

EDWARD S. BROWN

Had Heart Disease

311 Penn Avenue, Pittsburg, Pa., August 20, 1903.

Mr. Brown Says: "About a year ago I had neuralgia in my head so bad that I could hardly see. My heart fluttered in such an alarming way and throbbed at night so that I often thought my last hour had come. After taking Paine's Celery Compound I was entirely cured. I have earnestly recommended it to all my friends."

Paine's Celery Compound

Cured Him.

REFUNDING TWO PER CENTS.

Operations to Be Resumed to Extent of \$20,000,000.

Washington, Sept. 24.—Secretary Shaw authorizes the statement that owing to the scarcity of 2 per cent bonds, both for circulation and as security for government deposits, he will renew refunding operations to the extent of \$20,000,000, in accordance with the previous circular.

Of the total issue of \$517,000,000 of 2 per cent bonds the treasurer already holds for circulation and for deposits \$480,000,000.

Secretary Shaw also authorizes the statement that he will redeem the 5 per cent bonds maturing Feb. 1, 1904, paying interest to maturity.

The banks that have had on file with the treasurer for thirty days or more 5 per cent bonds as security for public deposits will be permitted to substitute approved state and municipal bonds therefor, which will be accepted at 75 per cent of their value.

Mountain Slide Endangers Town.

Nelson, B. C., Sept. 24.—Another immense slide has occurred at Turtle mountain, near Frank, Alberta. So far as known no lives were lost, but all the people of Frank have deserted the town again, going to Blairmore and other towns. The slide occurred just as a train was nearing Frank, and as quickly as possible the brakes were applied and the train backed for several miles. After waiting over an hour the train was run to Frank, and the people, who were all waiting in the station, were taken on board.

Germany's Big Steel Trust.

Cologne, Prussia, Sept. 24.—The steel syndicate, embracing all the large makers, has been renewed for five years in the form of a stock company which is to handle the total product. The stock company is believed to be an advance on the simple syndicate idea. It will effect a closer community of interests. Each member will be allotted a fixed percentage of the total and will contribute 5 marks for each ton produced over the quota and will receive 5 marks for each ton below the quota.

Entitled Only to Salary.

Hornellsville, N. Y., Sept. 24.—In the case of Gabriel T. Connine against the county of Steuben Judge Nash at Bath has handed down a decision in favor of the county, placing the costs on Connine. While Connine was county treasurer he failed to take out a commission on certain moneys he handled. Later he sued for \$5,000 fees. The court held that he was entitled only to his salary of \$1,200 a year.

NAMED BY THE PEOPLE.

Half a century ago, when the late Rev. Father John O'Brien of Lowell, Mass., recommended to his parishioners and friends the prescription that had restored him to health and strength, the people named it Father John's Medicine, and so it became known and was advertised, with his knowledge and approval. The prescription of an eminent specialist, it is pure and wholesome, and free from alcohol and poisonous narcotics or nerve-deadening drugs in any form—not a patent medicine. Its power to make strength and build up the body explains why it has been so successful for fifty years in curing colds and all throat and lung troubles.

Growing Old Gracefully —and Healthfully

The infirmities of old age are successfully combated by the use of

ANHEUSER-BUSCH'S Malt-Nutrine
—The Food-Drink.

Its tonic properties are invaluable to those who are weak—nursing mothers, little children and the aged.

All druggists sell it. Prepared by the

Anheuser-Busch Brewing Ass'n
St. Louis, U. S. A.

ATTITUDE OF RUSSIA

Said to Be Supporting Sultan's Right to Invade Bulgaria.

THE VIEW OF AUSTRIA.

Opposed to the Position Taken by the Car-Turkish Officials Trying to Revive Plan to Escape War.

London, Sept. 24.—The Sofia correspondent of the Times affirms that a singular communication has been made to the Bulgarian government from Count Lamdorff, the Russian foreign minister, who observed that in the opinion of Count von Bulow, the German chancellor, Turkey has the right to send troops into Bulgaria to preserve order. This was coupled with a gentle recommendation to observe caution. At the same time Count Goltchewski, the Austro-Hungarian foreign minister, expresses the opinion that the slaughter of 2,000 Macedonian peasants does not warrant complaints of the extermination of the Bulgarian race in Macedonia.

