TO RESCUE PORT ARTHUR.

Russian Force Operating on the Liaotung Peninsula.

St. Petersburg, June 8.—While it is undoubtedly true that a very active Russian force is operating on the Liaotung peninsula in the hope of impeding and possibly crippling the Japanese army commanded by General Oku the number and character of this force are shrouded in mystery. Figures are freely bandied about, but it is impossible to ascertain the exact facts. It is doubtful even if the general staff fully advised of General Kurapatkin's intentions.

According to accepted stories here Viceoy Alexeoff insisted that Kurapatkin should not have Port Arthur to its fate, and the advance of troops the strength of which is not known here, may be due to his pressure. But two things are certain—the strength of the main army at Liaoyang has not been appreciably weakened by the force sent south and the movement was not ordered by Emperor Nicholas. It is asserted by a member of the emperor's staff that the stories that the differences between Viceoy Alexeoff and General Kurapatkin on this subject were referred to the emperor, who in turn submitted them to the council of war, which agreed on the advisability of ordering an advance, are absolutely false.

The foreign office says it has not received a report from the Russian consul at Chifu in regard to the rumored sinking of a large Japanese warship off Taitsewan.

TALIENWAN BAY CLEAR.

Togo Reports That He Has Removed Mines From Channel.

Tokyo, June 8.—Admiral Togo has succeeded in clearing the channel leading into Talienwan. He began locating mines on June 3, and since then he has found and exploded forty-one. Yesterday a small steamer was able to safely enter the harbor. The work of locating other mines is now continuing, and it is expected that the vicinity will be speedily cleared of all such dangerous obstructions to navigation. Admiral Togo reports that a southerly gale and a high sea prevailed during his operations, but the men steadfastly continued at their work.

Supplementary reports from the blockading forces indicate that the Russian gunboat which was sunk by a torpedo off Port Arthur Saturday was of the Grenaschelt type instead of the Glibak class.

Admiral Kataoka, commander of the third squadron, recommissioned Sanshan

two and a half miles. The Chinese say that when the Russians abandoned Takushan they poisoned the water-sources. Admiral Kataoka is investigating the charge.

A detachment of the Japanese force which landed at Takushan surprised and routed a company of Cossacks at Kanchiatun on the Kinchan road, seven miles northwest of Takushan.

Ma's Troops Quiet.

Peking, June 8.—The Chinese officials emphatically deny that there is the slightest reason to doubt General Ma's ability to control his troops. General Ma has been strictly ordered to prevent any outbreak and none is like to occur. Viceoy Alexeoff's Manchurian proclamation charging the villages with the duty of protecting the railway under pain of extermination is creating a bad impression here. The government has protested unavailingly, and it is currently supposed that Russia desires to provoke an outbreak with the view of justifying Russian aggression.

Quiet at Vladivostok.

Vladivostok, June 8.—All is quiet here. It can be stated that Port Arthur is abundantly supplied with provisions and munitions of war. The bulk of the supplies now there was sent from here before communication was cut off. Vladivostok was not weakened by sending these supplies and there is plenty of everything remaining here except sugar. Kerosene also is scarce among the civilians, but the quantity on hand is adequate for the needs of the garrison. Trade with the interior is improving. A train of four cars laden with miscellaneous goods is dispatched daily. The railway is open.

Releasing Newspaper Men.

Mukden, June 8.—The authorities announce that the interpretation of journalistic criticism of things Russian written before the war or before the military recognition of the press is now waived and that all charges against correspondents detained here on account of such criticism or for other reasons have been removed, and the correspondents are being allowed to proceed south. Few of the newspaper men, however, are allowed to go forward at a time, though about fifteen will go to Liaoyang soon. This step is taken at the order of General Kurapatkin.

Cossacks Killing Korean Natives.

Seoul, June 8.—Reliable information has been received here from Pingyang to the effect that Cossacks between Anju and Kunchow are reported to be killing the Korean natives and looting their homes.

Japs Arrest Norwegian Steamer.

Nagasaki, June 8.—The Norwegian steamer Aaga, which arrived here Saturday from Cardiff with coal, has been arrested by the Japanese. The reason for the action taken are not stated.

SEVENTEEN MEN DEAD

Colorado Fears Still Further Bloodshed in Labor War.

THE VIGILANTES IN CONTROL

Sheriff of Teller County Forced to Resign and Mine Owner Put in His Place—Bloodhounds Trail Man Who Set Off Independence Bomb.

Cripple Creek, Colo., June 8.—Comparative peace prevails throughout this great gold camp, but conditions are still of a volcanic nature and nobody believes the trouble is yet ended. Fifteen deaths have resulted from the dynamite outrage at Independence and several of the injured are in a critical condition. Two men were killed and eight wounded in the subsequent rioting in Victor.

A thoroughly organized vigilante committee, composed of mine owners and their employees and sympathizers, has taken charge of the government of Teller county and large squads of armed men are patrolling the district. These men are ostensibly acting under orders of Edward Reil, the new sheriff, who is a large property owner and an outspoken opponent of the miners' union. Sheriff Henry M. Robertson has resigned under compulsion. He was forcibly taken to the headquarters of the Mine Owners' association and his resignation demanded. At first he refused to resign, but when finally a coil of rope was thrown at his feet he weakened and signed the resignation which had been provided for him.

The first act of Sheriff Bell was to take away the star of Under Sheriff J. Knox Burton. He then appointed twenty-five deputies, to which force large additions have since been made, and later he disbanded the union officers who had been appointed by City Marshal Michael O'Connell of Victor. Meantime O'Connell had visited the mine owners' headquarters, in which about thirty armed men were assembled, and demanded that they surrender their arms to him. He was forcibly ejected, and after being deposed from office by Mayor French he was placed under arrest. Many of the other regularly chosen peace officers of the various towns in the district have also been deposed and some of them locked up with about 200 union miners, who were arrested after the rioting in Victor.

