

## OLD AND NEW WAY.

### Hyomei the Latest Scientific Discovery For the Cure of Catarrh.

The discovery of Hyomei has wrought a wonderful change in the treatment of catarrh.

Prior to three years ago the medicines ordinarily employed in the cure of this disease were nauseating drugs and worthless tonics. In some instances they benefited, but the improvement was not lasting. With Hyomei you take into the air passages of the throat and head a balsamic air that goes to the minutest cells, effectually killing all germs and microbes of catarrh. It enters the blood with the oxygen, killing the germs in the blood, and restores health to the whole system. Many astonishing testimonials have been received from those who have been cured by Hyomei.

N. G. Durham, 23 Wellington St., Boston, Mass., writes: "I have suffered from catarrh for a number of years. I tried Hyomei and found it the only cure for this disease I ever used."

Perhaps the strongest evidence that can be given to doubters is the fact that Ricket & Wells have so much faith in Hyomei that they sell every package under a positive guarantee to refund the money if it does not cure.

Now is the time to begin the use of Hyomei.

## CHINA NOT ALARMED.

Assured by Minister Conger of Russia's Good Intentions.

Paris, May 12.—The French minister at Peking reports that Minister Conger, following instructions, has notified the Chinese government of the assurances regarding Manchuria which Russia has given the United States, directly through Ambassador McCormick and also through Ambassador Cassini, and says the Russian charge d'affaires at Peking has given the Chinese officials similar assurances. The French minister adds that the Chinese officials are not gravely concerned by Russia's alleged designs on Manchuria, being fully satisfied with the foregoing assurances.

The feeling here, which is strongly sympathetic with Russia, has been greatly relieved by the official advices from Washington summing up the results of the conferences between Secretary Hay, Ambassador Cassini and the Japanese minister, particularly the contradiction of the report that Mr. Hay had telegraphed to President Roosevelt relative to the question of joint action on the part of Great Britain, Japan and the United States, which report aroused serious apprehension here of possible international entanglements.

## Odell Legalizes a Marriage.

Albany, N. Y., May 12.—Governor Odell signed Assemblyman Nye's bill legalizing the marriage of Albert K. Shorey of Cornwall, Orange county, and the late Catherine Caecilia Buntin. The woman had been divorced from her former husband by an act of the parliament of Canada, where she and a former husband had lived. Divorces in Canada are granted by special act of parliament, and there is no prohibition of remarriage by either party. Upon advice the parties were married at Cornwall, but subsequently discovered that under the New York law their marriage was illegal and their children were illegitimate.

Political Arrests in St. Petersburg. St. Petersburg, May 12.—Political arrests in St. Petersburg are increasingly numerous. The homes of students, schoolmasters, schoolmistresses and authors are constantly visited by the police, which has resulted in the discovery of secret printing presses and the seizure of thousands of leaflets circulating on workmen and others to participate in a great public labor day demonstration May 14. The situation is causing serious concern in official circles, and active measures are being taken to cope with the proposed demonstration.

H. M. S. Grafton at San Francisco. San Francisco, May 12.—H. M. S. Grafton, the flagship of the British squadron of the Pacific, with Admiral Bickford on board, has arrived here from Esquimaux to take part in the reception to President Roosevelt. The appearance of the Grafton was the signal for the firing of a salute in honor of the visiting admiral. A feature of the parade will be the part taken by the British sailors, who will march side by side on American soil with the sailors of the United States navy.

Forest Fires in Pennsylvania. Johnstown, Pa., May 12.—Firemen called from Johnstown to protect mills and other property from forest fires on the mountains south of here have returned home, leaving their apparatus with the lumbermen for use in case the flames again break out. At Lanfair they saved the mills and lumber of Kuhns & Goodwin. Farmhouses are threatened on Chestnut Ridge, and unless there is rain soon great destruction of property seems inevitable.

