### POULTRY.

As a rule it will be found that where the hens roost on the limbs of trees the poultry houses are overrun with lice.

At first the chicks of all breeds make the same growth, but after a few weeks the large breeds begin to distance the small ones in growth.

In continued damp weather, if the poultry house seems moist, put a pall of unslacked lime on the floor and scatter unslacked lime about the quarters. It will absorb moisture.

While geese when young make excellent table fowls, they are profitable on the farm mainly for the feathers they produce. They may be picked every six weeks after the laying season is over.

### THE ST. LOUIS FAIR.

One of the most important duties of 1904 is to have the exposition ready on time, and St. Louis appreciates the fact.—St. Louis Globe-Democrat.

We paid Napoleon \$35,000,000 for the French province of Louisiana, comprising considerably more territory than there is in France, Italy, Spain, Austria-Hungary, Holland, Belgium, Switzerland, Denmark, Greece, European Turkey and Germany combined. More money than all this territory cost 100 years ago is being expended on the present exposition to commemorate it. What a contrast!—Norfolk (Va.) Landmark.
