Subscriptions: One year, \$8; one month, 75 cts; single copy, 1 cent.
 Members of the Publishers' Press.—The latest telegraphic news from all parts of the world are received by the Daily Times up to the hour of going to press.
 Frank E. Langley, Publisher.
 Published Every Weekday Afternoon.
 Entered at the postoffice at Barre as second class matter.
 WEDNESDAY, JULY 29, 1903.

The average daily circulation of the Barre Daily Times for the week ending Saturday was

2,704

copies, the largest paid circulation of any daily paper in this section.

Are You In It?

The Daily Times carries considerably more advertising than any other daily in Washington county. It gets higher rates for it, too, because the Times has the largest circulation. Is your advertisement in the Times? The Times originates, the others follow, excepting only when it comes to telling circulation daily to all. The Times circulation books, press room and all else open to your inspection.

Success to E. H. Crane in his venture with the Windham County Reformer. He has been getting out a first class Lndlow Tribune and we doubt not that he will do the same with the Reformer.

The situation on the New York stock exchange has eased up a bit, so it is reported, and there is a little easier breathing on the part of those hard pressed. And even the Rockefeller with all their wealth probably do not care to part with \$100,000,000, the sum which they are credited with losing during the slump.

It is now said that the Brownington case in which three boys were arrested, charged with torturing a younger companion, and then released, was only a case of hazing. If such was the intention of the boys they put to shame any college or West Point hazing thus far noted. The only thing lacking evidently was the tobacco sauce.

"The person who attempts to make an impartial study of the results thus far of Vermont's new license law has no easy task before him," says the Northfield News, and it must be admitted by all that the assertion is essentially correct. There are so many conflicting opinions on the situation that it is impossible for any one with the average discernment to pick the facts from the mass of biased statements. What one must do to get at a correct understanding of the results brought about is to get a first-hand knowledge of the conditions, and in order to do that it is absolutely necessary to study those conditions in person. Do not take the statements of friends, on whatever side they may be, but analyze for yourself. Sooner or later you will be called upon to register your opinions again.

The choice of the Reliance to defend the America's cup was not unexpected, in fact had the decision been otherwise it would have been a great surprise to all who have followed the fortunes of the three 60-footers that have been competing for the honor of representing the New York Yacht club and the United States. Throughout the preliminary races the new boat has had the best of her two competitors on practically every occasion. She has crossed the line first in every race, although in a few instances, through time allowance, the honor of winning has gone to the Constitution. It needed only one

Under the Hammer Pounding Down Prices.

Here is the end of July, and we have ends to close out. If your size is here, grab it quick.

"This country has better paid, better educated, better fed, better clothed workmen of a higher type than are to be found in any foreign country."—President Roosevelt.

And here is the best quality of Clothes at melted down prices made by these skilled workmen.

Our mid-summer sale of ALL odds-and-ends starts Saturday. Better goods at lower prices than ever before.

trial race after all the preliminary contests, to prove conclusively that for all kinds of weather the Reliance was the best boat. The last victory was a decisive one, although it appears that the new boat was badly handled in the first part of the race. After that mistake on the part of her captain the boat steadily drew away from her competitors and crossed the finish line first, an easy winner. As for the results of the race with the British challenger there is necessarily a little uncertainty. However, the impression appears to prevail that the cup is safe for this side.

STATE LINES.

Massachusetts, New Hampshire, Rhode Island and Utah are the only states in which there has not been a lynching.

Since electrocution was substituted for hanging in Massachusetts five years ago but four persons have been executed in the state.

Missouri produced over 4,000,000 tons of coal in 1902, and it sold at the mines for \$5,325,832. Coal veins are worked in thirty-seven counties or more than a third of the number in the state.

The constitution of Tennessee provides that, whereas ministers of the gospel are by their profession dedicated to God and the care of souls and ought not to be diverted from the great duties of their functions, therefore no minister of the gospel or priest of any denomination whatever shall be eligible to a seat in either house of the legislature.

Pipes in a Skyscraper.

In an up to date skyscraper there are usually from ten to twenty miles of piping of all sorts and sizes—water pipes, gas pipes, sewer pipes, speaking tubes and ventilation ducts.

Brushes.

Brushes which have become hard through disuse should be soaked in flaxseed oil.

Appetite.

Food eaten without appetite always causes gastric disturbances, because unless the secretory glands of the stomach are stimulated by a desire for food no digestive juices are exuded into the stomach.

ABOUT THE STATE.

Items of Interest Gleaned From Our Exchanges.

Recent navy orders announce that Rev. Arthur W. Stone of Lyndonville, has been appointed chaplain with rank of lieutenant from July 14.

Included in the aggregation of talent for the Burlington Fall Festival, will be the Boston trained wild animals, the performances being given in a large circular steel cage. There will be lion, leopard, jaguar, puma and bear acts. Lady animal trainers will enter the arena with wild beasts and subject them to a performance truly marvelous. The Boston animal acts are famous all over the country.

Chief Hall says there is not as much drunkenness observed on the streets as there used to be, says the Brattleboro Reformer. Judging from the recent police court records we should say that his judgment is good. Certainly the town is very quiet and orderly. The summer guests, who are finding enjoyment hereabout, rest and recreation, say that they are delighted at the serenity of Brattleboro.

