The term at Goddard Seminary in Barre commences next Tuesday with the same corps of instructors as last year with two exceptions. Wilbur J. Connell, a graduate of Tufts college, is to teach the sciences, and will probably have charge of the athletic teams, as he was prominent in athletics in college. Neal F. Carley, a Dartmouth man, will be the instructor in Greek and Latin. The prospects for the football team are considered unusually bright, as there are five strong men who have had experience in the game, for the line. The only positions which have not been filled are the ends and quarter back, and there are a number of candidates for those places.

TRUTH IS MIGHTY And Will Prevail.

An epidemic of sales has corrupted the Clothing business. The sham has grown with years, until effrontery blazons itself on every side.

Coats, Suits and Trousers are marked double their worth and then reduced half! If some advertisers were compelled to establish the truth of their statements it would ruin many of them—since it would force them to be honest. It is easy to distinguish between our values and false values. That's what has made our great business. How else could we sell more Clothing than any other store in town? People buy where they can get the most for their money and are certain of satisfaction.

The success of a store depends upon what it does and not what it promises to do.