Archbishop Kain's Health. St. Louis, May 12.—Archbishop John J. Kain has left for Baltimore, where he will enter a sanitarium in the hope of regaining his health, which has been failing for several months. Fathers Byrne, Feuton, Tannerath and Phelan accompanied him on the trip. Bishop Glennon, recently appointed coadjutor, will have charge of the archdiocese during Archbishop Kain's absence.

Royal Visit to Scotland. London, May 12.—King Edward and Queen Alexandra, accompanied by large suits, have left London to pay their first ceremonial visit to Scotland. Their majesties were greeted by big crowds of people while driving in semi-state to the railroad station escorted by a detachment of the household cavalry.

## ARE HUNTING DYNAMITER

New York Detectives Hard at Work on Umbria Mystery.

DO NOT THINK IT A HOAX.

Also Scout Idea That the Mafia Had a Hand in Sending Internal Machine to Big British Steamer.

New York, May 12.—Inspector McClusky has had little now to offer as the result of his investigation of the act of some unknown persons in sending to the Cunard pier on Saturday a box containing 109 pounds of dynamite. More than a score of detectives are at work on the case, some looking for the truck on which the stuff was carted to the pier and some trying to find out who wrote Police Commissioner Greene the letter which resulted in the discovery of the box of explosives.

The mechanism in the box, designed to explode the dynamite by clockwork, will be examined thoroughly by an expert. This is in the effort to ascertain where the works were made. That he had arranged for this was about all that the inspector was willing to admit. He did say, however, that he took no stock in the report that the whole affair was a hoax. All the circumstances, he believes, point the other way, the puzzling question being whether in the condition in which it was found the clockwork was so adjusted as to make an explosion possible.

Two Italians Arrested. Detective Sergeants Petrosino and Ferrati brought two men, apparently truck drivers, to police headquarters. It was at first thought that the prisoners were suspected of complicity in the carriage of the box to the Cunard pier, but those in charge of the detective bureau asserted that the men were wanted for another matter.

The police have a fair description of the truckman who left the box on the pier and also of the horse and the wagon. The wagon is described as having had a green body.

The police are inclined to scout the idea that the Italian Mafia is connected with the job. This was asserted in the anonymous letter which warned General Greene of the presence of the box on the pier. This is believed to have been done to throw the police off the track.

The dynamite was manufactured by the Climax Powder company, whose factory is in Pennsylvania. Inquiry is being made in the hope of it being able to trace the sale.

Some of the police, despite Inspector McClusky's opinion, believe that the dynamite may not be dynamite after all. Inspector Murray of the bureau of combustibles is to test the stuff.

Pittsburg Women Die at Colon. Colon, Colombia, May 12.—Augusta, Eleanor and Elizabeth Shaler, three aged sisters of Colonel J. R. Shaler, superintendent of the Panama railroad, died here of fever April 24, May 4 and May 10 respectively. The Shalers belong to Pittsburg. The sympathy of the whole community is extended to the afflicted superintendent.

Infanta Isabella Injured. Madrid, May 12.—The infanta Isabella, King Alfonso's aunt, fell from her horse and was kicked in the mouth. Her lip was badly cut, but she was not dangerously injured.

## GOOD FOR THE APPETITE.

C. L. Tewksbury Gives Proof Which Shows That QUINONA Puts the Stomach to Rights and Increases the Appetite.

C. L. Tewksbury, 650 Congress St., Portland, Maine, says of QUINONA: "About a year ago my health was completely run down. I was nervous, my

C. L. TEWKSBURY, whose appetite increased and stomach became strong after taking Quinona.

sleep seemed to rest me but little and I felt used up all through the day. My stomach was continually upset and I could eat but little. The doctor said I ought to go away for a long rest. This being impossible at that time, I was advised to

## HOLLS TO BE UMPIRE.

Selected by President to Arbitrate Venezuelan Claims.