Deplorable Condition of Refugees.
The condition of the 10,000 refugees at Burgas, mostly old men, women and children, is deplorable. All are absolutely destitute and famishing.

It is evident from the daily meeting of the council of ministers at Yildiz Kiosk that some sort of negotiations are in progress with the object of averting war. According to a dispatch to the Daily Mail from Constantinople, these councils concern two possibilities—either to make an arrangement satisfactory to the Macedonians or obtain from the great powers promises of neutrality if it is found impossible to avoid a war.

Overtures From Turkey.

The Sofia correspondent of the Daily Telegraph asserts that the overtures came from Turkey and were welcomed by the Bulgarian ministers on the condition that deeds were substituted for words and that the cessation of wholesale massacre should become an accomplished fact. He adds that a pacific solution, if it comes, will emanate from Constantinople, where the Bulgarian representative is invested with full powers and the negotiations are said to be proceeding satisfactorily.

A Monastir correspondent of the Daily Chronicle, writing Sept. 15, says the Bulgarian list of villages pillaged and burned reaches a total of 104. According to a dispatch from Odessa, the whole Russian Black sea fleet is kept on a war footing in readiness for any eventuality.

Fatal Result of Lovers' Quarrel.

Bessemer, Mich., Sept. 24.—Annie Woznak, aged twenty-four, was shot and instantly killed by Edward Nileski, her former fiance, in front of her mother's home here. Nileski then shot himself in the abdomen, and his recovery is doubtful. The girl had been visiting in Ironwood, and Nileski had gone there to endeavor to patch up a quarrel that separated them a year ago. The couple came home together on the train and quarreled, it is said, while en route. When they left the train the girl escaped around behind a water tank to dodge Nileski, but he followed her and shot her on her mother's doorstep.

Wealthy Man Attempts Suicide.

Buffalo, Sept. 24.—Reed Northrup, a wealthy St. Louis business man connected with one of the fast freight refrigerating lines, attempted to commit suicide here by shooting himself. The bullet, however, merely inflicted a superficial wound in the scalp. Northrup, with his wife, who is in bad health, and two children, has been stopping at the Niagara hotel for two weeks. Worrying over his wife's health, which prevented his returning to St. Louis, where he had important business engagements, is attributed as the cause of his attempt to take his life.

Ex-Senator Farwell Dead.

Chicago, Sept. 24.—Former United States Senator Charles B. Farwell is dead at his home in Lake Forest of heart trouble after several months' illness. Mr. Farwell has been a prominent figure in local, state and national politics since he came to Chicago in 1884. He was born in Steuben county, N. Y., eighty years ago. After serving as county clerk, member of the state board of equalization, state senate and house of representatives, he was elected to the United States senate from Illinois in 1887.

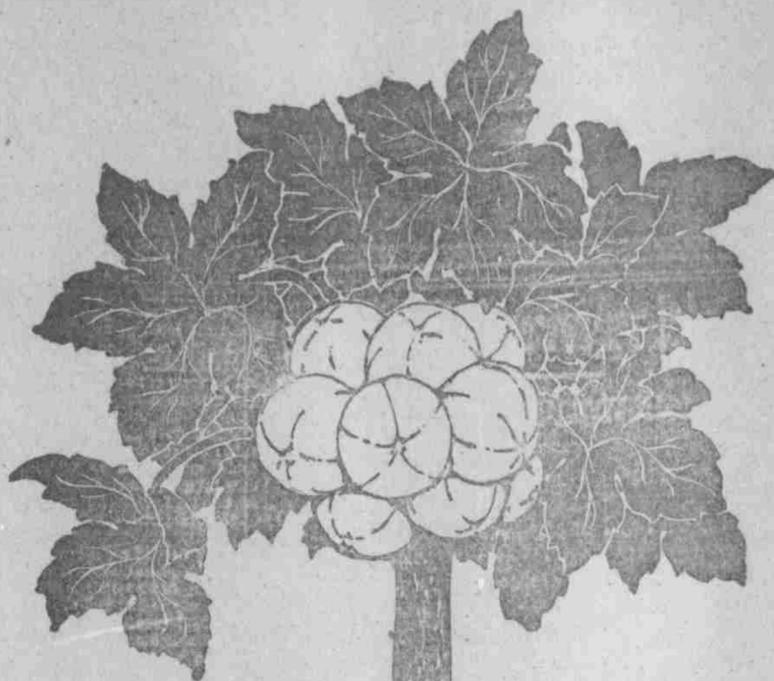

To Increase Whisky Output.

