## Bostons Scored Five Runs in One Inning.

# PUTTMAN WAS EASY MEAT

New York Highlanders Defeated by the core of 9 to 4—Boston Nationals Lost to New York in a Close Game on Home Grounds.

New York, May 3.—The Bostons made enough scores in one inning yesterday to win the game from the Highlanders, hitting Putnam savagely in the second inning, and winning the game easily by the score of 9 to 4. Winter was in the box for Boston. New York got after him in the first inning and scored twice, although Winter was not entirely responsible. Dougherty singled and Collins, after fumbling Elberfeld's hot one, fired the ball over Grimshaw's head. Dougherty crossed the plate. Williams doubled and Elberfeld scored.

Boston's fun came in the next inning. Grimshaw pasted the ball to center for three bases. On Ferris' infield rap no one covered first base and there were two men on the socks. Criger struck out and Winter was given a pass after having two strikes called on him. Burkett struck out but Parent singled to center, scoring Grimshaw and Ferris. Stahl walked, and Collins slammed out a two-bagger. Winter, Parent and Stahl crossed the plate. And there were runs enough for the game right there.

### VERMONT BEAT HOLY CROSS.

#### Long Drawn Out But Interesting Game at Burlington Yesterday.

Burlington, May 2.—The University of Vermont won its fifth consecutive victory at Athletic Park yesterday afternoon, defeating the strong Holy Cross College team by the score of 9 to 8. The game was long drawn out, and although at times loosely played was nevertheless interesting. Ruelbach pitched for Vermont and Spring for Holy Cross.

### THAYER IS A COMER.

#### Barre Boy Pitching Great Ball for Troy, N. Y. Team.

Perley Thayer of this city is making a reputation as a pitcher on the Troy, N. Y. team in the New York state league. On Sunday Thayer pitched against the Yonkers team of the Hudson River league and allowed but two hits. His team won 20 to 0. He also pitched recently against the Montreal team in the Eastern league. Montreal got but four hits off him. Troy won 7 to 1. Thayer seems "to have the goods." Out of seven pitchers being tried out by Troy he and Riley are the only ones who have captured a game.

### Base Ball Notes.

The Evening Journal of Wilmington, Delaware, contains some flattering notices of the work that Joseph Crapo of Montpelier is doing at second base for the league ball nine of that city. One of these items tells of a red hot liner that "Joe" stopped with his left hand while another note reads as follows: "Crapo is doing splendid work, both in the field and at the bat and he is a good runner."

Spaulding and Montpelier high schools are playing on the Goddard campus this afternoon.

### GERMANS EAT HORSES.

#### Importation of Meats to That Country Still Declining.

Washington, D. C., May 3.—United States Consul-General Frank H. Mason, at Berlin, reports to the state department a continued decline in the importation of meats into Germany, especially from the United States. This he attributes to the influence of the rigid and exacting meat inspection law which went into effect a year ago.

Incidentally, Mr. Mason reports a most remarkable increase in the consumption of horse flesh throughout the German empire.

### ROENTGEN'S GREAT MODESTY.

#### Discoverer of Famous Light Too Shy to Attend X-Ray Congress.

Berlin, May 3.—Prof. Roentgen is too modest and shy to attend the international congress called to observe the tenth anniversary of his discovery of the Roentgen rays and to collate the latest applications and development.

The congress opened here on April 29, and the professor promised to be present. But, despite his promise, and although his name was on the programme, he declared he simply could not attend the sessions, as it would be impossible for him to face the crowd which had gathered to glorify his work. Consequently the professor telegraphed his acknowledgements from Wuerzburg, Bavaria.

# JAPAN COMPLAINS TO FRANCE AGAIN

### Says Russian Fleet Is Supplied in French Ports—Asks Authorities to Act.

Paris, May 3.—The secretary of the Japanese legation, Kentaro Otschiai, called upon Foreign Minister Delcasse Monday with reference to the question of French neutrality. He asked whether the administrative organization of Indo-China permitted of adequate surveillance of the coasts, with a view to preventing contraband traffic. He added that the Japanese government had received definite information that in certain French ports provisions were still being embarked for the Russian squadrons. He requested M. Delcasse to do all he could to obtain information with regard to the matter.

Tokio, May 2.—It is believed here that Admiral Rojstvensky continues to use the ports of Indo-China for the purpose of obtaining coal and other supplies and for maintaining communications.

The press is again questioning the good faith of France's recent assurances. The government is silent, but it is believed it is preparing to reopen the question of neutrality with France.