New York, May 12.—President Roosevelt has tendered to Mr. Frederick W. Holls of this city the position of umpire to act in the settlement of the claims of Germany and Italy against Venezuela. Under the terms of the settlement effected by Minister Bowen the fixing of all damages for Germany was to be left to one person representing Germany and another repre-

FREDERICK W. HOLLS.

sending Venezuela, with an umpire to be appointed by the president of the United States, and a similar method of arbitration was to be adopted in respect to the Italian claim.

It is as umpire in each of these arbitrations that President Roosevelt has solicited the services of Mr. Holls. The question of preferential treatment of Germany, Great Britain and Italy is left to The Hague court. Mr. Holls has the offer under consideration and has not yet decided whether he will accept or not.

## HIGHBINDER ARRESTED.

Alleged Plot to Massacre Three Hundred San Francisco Chinamen.

San Francisco, May 12.—Four of the eleven presidents of the See Yop society have been arrested for the conspiracy to murder the 300 members of the Chinese Society of English Education, and two of them, Gee Hong On, who is not only the president of the On Yick Highbinder Tong, but of the See Yops, and Lee Ying, president of the Bow Leong Tong, have made complete confessions to the police.

The other seven presidents are in hiding, but will be arrested as fast as they can be found upon charges of conspiracy to commit murder, and it is believed that the evidence already obtained is sufficient to send them all to the penitentiary for long terms. The men under the ban of the See Yop society were suspected of giving the authorities information regarding gambling under police protection in Chinatown.

## The Kent Trial.

Rochester, N. Y., May 12.—Dr. Mulligan was the first witness called by the Kent defense. He testified that women experiencing the fits ascribed to Miss Dingle often gave way to despondency and depression and sometimes fell victims to melancholia. Kent next resumed the stand and under examination continued his story of the incidents which led up to the tragedy. His narrative coincides with all that has been given by the other witnesses with the exception of Dr. Grant. Kent's testimony contains a vast amount of details and was given in an open, candid manner.

**Quinona** creates an appetite and enables the system to benefit by it.

Jim Dumps and wife, invariably, Had "Force" for Sunday evening tea. When cook went out that afternoon. "Tis but a saucer and a spoon Or two to wash—a task not grim— And all are pleased," laughed "Sunny Jim."

**FORCE**  
The Ready-to-Serve Cereal

pleases everybody in every way.

Sweet, crisp flakes of wheat and malt.

"We Like It."  
"We use 'Force' and like it exceedingly."  
"H. R. SAUNDERS."

## BIG YATCHS OUT AGAIN

Shamrock III, Once More Decisively Defeats Old Boat.

SOON GETS TWO MILE LEAD

Increases It to Four as Shamrock I. Loses the Wind—Goes Home With Even Start. New Challenger Scores Another Victory.

Gourock, Scotland, May 12.—The conditions gave promise of a fine light weather trial when the two Shamrocks, under club topsails and jib topsails over their lower canvas, left Gourock in a 3 knot northerly wind. The Shamrock I, drifted quite as fast as the cup challenger and had a long lead as they started down channel. Off Holy Loch the boats got a 8 knot breeze from the northwest, and so soon as the Shamrock III, was perceptibly heeled she started to overhaul her opponent and soon closed up on the latter.

The Shamrock III, easily passed the older boat in the steeper breeze. Below Dunoon the boats started afresh on a beat out to windward, and the challenger made better work than she had yet shown. In half an hour's fair sailing, without fukes, she left the Shamrock I, quite a quarter of a mile behind.

As the wind strengthened the Shamrock III, further improved her position. Holding very high in the wind and traveling fast she opened away on each tack, beating the Shamrock I, on every yard sailed. When over two miles astern the Shamrock I made a cast into the Bute shore, but the maneuver was not profitable. She lost the wind and lay almost becalmed, while the challenger increased the big gap separating them.

A Four Mile Lead. At the end of the windward turn the challenger had a lead of about four miles, which was considered to be an extraordinarily brilliant performance, even allowing for the advantage of the wind.

