Tired Feeling—Blood Trouble—Grip Cured—Fought Off—Vanquished. The Homes of the Nation Send Their Thanks and Praise For

PAIN'S CELERY COMPOUND

Tunbridge, Vt., Dec. 11, 1891.—I began taking Paine's Celery Compound in the spring after having spent a year and a half confined to my bed on account of having pneumonia and a bad knee, due to blood trouble. At the time I began taking your medicine I was very nervous and did not want to see anyone—only my own folks. The doctors all said that there was not anything else they could do for me, and also said they did not think that I would ever be any better, and if I was better I would never be able to walk again.

ATTACK ON ALFONSO

Bomb Exploded Near the Spanish King in Barcelona.

TWO PEASANTS KILLED BY IT

One Arrest Made—Further Details Suppressed by the Censor—Monarch Had Been Accorded a Cordial Reception on His Arrival in the Republican City.

London, April 8.—An official telegram received in Madrid from Barcelona says that as King Alfonso was leaving the exhibition there a petard was exploded, injuring two peasants. One arrest was made.

The Spanish embassy here has not received any information in regard to the reported attempt upon the king. Dispatches from Madrid and Barcelona are anxiously awaited, but, owing to the strict censorship in Spain, especially in the case of such events as the one reported from Barcelona, some time may elapse before details of the attack are received here.

King Alfonso had just arrived at Barcelona for a visit to Catalonia. He was accompanied by Premier Mauru and War Minister Linares and a nu-

merous staff. Barcelona is the hotbed of republicanism, and the visit caused much discontent in Spanish official quarters, as it was feared that the Republicans and Socialists would vent on the king their hatred of the premier, whose strong measures in dealing with the strike rioters had made him very unpopular. As a preventive measure large numbers of anarchists and other suspects were arrested last week, and a cruiser, three gunboats and a large force of gendarmes were sent to Barcelona.

King Accorded Respectful Reception. The Spanish king was accorded a respectful reception at Barcelona, and

soon after his arrival attended a "Te Deum" at the cathedral. The streets were decorated with flags and lined by enormous crowds of people. Subsequently the king witnessed a march of the troops from the balcony of the captain-general's palace. The officials were delighted at the loyalty shown in the reception of the king. It was estimated that there were 200,000 persons in the streets, and the pressure was so great that the cordons of troops and police were repeatedly broken by the people who were anxious to see their monarch.

After the review he visited the exhibition hall and what came near being his death chamber.

It was his majesty's original intention to sojourn in the department of Catalonia, in which Barcelona is situated, during the coming two weeks, but it is now believed that he will abandon that plan, and avail himself of the illness of his grandmother, Queen Isabella, as a pretext to leave for Paris immediately. Reports from the French capital say the dowager queen is in a precarious condition.

Burton Goes to Washington.

St. Louis, April 8.—United States Senator J. R. Burton of Kansas has departed for Washington, accompanied by his wife. The record in his case is now in the custody of James Gray, clerk of the United States district court, who was given sixty days' time in which to file a copy of it with the United States district court of appeals. The case is made returnable at the sitting of the court in St. Louis next November.

Government Trading Post Robbed.

Ross Fork, Ida., April 8.—The government trading post at this point has been held up by two masked men, who secured about \$1,500 in gold and silver. The robbers entered the store just as an employee named Pyke was transferring the cash from the money drawers to the safe. Ordering him to hold up his hands, they bound and gagged Pyke and then rifled the safe. The robbers escaped with the plunder.

If Your Liver is Wrong You are Wrong all Over.

A torpid, inactive liver goes hand in hand with constipation, and is a chronic condition, one requiring a systematic, well-directed effort to overcome the same effectually and establish conditions of health and perfect body drainage. Smith's Pileapple and Butterant Pills, containing the two elements needed to increase liver activity and muscular action, go accurately to the sluggish liver and bowels, restoring them to perfect action. They are composed of the two great vegetable agents, pileapple for the stomach, liver and gastric secretions, and butterant for the mucous membrane, circulation and bowels, and always give best results—they are Nature's own laxative. Smith's Pileapple and Butterant Pills cure constipation, biliousness, headache in one night. All dealers 25 cents. All genuine signed W. F. Smith.

RED MEN IN WRECK.

Special Car Full of Indians Run Into by Fast Mail.

THREE INSTANTLY KILLED

Three More Will Die and Twenty Are More or Less Seriously Hurt—Were Going to New York to Join a Show Braves Chant the Death Song.

Maywood, Ill., April 8.—Three Indians were killed, three fatally injured and twenty more or less seriously hurt in a wreck on the Chicago and North western railroad, two miles west of here.