Peoria, Ill., Sept. 24.—With the low price of whisky all the dealers are experiencing an enormous demand, and the whisky trust has ordered an increase in the capacity of the Great Western and the starting of the Monarch and Atlas here at a capacity of 13,500 bushels per day and the Globe at Peoria on Oct. 1. A new still is being erected at the Atlas to increase capacity, and the Woolners are rushing work on their independent house. The trust is engaging a force of 300 men for the operation of new idle plants.

Fatally Bitten by Adder.

Hobart, N. Y., Sept. 24.—Helen Vandusen, the two-year-old daughter of Hiram Vandusen, was probably fatally bitten in an encounter with a spotted adder while playing on her father's farm near here. She fought the snake fiercely and was bitten four times, the reptile finally being killed by her mother, who was attracted by the agonized cries of the child.

A Tonic That Tones!

MUNYON'S PAW-PAW

TRADE MARK

CURES

NERVOUS DISEASES

The Person Who is Nervous, Who is Irritable, Who Cannot Sleep, Who Cannot Find Happiness, Who Cannot See the Bright Side of Life,

SHOULD USE MUNYON'S PAW-PAW.

There is no class of sufferers whom I pity more than those suffering from nervousness. They get very little pity; the public cannot understand them. Their friends weary of them and they seem to have no companionship but their own gloomy thoughts. While others sleep, they toss and turn, worry and fret, imagine all sorts of impossible things, magnify their ills and anticipate great losses and troubles. As a rule, it will be found that nervous people suffer with some form of indigestion; that they have been overworked or overstrained or are suffering from some great mental worry. One of the best tonics is friendship and sympathy. Every well person should give these sufferers not only encouragement but their heartfelt sympathy. My Paw Paw remedy acts directly on the nerve centers. This remedy is really a food as well as a stimulant to the nerves. It relieves the tension, quiets and soothes the nerves. I believe it to be the greatest nerve tonic and strength-builder ever placed on the market. It is made from the Paw Paw fruit, which grows in India and South America. Mr. Joseph Jefferson told me that it really made a new stomach for him and enabled him to eat all he liked and when he liked and what he liked. This new vegetable pepsin is far superior to animal pepsin in aiding digestion and the upbuilding of the nervous system. It is put up in large bottles. A tablespoonful three times a day, or whenever needed, will give tone and strength to the weak and debilitated and will give hope to the nerve-shattered and nerve-depressed persons. If you are nervous, if you cannot concentrate your mind, if you are irritable, if you cannot sleep, ask your druggist for Munyon's Paw Paw. Take it faithfully and I believe you will be pleased to write and thank me for giving you this advice.

Slaveholding in Vermont.
Slavery was never common in Vermont, but proof conclusive that it existed is furnished by records on file in the probate office in Brattleboro. In the inventory of a Bennington estate, settled in probate court in 1791, one female slave is listed along with the other property of the deceased.

A Milk Test.
A German method of testing the purity of milk is by dipping in it a polished knitting needle. It should be held upright and immediately withdrawn. If the milk is pure some will adhere to the needle, but if water has been added, even in small proportion, it will come forth quite clean.

Post Office Safe Ripped.
Joplin, Mo., Sept. 24.—Robbers blew open the safe of the Baxter Springs post office and secured \$800 worth of postage stamps and about \$250 in money. The robbers used nitroglycerin. The explosion wrecked the building and blew the safe thirty feet through a wall into an adjoining drug store.

One Baking Day a Week is all you need have if you use Pillsbury's Best Flour, because bread, cake and pastry made by it will keep fresh longer than when made by ordinary flour.

At Work on Annual Message.
Oyster Bay, N. Y., Sept. 24.—Already the president has begun work on his annual message to congress. This work is simply preparatory, and nothing yet has been reduced to definite form. The message to be presented to the extraordinary session will be comparatively brief. The call for the extraordinary session will not be issued until about the middle of October, perhaps a little later.