As the yachts were too far apart to make racing interesting, the challenger put round and set her spinnaker for a run back. The Shamrock I, also turned and, picking up a good breeze, led the way up the firth at a fine pace. The yachts, having rejoined one another, finished the day's work with a strong reach up the firth in a fresh 9 knot breeze. At the start the Shamrock I, was to windward, on the weather bow of the challenger, but the latter caught up and passed her, going clear through her lee, reaching home, off the Gourock Yacht Club house, a minute and thirty-five seconds ahead.

Montreal Strike Settled. Montreal, May 12.—The strike of longshoremen which was inaugurated last fall and which has tied up the commerce of this port since the opening of navigation this spring has been settled, both sides to the controversy having signed an agreement. The independent labor bureau is abolished, and the men will receive an increase of about 20 per cent in wages, which will be 25 cents per hour in the day and 30 cents per hour at night, with 50 cents per hour for Sunday work. Union men will not be subject to discrimination, but must allow other men to work with them if necessary.

The President's Progress. Pajaro, Cal., May 12.—The presidential train left Del Monte at 8 o'clock. A detachment of the Fifteenth Infantry, commanded by Captain Swett, accompanied the president from his hotel to the train. After the men had been drawn in line the president stepped in front of them and, addressing Captain Swett, asked him to convey his thanks to the officers and men of the Fifteenth Infantry for the good care they had taken of him during his stay at Del Monte. A company of this regiment guarded the hotel and kept intruders from the grounds.

## THE SULTAN WARNED.

Powers Will Not Tolerate Stern Measures Against Bulgaria.

Paris, May 12.—Simultaneous publications appear in Paris, Vienna and St. Petersburg of the official review of the Bulgarian situation. It appeared in the Figaro here, the Neue Freie Presse of Vienna and in the official organ at St. Petersburg and carries out the idea, previously called, that the powers are satisfied with the correctness of Bulgaria's course and will not tolerate the adoption by the sultan of Turkey of stern measures against Bulgaria on account of the Salonika outrages.

It is pointed out that the question is not merely one between a sultan and a vassal, but is one between Turkey and the powers signatory of the Berlin convention, mainly France, Austria and Russia, owing to their geographical position. The official communication sums up as follows:

"Two important points mark the present status of the imbroglio—first, the Bulgarian government is not responsible for the Macedonian violence; second, neither St. Petersburg, Vienna nor Paris has the intention to permit Bulgaria to be held responsible."

The communication closes with the statement that the porte's first duty is to carry out the general plan for the Balkan reforms, repress the Albanian agitators and punish the murderer of the Russian consul, adding:

"If Turkey persists in diverting attention by menacing Bulgaria the ambassadors of the powers may shortly remind the porte of what the powers expect."

## RUIN IN OTTAWA.

Two Thousand People Homeless as Result of Big Fire.

Ottawa, Ont., May 12.—In the western part of this city a solitary chimney or broken walls here and there and debris still smoldering tell the tale of the awful conflagration which laid waste the area between the Ottawa and Parry Sound railway tracks on the east, Albert on the north and the tracks of the Canadian Pacific Prescott line and Third avenue on the west.

About 250 houses were destroyed, probably 2,000 people are homeless and the financial loss totals about \$300,000. One-half of this amount, possibly more, is covered by insurance.

No lives are known to have been lost. While the buildings were all pretty well insured, some of the tenants had nothing on their furniture. A good many of these succeeded in saving their effects. Every available vehicle in the city was used in moving furniture from the fire area.

## MASSACRE OF JEWS.

Russian Minister of Interior Confirms Published Reports.

St. Petersburg, May 12.—The minister of the interior has circulated a long official account of the recent anti-Semitic outbreak at Kischeneff (capital of Bessarabia). He says forty-five persons were killed and 424 were injured, and that 700 houses and 600 shops were looted. The minister attributes the rioting to religious ill will and reports of ritual murders, leading to a clamor for an attack on the Jews, and says the immediate cause of the outbreak was the ill treatment of a Christian woman by a Jew. The destruction of Jewish property and the murders followed.