The following is the official account of the wreck furnished by the company:

"Train No. 6 on the Northwestern from the west, running twenty minutes late on account of a dense fog and having two extra coaches occupied by Indians en route from the reservation near Rushville, Neb., to New York for show purposes, was stopped at Melrose Park near Maywood by block signal on account of a train ahead of it. Fast mail No. 10, which carries no passengers, ran into the rear end of No. 6, and one of the coaches containing the Indians was damaged by the collision. Three Indians were killed and twenty-three injured, three of them seriously. The pilot and headlight of the engine of No. 10 were knocked off. The uninjured Indians were left at Maywood, and the injured sent to the hospital there."

Wreck Caused by Dense Fog.

Persons who were on the train said that the collision unquestionably was the result of the dense fog which stretched from Lake Michigan many miles westward. In addition to the fog clouds of escaping steam enveloped the wreck and added to the difficulty of rescue.

A moment after the crash there was not a sound from the ill fated coach. Then one by one those surviving the crash regained in part their senses and began shouting for aid. A terrifying yell from the Indians was heard by the other passengers. All the men passengers and many of the women on board the two trains hastened to the aid of the injured Indians. The fact that one side of the rear car fell off with the impact undoubtedly saved the lives of many Indians who were thrown out on the prairie on the ground, clad in their native garments with their red blankets dyed deeper by the blood of their wounds. The men were men of splendid physique and the exhibition of calm nerve on the part of Chief White Horse was a good example of that of the other members of the Indian party.

Chief White Horse, who was in charge of the Indians, was fatally injured. The bodies of the Indians who had been killed outright were laid on the prairie beside the track. Chief White Horse being carried with them.

He said he knew that death was near and requested that he be placed near his dead companions. The chief was propped up and sat stoically while physicians worked over his injuries. He smoked a pipe quietly and showed no signs of the pain he must have been suffering. One by one the other injured Indians were slowly taken from the splintered car and placed upon the ground near their dying chief and dead comrades. The physicians hurried from one to another of the injured, administering to the wants of all, while arrangements were being made to take the red men to the nearest hospital.

Indians Chant Death Song.

After the bodies of the dead had been removed from the wreckage and placed in a row on the prairie beside the tracks, an incident probably unparalleled in railway records took place. The uninjured among the Indians gathered about and, led by Chief Iron Tail, solemnly chanted the Indian "death song."

The Indians were members of the Buffalo Bill organization, and at New York were to embark for England.

The killed are: Kill Head, skull crushed; Philip Irontail, body crushed; Thomas Comelast, body crushed.

The most seriously injured are: Big Chief White Horse, body crushed and legs broken, will die; Luther Standing Bear, crushed about body and head, will die; Annie Gooseface, crushed about body, will die; Head Chief High Ball, at the head of the delegation of the Sioux, severely crushed about the body.

Bad Wreck on Baltimore and Ohio.

Central, W. Va., April 8.—In a collision between a passenger and a freight train near this place on the Parkersburg branch of the Baltimore and Ohio railroad Conductor Ford of the freight train was instantly killed and Engineer Bennington badly injured. Three postal clerks—P. K. Applegate of Loveland, O., T. H. Conneron of Cincinnati and W. W. Wild of Parkersburg—were slightly injured. No passengers were injured except one man, who had a lip slightly cut.

Fatal Collision in Ohio.

Sandusky, O., April 8.—In a head-on collision between freight trains on the Lake Side and Marblehead road, near Lake Side station, Fireman Frederick Doell and Brakeman William Pokey were killed, while Brakeman John Brady, Engineer James Cullen and Brakeman George Ward were perhaps fatally injured. The accident occurred during a dense fog. Both trains were moving at a high rate of speed when they came together.

SUPPLY BOATS ENTER YALU.

Russian Forts on Manchurian Side Evidently Not Effective.

Tokyo, April 8.—A dispatch from Seoul, Korea, says that the Japanese supply steamers are safely entering the estuary of the Yalu river and are landing their cargoes at various points on the Korean shore. It is presumed here that the movement of these supply steamers is covered by Japanese gunboats.

If this is true, the Russian forts erected upon the Chinese side of the Yalu river are evidently not effective. According to reliable Korean reports the American mines at Ussan and the English mines at Gwendolen are safely guarded by detachments of Japanese troops.

Lieutenant General Sir Ian Hamilton (quartermaster general to the British forces and formerly Lord Kitchener's chief of staff), Lieutenant General Sir William Nicholson (director general of military intelligence of the British war office) and Colonel James A. L. Haldane (of the Gordon highlanders), the three British officers who will be attached to the Japanese army during the war, have been received in private audience by the emperor. The British minister, Colonel Sir Claude Macdonald, made the presentations.

