"For several years I suffered from kidney trouble. Doctors were unable to give me any permanent relief. I not only lost confidence in medicines, but my trouble sapped my vitality so severely that I was unable to do my work. I tried to get up my position. A friend persuaded me to try Dr. Pettigill's Kidney-Wort Tablets. I tried them as a last resort. In a short time I was completely cured. I have never had a recurrence of the kidney trouble, and I have regained more strength than I lost. Am better than ever. You can print this."—Chas. E. Rothschild, 21 Robinson St., E. Albany, Pa.

Charles E. Rothschild cured his lack of energy and of confidence when he cured his Kidney Weakness.

His loss of vitality and of confidence was the direct result of his kidney trouble. The kidneys have entire influence on the vital energies of the body. To try to cure lack of vitality by more stimulants or dangerous drugs is foolish folly.

Dr. Pettigill's Kidney-Wort Tablets have brought the joy of life to thousands of men and women, who acknowledge the cure and who are praising the medicine to their friends.

RUSSIA AFRAID OF MA

Chinese Troops on the Border Regarded With Suspicion.

JAP OFFICERS WITH THEM.

M. Lessar, Czar's Minister at Peking, Demands Dismissal of These Men—This is Refused, China's Neutrality Will Be Considered Violated.

St. Petersburg, April 12.—The reports that M. Lessar, the Russian minister at Peking, had made strong representations to the Chinese government on the subject of the Japanese military instructors in the service of China and the Japanese officers with General Ma's army, demanding the issuance of orders for their dismissal, are confirmed here. Russia regards their continued presence where they are as being a most serious threat to her.

It is pointed out that without the consent of the Peking government the Japanese officers who are with General Ma, who is now north of the great wall, easily can obtain dominant influence over the Chinese troops and use them if the Japanese operations demand the creation of a diversion in General Kuropatkin's rear, possibly resulting in cutting his communications.

Would Greatly Harass Kuropatkin.

If General Kuropatkin is compelled in time of stress to meet a sudden and unexpected attack from this quarter it might greatly embarrass him. Of course the Peking government would disavow complicity, but the harm would be done, and Russia considers that the immediate removal of Japanese influence with the Chinese army is imperative.

While it is not specifically stated that China's failure to comply with the Russian demands will be considered a violation of Chinese neutrality, this is believed to be the true account of the situation. It is added that Kuropatkin is disposing of 20,000 men where they will be available for use in the direction of the Chinese frontier, but no confirmation of this report is obtainable.

RUSSIANS NERVOUS.

Fired on Their Own Patrol Boats at Newchwang.

Newchwang, April 12.—An official explanation has been issued of the firing of guns from the fort here last night, which caused a certain amount of excitement and the killing of two Chinese. It appears from the official statement that, owing to the fact that the officers of the garrison did not understand the system of customs flash signals in use at the mouth of the river for the purpose of signaling the depth of the water on the bar, so as to enable ships to put to sea, fire was opened at some pilot boats and outward bound merchantmen. These vessels were sighted by the forts some time after midnight, and at 12:30 the artillery opened fire on the vessels, twenty-four shots being fired, including projectiles from large guns.

The effect of the fire had not been reported up to a late hour, but the firing caused a certain amount of excitement among the troops, during which a sentry fired on and killed two Chinese sampan men opposite the foreign settlement and three miles from the forts. The two Chinese had become alarmed at the firing and endeavored to cross the river, with the result already detailed.

In view of the reports received here of Japanese activity in Korea and of the arrival of Japanese troops on the Yalu river it is understood that the troops of the garrison had been fully warned that it was possible the Japanese would make an attack on this place, and the citizens, on hearing the firing, naturally supposed that the attempt was being made.

Japan's First Army Landed.

Paris, April 12.—Official advices received today by the French government confirm the press dispatches announcing that Japan's first army, consisting of four army corps, is now completely landed in Korea, and that the second army, consisting of a similar number of corps, is about to start. The points of debarkation of the second army are not known.

Japs in Force at Wiju.

Pingyang, April 12.—The Japanese now control the whole Korean bank of the Yalu river and are in especially strong force at Wiju. Forty foreign correspondents have arrived at Chinnampo to Tokyo. It is expected that they will go north with the headquarters staff.

Vladivostok Prays For Victory.

