In the window at E. A. Drown's drug store there is a load of coal and an interesting plan is connected with it. Every person after buying a bottle of "Drown's Warranted" cough medicine is entitled to one guess on the number of pieces of coal in the hod; also a free guess is given with every other purchase after first buying a bottle of cough cure. The person who guesses the nearest to the number of pieces of coal in the hod gets a ton of coal delivered at the house. It is certainly worth trying for.

**FOR P. O. APPOINTMENTS.**

Examinations to be held at Barre, Feb. 3 at 9 a. m.

In order to enable the Postmaster to make appointments in both the substitute clerk and substitute carrier grades in the Barre postoffice, the United States Civil Service Commission has ordered a special clerk-carrier examination for the office, to be held in the city building, on Friday, February 3rd, at 9 o'clock a. m.

The examination is a practical test of one's adaptability for postoffice work, in which no applicant with a good common school education should experience any difficulty in passing at a satisfactory average. A pamphlet containing sample questions will be furnished to each applicant with his application blank, which can be secured from Frank E. Robinson, at the postoffice, or from E. E. Stebbins, Secretary Board of Examiners, Room 141, Postoffice, Boston, Mass.

Applications should be on file with the secretary at Boston prior to 4 p. m., January 30, 1905.

The age limits are 18 to 45 years and male applicants must weigh not less than 125 pounds and measure not less than 5 feet, 4 inches, in their stocking feet. Such applicants as may successfully pass the examination will have their names entered on both the clerk and carrier registers and in the event of their appointment from either their names will be cancelled from both.

This examination is open only to citizens of the United States.

**SCIENCE SIFTINGS.**

Professor Perrine of Lick observatory has discovered a sixth satellite of Jupiter by means of observation with the Crossley reflector. It is certain the body is revolving around the planet.

Professor Ernest Rutherford says that science offers no escape from the conclusion of Kelvin and Helmholtz that the sun must ultimately grow cold and this earth must become a dead planet, moving through the intense cold of empty space.

For some time astronomers have tried to adapt the stereoscope to astronomy, says Cosmos. Paris, and very satisfactory relief photographs of the moon have been obtained by taking views at sufficiently long intervals and utilizing the slight swinging of the moon to and fro in space. The moon appears in exaggerated relief.

**IT IS SERIOUS.**

Some Barre People Fail To Realize This Seriousness.

The constant aching of a bad back, The weariness, the tired feeling, The pains and aches of kidney ills Are serious—if neglected. Dangerous urinary troubles follow. A Barre citizen shows you how to avoid them.

C. Milne (retired), address 35 Branch St., says: "When I first noticed a dull aching in the small of my back, about three years ago I did not pay much attention to it, although very often the twinges radiated to the shoulders. But by and by, when I noticed it every morning when getting up after an hour or so, and when in the evening I sat down to read a newspaper I found that the dull chronic aching kept up its aggravation, then I became anxious about my condition, for I knew there was some disturbed action of the kidneys. I was often so nervous from the irksome aching that I was compelled to get up and walk around the rooms so as to keep the miserable feeling under subjection. When suffering very acutely I happened to read about Doan's Kidney Pills and I was induced from the advertisement to go to E. A. Drown's drug store for a box. After a few days' treatment I noticed a decided improvement and a continuation of the use of the pills completely stopped the annoying attack. Since then I have not noticed any symptoms of a recurrence."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

**The Beer Canteen.**

The question of the canteen in the United States army is argued raised for consideration and the arguments pro and con are strong and numerous. Most of the officers of the army are in favor of the canteen, while the majority of the naval officers are opposed to it. The naval officers strongly argue the necessity of absolute sobriety on a battleship. Tons of explosives are confined in the vessel, fires burn with intense heat in the furnaces, electricity is generated in currents of sufficient strength to run 1,000 lamps and move turrets weighing hundreds of tons, while within this ship closely housed over this dormant hell are more than 700 human beings. Absolute sobriety on a battleship is necessary. NONE THE LESS IN THE ARMY.