Owners Declare War on Union.

The sentiment of the mine owners, as voiced by C. C. Hamlin, secretary of the association, is that all union miners must be driven out of the camp. His declaration that the time had come to "purge the district" started the rioting at the mass meeting in Victor, called to discuss the dynamite outrage at Independence.

"It's up to you to drive these scoundrels out," Hamlin had declared, whereupon Alf Miller, a union man who had been sworn in as deputy sheriff, raised his rifle and inquired, "Whom are you referring to?"

Miller's rifle was seized, and the shooting began which resulted in the killing of Roxie McGee, a nonunion miner, and the wounding of six other persons, one of whom, John Davis, also a nonunion miner, died a few hours later. The first shot was fired by some one in the crowd. This was followed immediately by two rifle shots from the windows of the miners' union hall. A man standing in the door of the union store, it is said, also fired into the crowd with a repeating shotgun.

Sheriff Bell called on the local company of the state guard, commanded by Captain Harry G. Moore, to assist in preserving order and in arresting the men in the union hall. Soldiers were stationed on the roof of the building opposite the hall and, from this point of vantage, fired into the door and windows of the hall. A scattering fire was kept up by both sides for twenty minutes, at the end of which the miners surrendered. Only three wounded men, Calderwood, Parker and McKelvey, were found in the hall and there were no casualties in the attacking party. The uninjured men in the hall, forty in number, were all placed under arrest and all books and documents of the union were seized.

Union Stores Wrecked.

Further arrests were made in Victor, Goldfield and Independence. The union stores in Victor and Goldfield were wrecked and the stocks scattered in the streets by a mob. This was not countenanced by Sheriff Bell and others in authority. Among those taken prisoner was Editor George Keyner of the Victor Record, but he was released.

A bloodhound brought from Trinidad took the trail of the man or men who exploded the dynamite at Independence by pulling a wire attached to a revolver or some other instrument and thereby killed at least thirteen men. The trail was followed by the hound from Bull hill to the Colorado springs wagon road. Detective Sterling of the Mine Owners' association then declared that he was convinced that he knew who caused the explosion.

A posse of 300 deputy sheriffs armed with rifles and revolvers is now scouring the hills of the Cripple Creek district with the object of rounding up every union man and every idler in the camp. They will be escorted to the county lines and warned never again to return to Teller county.

The union men are also well armed, and say they will resist any attempt at deportation. Many of them are desperate, and serious trouble may occur.

Turning Gray? Why not have the early, dark, rich color restored? It's easily done with Ayer's Hair Vigor. Ask your own friends. Probably they know how it always restores color.

CHINESE KILL AMERICAN.

Correspondent From Butler, Pa., Slain in Manchuria.

Newchwang, June 8.—A private telegram just received from Shanghai says that Lewis Etzel, correspondent of the London Daily Telegraph, and Ernest Brindle of the London Daily Mail were fired upon by Chinese soldiers while in a junk between Shwan-tai and Erliko. Etzel was killed, but Brindle is believed to be safe. They left here on June 3 to investigate the movements of some bandits. Etzel was a native of Butler, Pa., and his father resides now either at Denver, Colo., or San Diego, Cal.

United States Consul General Miles has left here by special train for the scene of the killing. The consul will make a personal investigation of the death of Mr. Etzel.

Etzel Left Butler Years Ago.

Butler, Pa., June 8.—Lewis Etzel, reported to have been killed by Chinese soldiers, is believed to have been a son of Gabriel Etzel, formerly a prosperous business man of this town. The family moved from here several years ago and, it is thought, settled in Colorado.

TRAGEDY IN ROSELLE, N. J.

Man Murders His Four Children and Kills Himself.

New York, June 8.—Joseph M. Pouch of Roselle, N. J., despondent over the death of his wife and the loss of employment, killed two of his children, girls, one aged seven years and the other eighteen months, by administering carbolic acid and choking them. A letter mailed by him to the county

Supposedly Dead Girl Revived.

Chicago, June 8.—A dispatch to the Tribune from Custer, S. D., says that after lying thirty-six hours in her coffin Mabel Forthing, the five-year-old daughter of C. M. Forthing, has been revived. The child was saved through the intervention of Dr. E. S. Norton, a relative, who was at the house to attend her funeral. Dr. Norton noted the rosy cheeks and unchanged appearance of the child and refused to permit the coffin to be closed. He called other physicians, and an effort was made to revive the child. At last signs of returning animation were noted. Half an hour later the stethoscope indicated a return of strong heart action. An hour later the child was sleeping in the arms of its mother.

Minnesota Building Dedicated.

St. Louis, June 8.—Governor Van Sant of Minnesota, his staff and more than 300 members of the Minnesota Editorial association assembled at the Minnesota building and formally dedicated the structure. Mrs. Minnie Sota Whitney of Marshall, Minn., unfurled the state flag. Preparations are being made for the reception of the famous old Liberty bell. Mayor Wells has issued a holiday proclamation and the whole city will welcome the historic American relic.

Our Russian Fellow Citizens.

Seattle, Wash., June 8.—Advises received from Valdez bring a copy of the following telegram sent by United States Judge James Weickersham from Fairbanks May 18: "Have just rendered opinion holding that all Russian half-breeds and settled tribes from the mouth of Copper river to the Aleutian islands are citizens of the United States under the treaty with Russia."