Vladivostok, April 12.—The churches have been in observance of the Easter holidays, crowded with people praying for victory. Many of the inhabitants who fled from Vladivostok to Khabarovsk, eastern Siberia, at the outbreak of the war, are now returning here.

Train Loads of Wounded.

Tientsin, April 12.—It is reported from Mukden that two trains bearing a large number of Russians who were wounded in an engagement on the Yalu had passed there. Their destination is Harbin.

Moving on Port Arthur.

Rome, April 12.—A dispatch from Chifu says that seventeen battleships and cruisers, twenty steamers and twelve torpedo boat destroyers have passed Chifu, apparently bound for Port Arthur.

A WORD OF COMFORT

To the Distressed.

Fortunately for those suffering with Rheumatism in all its various forms, including Sore Joints, Sore Muscles, and Sore Feet, a remedy has been discovered by modern science which in every instance effects a speedy and positive cure. This new remedy is founded on scientific principles which are acknowledged by the medical world as the only correct treatment for Rheumatic or Neuralgic troubles. Medicines taken internally rarely ever effect a cure without upsetting the stomach. As a rule, they injure the digestive organs, shatter the nerves, and in many instances the patient contracts a drug habit which leads eventually to a decline of the physical and mental forces.

Paracamp is the new remedy and it is a departure from the antiquated methods. Paracamp enters into the system through the natural channels, namely, the pores of the skin. When applied it opens the pores and allows the healing, soothing oils to penetrate the sore, inflamed membranes and muscles, remove the congestion and draw out the fever and inflammation, by inducing sweating. This is the only treatment that can be endorsed by science, and is guaranteed to cure even the most obstinate cases of Rheumatic Swellings if used as directed. Paracamp can be procured at drug stores in 25 cent, and 50 cent, and \$1.00 bottles. Write for book of testimonials, sent free. The Paracamp Company, Louisville, Ky., U. S. A.

WOOD ON THE WALK.

Sends Two Expeditions Against an Obstreperous Sultan.

Washington, April 12.—The following bulletin has been posted at the war department:

"General Wood reports that he invited Sultan Taraca to meet him at Vicars on March 31 for consultation, and that the sultan refused to come, and instead made extensive hostile preparations. Marching columns from Marabul and Vicars left on the 2d of April to assemble in Taraca valley. The Vicars column was fired into all night ten miles from Vicars, and one enlisted man was seriously wounded. The Marabul column was strongly resisted at the mouth of the Taraca river, although every effort was made to accomplish a peaceful landing; two enlisted men were seriously wounded. The combined forces assembled in the valley on the 4th of April, and a large number of hostile fortifications were destroyed from the 4th to 7th. The troops then returned to their respective stations. Newcomb, Company K, Seventeenth Infantry, and Wainner, Company D, Twenty-third Infantry, were killed. Every effort was made to bring the Moros to terms peacefully, but in each instance our troops were attacked before firing a shot, and force was only used when all peaceful methods failed and the enemy attacked us. The two chiefs who have been at the bottom of all the trouble on the east side of Lanao for two years are now in hiding, and they will be arrested if possible."

POPE AT ST. PETER'S

Pius X. Celebrates Anniversary of Gregory the Great.

A STUPENDOUS SPECTACLE.

His Holiness Greeted by Seventy Thousand Persons—Old Gregorian Chant, Under Abbe Perosi's Direction, Adds to Solemnity of Ceremony.

Rome, April 12.—For the first time since his coronation, Aug. 9, 1903, the pope went to St. Peter's to say mass. The mass was in celebration of the thirteenth centennial of St. Gregory the Great, who died in 604 A. D.

The immense basilica of St. Peter's was filled, more than 70,000 persons being present. The pope was in the best of health. He appeared in the sedia gestatoria, although the notion of this chair, carried on the shoulders of bearers, makes him ill.

On his express recommendation the audience refrained from applause or crying out, contenting themselves with the waving of handkerchiefs.

The inside of St. Peter's offered, as usual, a grand sight, which once seen is never forgotten. There were only three tribunes, for members of the aristocracy, diplomatic corps and royal families respectively. There was also a special reserved place for the pope's family, which was occupied by his three sisters. They were dressed entirely in black, with black lace draped over their hair.

