miners and machinery at work—from present indications.

No especial change in the ore market this week. Prices rule steady at last week's quotations.

Cerrillos, San Pedro and Dolores should all have mineral exhibits at the coming Territorial fair at Albuquerque.

Theo. Carey and Thos. Shields returned to Dolores Tuesday, where they have good mining property to look after.

Hon. H. B. Ferguson, of Albuquerque, will put up a stamp mill on the Old Abe, his bonanza property at White Oaks.

Col. Glass made a trip to Dolores Tuesday. He is quite favorably impressed with the mineral showing of the Ortiz range.

The sale of the Lincoln-Lucky mine was concluded in this city last Saturday evening, the Colorado parties paying \$100,000 for the mine.—Albuquerque Citizen.

Mr. Everett, the gentleman who is in charge of the Fisk mill at Dolores, is straightening things around preparatory to making a test run of ore. If such test results in the finding of sufficient metal in the ores run, the mill will be fitted up with new machinery to treat the more refractory grades.

S. P. Conger local manager of the St. Lazarus mine at San Pedro arrived in the city yesterday, bearing triumphantly the result of a seven days "clean up" at the St. Lazarus in the shape of a gold brick weighing sixteen and a half pounds and valued at \$4,200. The brick was on exhibition yesterday afternoon at the First National Bank and Mr. Conger was kept busy during a good portion of that time relating its history. The shining metal of which the brick was composed has been extracted from the ore, Mr. Conger explained, a seven days run on a six foot Huntington mill, the yield being from twelve to twenty dollars to the ton.—Albuquerque Democrat.

Col. R. W. Webb arrived from the East last week and visited San Pedro, returning to Santa Fe the latter part of the week. He will visit the Copper Camp again this week, to look after general interests there. In conversation with the editor of this paper Col. Webb stated that the proposition to concentrate the ores of the copper properties on a large scale was reasonably certain to go into effect, the 500 ton plant be put up within a reasonable time for the work. With this great improvement once assured, San Pedro will again become one of the liveliest and best of New Mexico's industrial camps. At present the camp is doing nicely and everybody is at work with a feeling that better times are in the near future.

The Cash Entry has laid off a number of men for a few days on account of the failure of machinery to arrive on time to increase the capacity of the concentrating plant. The machinery expected should have been shipped from Ft. Scott four weeks ago, but has just arrived. The new shaft, the Enterprise, is steadily going down and at 80 feet the miners have encountered some excellent ore, being a carbonate formation of lead and iron, carrying silver and gold. It looks to be a fair smelting ore. O. W. Alexander is running the hoister at the new shaft. Manager Huhn will transfer the additional machinery for the concentrator, and when that is in place work will go briskly along.

Notes and Comment.

A Houston, Texas woman has given birth to a child with a full set of teeth. The youngster is in perfect health and is said to be as lively as a newspaper reporter.

Not since the days of Richard III, has the case been equaled.

A man by the name of Long went out from Raton with a party into the mountains. He left camp with a shot gun to find a bear.

He found the bear, wounded it, and in turn was killed and torn to pieces by the enraged animal.

The taxable limit on Cerrillos property for town purposes (1/2 of one per cent.) will not exceed over \$300 revenue on which to run a town government. Added to this will be the fines, if any. The funds of the new town of Cerrillos will have to be managed pretty carefully in order to make a showing.

The Cerrillos RUSTLER, one of the best local weekly newspapers in New Mexico, has commenced its fourth volume. If the people of that thriving town know a good thing when they have it, they will prolong the RUSTLER's existence indefinitely.—Raton Range.

The above is appreciated as a compliment, from one of New Mexico's oldest, ablest and best printed newspapers.

Notwithstanding the reports of the lowering of the water at Salton lake, a gentleman just from California, who received his information at Salton, says that the water at Salton is still rising at a rate of an inch a day. It is now thirty-one inches at the mill. There are 6000 tons of salt at the mill, while operators are struggling to get out, but when this is done the mill will be abandoned, as their is now a question that the property will be rendered useless.—Albuquerque Democrat.

Leo Lewison, while bathing in the Rio Grande, Sunday, with a number of other lads, was drowned. His body was recovered by a Mexican, two miles below the place of the fatal accident a day after the drowning.

Information comes to hand of the death of J. H. Penny, a former engineer at the Cash Entry, who left here the first of June for Silverton Colorado. After arriving there he took sick and the Doctors pronouncing his case small pox, he was taken to the pest house, where he died on the 30th day of June. He made many friends in the camp while here.

Again we are called upon to chronicle the death of a pioneer resident. Mrs. Cyrus Wells died at her home, Turquesa, Wednesday, July 15th, 1891, aged 74 years. She was well known to all the miners from the camp's earliest history, having the respect and regard of all, almost as a mother. She had lived with her husband, Mr. Cyrus Wells, post master at Turquesa, 52 years of happy, contented married life. For the past two years she has been in constant poor health, and for five months has been gradually nearing the end. Mrs. Wilson, of Iowa, one of her five living daughters, nursed her through her last illness, and with the bereaved husband was at her bedside to solace and comfort her in the last moments of life. She lived a faithful, unselfish life, and was ever careful of the interests of others. Her mission of life was filled, her rest well earned. The funeral took place at Cerrillos cemetery yesterday, at 2 o'clock p. m.

DEATHS.

Leo Lewison, while bathing in the Rio Grande, Sunday, with a number of other lads, was drowned. His body was recovered by a Mexican, two miles below the place of the fatal accident a day after the drowning.