New Korean Minister to Japan.

Seoul, April 8.—Chô Min Heut, a former minister to the United States, has been appointed minister to Japan in place of Hyun Yung Un, who was appointed April 1, but who refused to accept the post. M. Hayashi, Japanese minister to Korea, claims that the murder of three Japanese merchants in the province of Chungcheung was due to internal disorders. It is also reported that the Tonghak risings in co-operation with disbanded Korean soldiers in the vicinity of Pyongyang are nothing but usual perennial disturbances and have no significance politically.

Forty Transports Off Haiju.

Seoul, April 8.—An American missionary who has just returned from northern Korea reports having seen a fleet of forty transports, some of which were very large, off Haiju, fifty miles north of Chemulpo. It is supposed that the transports are carrying a party of the second Japanese army, the first three divisions of which are said to be destined to land at Yon-gampho.

Japs Off Port Arthur.

St. Petersburg, April 8.—The admiralty has received information that a Japanese squadron is cruising off Port Arthur.

Negroes Try to Lynch Negro.

Chattanooga, Tenn., April 8.—A special to the Times from Bristol, Tenn., says a mob tried to get possession of Emley Preston, the negro, who murdered Lillian Shaw, colored, in Johnson county and who is now in jail at Mountain City. The mob almost had the man in their possession when their courage failed them and they scampered away. Those composing the mob are said to have been negroes. This is the second attempt to lynch Preston by people of his own race. Preston was recently convicted of murder and sentenced to be hanged, but his case was appealed to the supreme court.

Alleged Bandits Arrested.

Santa Rosa, Cal., April 8.—Two men have been arrested on suspicion of having been implicated in the recent hold-up of the Oregon express near Copley. The men gave their names as Daley and Welch. They had disposed of a rifle resembling those carried by express messengers.

France Won't Sell Islands.

Paris, April 8.—Owing to the reports that France contemplates the disposal of the islands of St. Pierre and Miquelon the foreign office authoritatively announces that the disposal of the islands is not contemplated to any country whatever.

A NEW SKIN IN 45 DAYS

ECZEMA, SALT RHEUM, ITCHING PILES, TETTER, BARBERS' ITCH.

Any skin disease completely eradicated. A sufferer literally covered is cleared off and permanently cured in 45 days' time—a new skin practically grows—no pain—no smarting or itching during the cure.

WE VOUCH FOR THIS

In the case of Mr. Henry Walters shown here, photographed in his diseased condition, (psoriasis, a species of eczema), he was almost entirely covered. The trouble started in three small spots and did not spread beyond this for eight years. Then it suddenly raged all over.

It raged more or less in this way for ten years, and was afterward entirely cleared away in about 6 weeks time by D. D. D. and no taint of the disease has appeared since—over two years ago.

We know this to be exactly as stated.

Red Cross Pharmacy, Rickert & Wells, Props.

This result can be accomplished with any skin affection. Barrels of blood medicine can do nothing for a skin disease. Nine out of ten manifestations in the skin are local, parasitic in nature and absolutely curable by this new prescription. D. D. D. is a clean liquid prescription sipped or atomized over the affected spots twice daily.

This preparation has our unqualified endorsement. We are recommending it with most excellent results. The cures already effected are having wide-spread influence in this section. If you have a skin affection—come to the store. It will be the means of making you a happier human being.

ALBERT E. BELL CAPTURED.

Alleged Mail Robber Charged With Stealing \$1,000,000.

Tacoma, Wash., April 8.—Albert E. Bell, the alleged mail pouch robber, who escaped from two United States marshals near Philadelphia last October by jumping from a moving train, has been arrested here.

He made a daring break for liberty by jumping off a sixty foot embankment, was recaptured and finally landed safely in jail. When searched, a number of letters were found in his possession, all containing checks or money orders.

When closely questioned, Bell said that he and his companions had stolen a mail pouch from a truck in front of the Seattle station last Sunday morning and had secured \$1,700 in checks and money orders, \$700 of which they had converted into cash.

Albert Bell is declared by the police to be one of the most noted forgers and mail pouch thieves with whom the authorities have ever had to deal. As a result of his operations he has, it is estimated, secured nearly \$1,000,000. He was arrested at Denver on Oct. 2, 1903, by secret service officers in St. Anthony's hospital, where he had undergone an operation.

He was taken to Philadelphia to stand trial for a robbery in which \$500,000 was taken. He left Denver in charge of Deputy United States Marshals Baker and Davis. On Oct. 19 the party arrived in Philadelphia. As Bell's marks went into the toilet room Bell picked up his valise and left the car, unnoticed by any one, and disappeared in the crowd.