The interior minister, on the direct instruction of the czar, has notified the governors that they will be held personally responsible for their failure to take proper measures to prevent similar acts of violence.

## Blazing Oil Endangers Docks.

New York, May 12.—One of the Standard Oil company's big steam barges loaded with crude oil exploded as she lay in Peck's creek, Long Island City, alongside the tank yards of the Long Island City oil refinery. The blazing oil was sent flying over one of the tanks in the yard, which exploded in turn and turned loose 10,000 gallons of flaming oil, which flowed in to the river. John Quinn, mate of the oil barge, was aboard her at the time of the explosion and is thought to have lost his life.

## No More Startling Claws.

Medford, Mass., May 12.—The end of promising clues in the Sturtevant murder case, anticipated by the police last Saturday, apparently has come. It was not denied at police headquarters that the authorities were at a loss which way to turn, so thoroughly had every line of investigation which seemed likely to bring any result been investigated. State Officer Whitney and the local officials are still deep in the mystery, but they are engaged mainly in thrashing the old straw.

## Cured by Dr. Lorenz.

Washington, May 12.—The plaster casts have been removed from the limbs of eleven-year-old Charles W. Lett, who was operated upon last fall by Dr. Adolf Lorenz, the Austrian specialist, for an extraordinary case of clubfoot. The result is pronounced by the boy's attending surgeon to be a perfect cure. The boy walks easily and naturally. The case will be presented to the medical congress which convenes here next week.

## A Reichlin Suspect in Jail.

Fremont, O., May 12.—Frank Kennedy, who was recently arrested at Sandusky and suspected of complicity in the Reichlin murder case at Lorain, is in jail here, having been bound over to the grand jury on the charge of grand larceny. It is charged that Kennedy robbed a hardware store at Bellevue on the night of the murder, but the authorities have thus far been unable to connect him with the killing of Miss Reichlin.

## Twelve Millions For Colombia.

Panama, Colombia, May 12.—It is currently reported here that the Panama Canal company has offered the Colombian government \$12,000,000 of the \$40,000,000 the company receives from the United States government for the canal property.

## Only a Pleasure Jaunt.

London, May 12.—The admiralty says the sudden sailing of the British cruisers Drake, Brilliant and Rainbow from Portland for Gibraltar is not connected with events in Morocco and has no political significance whatever.

## Pineapple Schooner Wrecked.

Nassau, N. P., May 12.—The American schooner Charles Linthicum, Captain Colston, loaded with pineapples, is ashore off Long Island, Bahamas, and will prove a total loss. Her crew has arrived here.

## To Remove Cowhiding Judge.

Richmond, Va., May 12.—The senate has voted 25 to 10 to remove Judge Campbell of Amherst on the charge of cowhiding Rev. Mr. Crawford. The case now goes back to the house for concurrence.

## Two Drowned While Boating.

Kansas City, Mo., May 12.—Alfred Taylor, aged twenty-four years, and Mrs. E. E. Tenney, aged thirty-one, were drowned in the Kaw river while boating.

**WILLIAMS' ROOT BEER**

Give the young folks all they want of it! The cost is next to nothing—two cents a quart—and the more Williams' Root Beer they drink in hot weather the healthier and happier they will be. Its roots and herbs are nature's tonic; they cool, refresh and strengthen the whole system. It's a marvel in thirst quenching, its flavor is delicious, and that such a satisfying drink can be made without alcohol is a grand thing for the temperance cause. A few bottles kept on the ice will be worth their weight in gold during the warm season.

Insist on having Williams' and only Williams'.

WILLIAMS & CARLTON CO., Haverhill, Conn., Makers of Williams' Flaxing Extract.