Congressman Haskins has been notified by the postoffice department that another rural delivery route, extending from the Brattleboro office, will be established September 1. This will make four rural delivery routes having the Brattleboro office their center. The new route will be 21 miles long, will extend some distance beyond the village of West Dummerston, and will accommodate over 100 families.

The annual regatta of the Lake Champlain Yacht Club, Burlington, which was scheduled to take place August 4, has been postponed until the 14th, because Commodore W. T. Foote, of Port Henry, and W. B. Rogers, of Boston, are unable to be present at the former date. The boats of these men, the Challenger owned by Mr. Foote, and the Witchcraft II owned by Mr. Rogers, are at present in New York, where they have been in some of the races in the sound. These boats will add a feature to the races.

For some months past E. H. Robbins, has missed money from his store in Gouldsboro and has been unable to account for its disappearance. Recently, however, suspicion rested on his clerk George E. Tenney and by marked bills and in other ways he became fully convinced that he had found the thief. Tuesday of last week he accused Tenney of abstracting money from him and the evidence in Mr. Robbins hands was so conclusive that the clerk confessed that he had taken money from time to time. He turned over to Mr. Robbins \$950 in money and some other property. Mr. Robbins estimates his gross loss at something like \$1,000 and the restitution made will cover over one half of it.

As Charley Plastringe was after his cows Saturday on the Holbrook lot in Northfield, says the Northfield News, he came suddenly upon a bear not two rods distant, eating raspberries, his first thought was that it was a black yearling heifer, but a second look at his head soon convinced him that he was wrong in that conclusion. His dog started in for a fight but a blow from one of brain's paws soon convinced him that he did not care for bear meat; and he retired with his hip nearly broken beside tearing an ugly wound in his side. Charley did not stop long to see which was coming out best but his dog soon caught up to him on three legs, showing brain had it all his own way. Charley says he likes to see a menagerie, but does not care to see it alone so far from help.

TIMELY TOPICS.

Eat less and drink plenty of water without ice and the heat stroke will not get you, according to the best authorities.—Chicago News.

Well, anyway, in the Reliance we appear to have a boat that can beat the boat that beat the boat that Sir Thomas sought the cup with on his last try for it.—Boston Herald.

It required but a year and a half to construct and lay the American trans-pacific cable. Now for another expedition record on the great American interoceanic canal.—Atlanta Constitution.

Nearly a billion dollars in water has been squeezed out of American securities during the last six months. And there's enough water left to make another Kansas flood.—Detroit Free Press.

College boys have solved the farm hand problem by going to work in the fields. Who will be the first to suggest to the college girls that there is a problem also in connection with the kitchen?—Atlanta Journal.

Judge Lynch is nowhere regarded as an ornament to the bench. The only trouble is that his rulings do not appear so objectionable when he is on our circuit as when he is on circuit at a distance.—Boston Transcript.

To Build a Statue of Leo XIII.

A colossal statue of Pope Leo XIII. will be erected by subscription on Mount Capleo, near Leo's native town of Carpieto, says a Rome dispatch to the New York American. Ernest Bondi will be the sculptor. Catholics throughout the world have been invited to contribute.

JINGLES AND JESTS.

Draw.
 Fashion and Folly ran a race
 To see which went the faster pace.
 But half way home they stopped. Each
 saw
 The race was going to be a draw.
 —New York Herald.

A Magnate.
 "Is he very rich?"
 "Rich? Why, he's so rich he aren't
 look twice at a girl for fear she'll bring
 a branch of promise suit."—Philadelphia Ledger.

Discouragement.
 Each day the foreign news we seek;
 Each day a puzzle strange appears.
 We find more hard words in a week
 Than we can learn to spell in years.

 the earth."—Chicago Tribune.

SPORTING NOTES.

The national amateur golf championship takes place at the Nassau Country club, Glen Cove, N. Y., Sept. 1-5. Owing to alterations in rig, Shamrock III, now carries more sail than has any other America's cup challenger.

Pitcher Walker of the Cleveland American league team was recently released to the Toledo American association team.

Many cyclists that follow motor pace have taken up the practice of wearing football harness on their heads to protect them in case of accident.

James B. Hazzin's famous breeding farm for thoroughbreds, Rancho del Puro, situated in California, covers an expanse of seventy-two square miles.

Lou Dillon, 2:03 1/2 to wagon, is the latest rival of Croceus, 2:02 1/2, for world's championship trotting honors. The game little mare is owned by E. K. G. Billings.

William A. Larned of Summit, N. J., national tennis champion in singles, is picked by experts to again win the title at the Newport (R. I.) tournament, beginning Aug. 18.

Barney Dreyfuss is planning a tour through Australia, to stop at Honolulu, Manila and Hongkong, with the Pittsburgh Pirates if they win the National league pennant for the third time.

Fast Trolley Running.

The new trolley line between Chicago and Aurora is starting out to get some records. This is an electric railway built with a view to high speeds and is a part of a system which will reach the principal towns of Illinois. The run in question was between the terminals in Chicago and Aurora, thirty-five miles, and it was made in 34m. 39s.