The Sistine choir, directed by Abbe Perosi, who, together with Maestro Relis, has been its organizer and instructor in Gregorian chant, had a special box near the throne, while grouped around it were 1,200 youths of practically every nationality, race and color belonging to the ecclesiastical colleges at Rome. The Benedictine monks who formed the choir were also located here.

Silver Trumpets Welcome Pope.

The arrival of Pope Pius was heralded by a blare of silver trumpets as he came in the procession down the main regia in the Vatican leading to the main entrance. He entered the church by the Chapel della Pietra, where he entered the sedia gestatoria. Although the procession was as gorgeous as ever, the bright red of the cardinal's dress mingling with the brown of the monk's robes and the white gowns of the choir, the benignant figure of the pope under the gorgeous canopy, the picturesque ostrich fans and the glittering helmets of the guards, its reception seemed cold after the frantic applause permitted by Pope Leo. This, however, belittled the effect of the choir, which greeted him with music as he came in.

After a brief halt in the Chapel of the Sacrament the pope proceeded to the throne. The triple crown was placed on his head by Cardinal Machi. Immediately after the crowning the pontiff celebrated mass to the accompaniment of the organ.

ALL GENUINE SIGNED

empanment of the Gregorian chant, written enoet solemnly throughout the vast basilica.

America was represented in the papal procession by the Most Rev. Robert Rehn, titular archbishop of Heliopolis, formerly of Jersey City, N. J.; Right Rev. John O'Connor, bishop of Newark, N. J.; Mr. Thomas F. Kennedy, rector of the American college at Rome; Very Rev. J. P. Farrelly, formerly of Nashville, Tenn., spiritual director of the American college at Rome; Mr. J. A. Stafford, and Father C. P. Carroll of Newark, N. J.

At noon the pope re-entered his apartment, the procession being formed in the same manner as on entering the church. There was no applause and a lack of incident, except that several persons fainted, especially ladies and soldiers who had been in the piazza since four o'clock in the morning.

Coal Strike Becoming Serious.

Lattrobe, Pa., April 12.—The miners' strike situation is assuming grave proportions. Sheriff Treacher came to Lattrobe and is placing additional deputies on guard. A vote was taken at a meeting of the strikers, resulting in favor of continuing the strike. A raid had been planned on the plants of Dorothy and Lattrobe of the Connelville company, but was abandoned. Over 3,500 men are out.

REPUBLICAN PROGRAMME.

Odell and Dunn Announce Delegates and State Committeemen.

New York, April 12.—Republican politicians from all over the state arrived at headquarters at the Fifth Avenue hotel, and Governor Odell and Chairman Dunn of the state committee were kept busy answering queries as to plans for the convention. These things were finally settled.

Delegates at large to the national convention—Senator Thomas C. Platt, Senator C. M. Depew, Governor B. B. Odell, Jr., and former Governor Frank S. Black.

Alternates—For Senator Platt, Louis F. Stern of New York; for Senator Depew, not settled; for Governor Odell, Mayor Erasmus C. Knight of Buffalo; for Frank S. Black, Henry C. Brewster of Rochester.

Senator Platt has the naming of the alternate for Senator Depew and will probably select some person from the southern tier of counties.

The electors at large as decided upon are former Mayor Schieren of Brooklyn and George Urban of Buffalo.

Assemblyman Jenn Burnett of Ontario is to be chairman of the committee on resolutions and will read his platform to the convention. State Superintendent of Insurance Francis Hendricks of Syracuse is to head the committee on contested seats, and the only contest, that between the adherents of J. Sloat Fassett and Congressman Gillette over the delegates from Seneca county, will be the only matter brought before it.

The changes to be made in the list of state committeemen are as follows:

First district, Leander B. Faber, in place of W. M. McKinney; Second, R. M. Johnson, vice H. Jacquillard; Eighth, G. H. Cromwell, vice Cornelius Van Cott; Tenth, J. P. Pegram, vice F. Edman; Eleventh, William Halpin, vice C. W. Meade; Thirteenth, Edward Lauterbach, vice R. C. Morris; Fifteenth, Abraham Gruber, vice L. E. Quigg; Twentieth, B. B. Odell, Jr., vice L. F. Goodsell; Twenty-third, Cyrus Durey, vice W. W. Worden; Twenty-sixth, J. F. O'Brien, vice W. C. Witherbee; Thirty-first, Charles Betts, vice Anson Wood; Thirty-third, J. B. Monkin, vice J. E. Fassett; Thirty-fourth, J. E. Merritt, vice T. E. Edsworth.

Colorado Labor Editor Kidnaped.

Pueblo, Col., April 12.—Sensational developments are expected in the attempted kidnaping and assault of Charles Demoli, the editor of an Italian paper, suppressed by order of Major Hill, commanding the militia in southern Colorado coal fields, where a strike is now on. It develops that Demoli was attacked by six men after they had tried to force him into a hack. Demoli asserts that he recognized two of the men as professional thugs. The police have secured evidence that the plot was directed by a man named Pagnin, formerly of Utah, and the six men have since disappeared. All surrounding cities have been notified to watch for the assassins, and minute descriptions have been furnished the police authorities.

Not a "cough syrup" or patent medicine with weakening stimulants, but a food medicine—the prescription of an eminent specialist. It is guaranteed to cure all throat and lung troubles.

MARX STILL MISSING.

Police Can't Find Farmer Suspected of Slaying Hired Man.

Colechester, Conn., April 12.—John Marx, the farmer for whom the local and county authorities have been searching since the body of Joseph Pavell, a farm hand, was found on his premises last Thursday, is still at large. In spite of the fact that an alarm has been sent through all the towns in this section, including the more isolated districts, Marx has succeeded in eluding his pursuers, though he is still thought to be somewhere hereabout. It is now known that in addition to clipping his flowing gray beard close to his face Marx has made a change of clothing since he disappeared.

According to Mrs. Marx, who is under surveillance at her home, her husband has had other wives, but how many she does not know. She said she had been married to him about seven years. They have four children, the youngest of whom is one year old. Mrs. Marx is about thirty-five years old. She told Coroner F. H. Brown that she knew nothing about the death of Pavell and supposed he had gone away to get employment elsewhere until she was told that his body had been found in a bag in a cellar on the farm.

The theory on which the coroner is working in his investigation is that the farm hand was killed while asleep with a blow of an ax. He is said to have slept usually on the floor of the bedroom occupied by Marx. The floor was covered with straw matting, which is now missing. It is supposed that the murderer, finding the body too heavy to carry from the house, cut it up as it lay on the matting and put the portions in a bag in the cellar. It is believed that the blood-soaked matting was afterward burned.

According to Joe Strang, the farm hand who found the body and who was acquainted with the murdered man, Marx agreed to pay Pavell \$50 for six months' service when he hired him last fall. Strang did not think Marx had paid Pavell any money up to the time of the latter's disappearance. Coroner Brown is understood to hold the theory that a demand made upon Marx for the money when Pavell desired to go away led to the murder.

LEUTWEIN ROUTS HEREROS.

German Victory Over Rebelious Tribesmen in Africa.

Berlin, April 12.—The foreign office has received the following dispatch from Colonel Leutwein, the governor of German Southwest Africa:

"With the united principal division (Duer) and western division (Estorf), I attacked the enemy's chief force, about 3,000 strong, at Ongandja (a short distance to the eastward of Okahandja). The Hereros were in a strong, semicircular position on a hill fronting the northwest. We first flanked and forced back the enemy's left wing and then attacked the center and right. Two energetic counter attacks of the enemy against our left were repulsed. The enemy's position was broken through at nightfall, after eight hours' fighting, and the enemy was driven back on all sides. The chief forces apparently retired in a northerly and westerly direction. Our losses include Lieutenants Von Estorf and Von Erffa and two cavalrymen killed, Lieutenant Rosenberg and five men severely wounded, and five men slightly wounded. The enemy's loss has not yet been ascertained, but was heavy, owing to the excellent effect of our artillery fire.

"Nothing new from Von Glasenapp's eastern division."

Mayor Fagan Enjoyed.

New York, April 12.—William H. Corbin, counsel for the Suburban Water company of Jersey City, has obtained an injunction in Elizabeth, N. J., from Chancellor Magle, restraining Mayor Mark M. Fagan of Jersey City from interfering with the pipe, etc., of the Suburban Water company until the case has been heard on argument. The injunction prohibits the mayor from taking any action until after April 19, the order being returnable before the chancellor on that date.