### MEAT HIGH IN GERMANY.

#### Prices Have Gone Up 35 Per Cent Since February.

Berlin, May 3.—The prices of meat have risen since February from 15 to 35 per cent, owing largely to the drought of 1904, causing a shortage of hogs, this resulting in a rise in other meats. The anti-agricultural are demanding that the government admit food animals. The importation of worn-out horses from abroad for food purposes has increased, as is usual when meat rises. Horses are not within the exclusion paragraphs.

### Postoffice Robbed.

Lexington, Mass., May 3.—The post-office and grocery store of Lucius A. Austin at East Lexington was entered yesterday morning and the safe was blown open, wrecking the store. The government postoffice receipts, stamps and Austin's private accounts were cleaned out, but the total amount stolen cannot be ascertained.

# STRIKES ENJOINED.

## Sweeping Order by United States Court

# IN CHICAGO TROUBLES.

### Two Men Shot Down in Street Riot Yesterday—Injunction Order Under Interstate Commerce Law.

Chicago, May 3.—Federal Judge C. C. Kohlsaat yesterday afternoon, on application of counsel for the seven express companies, issued a sweeping injunction against the striking teamsters or affiliated organizations. The labor advocates are prohibited from interfering with the transaction of business of the companies on the ground of violation of interstate commerce act. The prohibition in detail is fully as comprehensive as the previous injunction in the matter of the Employers' Teaming Company.

Two men were shot down in the streets and six others injured in the course of three riots that marked the employers' effort to break the teamsters' strike yesterday.

George Schultz, shot by F. E. Carter, independent guard, may die; unidentified man, colored, independent team shot through the abdomen by strike sympathizer, may die; William Rather, white, in command of fifteen colored men, beaten by mob, may die; William Davis, James Butler, David Lewis, Andrew Scott, William Ringer, colored, badly beaten by the mob, taken to hospital; Sergeant Duffy, hit by brick.

There have been numerous clashes between mobs who sympathized with the strikers and the crowds of imported men brought here to break the strike and hundreds of bricks, stones and sticks had been thrown, but until a guard of colored men, conveying three wagons, reached Wabash avenue and Harrison street, there had been no shooting. At this intersection a large crowd gathered about the wagons menacing the negro guards and private detectives. The throng, hurling epithets at the wagons, men and convey, soon began throwing missiles of bottles, bricks and rocks. Several of the colored men were injured, blood flowing from wounds in the faces of two. Suddenly F. E. Carter, a negro guard, drew a pistol and began shooting one of the bullets striking George Schultz, one of the distributors, inflicting a severe wound in the left side.

Then the rioters turned loose the fury of their wrath, and despite the free shooting on the part of the negroes the members of the mobs clambered upon the wagons, and by the time police arrived in response to the riot call, had beaten several non-union men severely.

The second riot involving shooting took place at West Jackson boulevard and Halsted streets. Here seven negroes who were riding in a wagon were attacked by a crowd that did not hesitate to shoot. Many bullets were discharged from revolvers and pistols, the negroes joining in the firing. As a result, one of the colored men was shot, his companions leaving him senseless and lying on the pavement.

Other outbreaks took place in which several colored men were severely out and bruised by blows from bricks and clubs.

Many of the wagons of the express companies now bear huge hand-painted placards reading:

"United States Government business." This, they figure, gives them the moral support of Uncle Sam, in addition to the regular protection, consisting of police, private guards and "sawed off shot guns."

Instructions to "shoot to kill" were given yesterday to strike breakers, who are here to break the teamsters' strike, according to reports that were in circulation around the non-union headquarters yesterday.

The reports were to the effect that the strike breakers' captains gave instructions to their men to "go the limit" in defending themselves from any attacks.

If subject to headache, take Dr. Miles' Anti-Pain Pills when you feel the first indication of an attack, and you will find that they rarely ever fail to stop further progress.

Pain weakens the nerves, and the longer you suffer, the more frequent will be the attacks.

"Dr. Miles' Anti-Pain Pills are all right, and I can recommend them to any one in need of a remedy for headache, neuralgia, or pain of any kind. My health is not very good, and I am subject to frequent attacks of severe headache, but since I began taking Dr. Miles' Anti-Pain Pills I do not suffer from that trouble as I used to. ### SEEKING A WATER SUPPLY.

#### Hardwick Village Is Now Wrestling With a Problem.

Hardwick, May 3.—This village is after a water supply. At a meeting on Monday night it was reported that the water of the Goodrich, Collier and Sheed springs, together with that of the Foss brook brought into a new reservoir located above the old one, yielding 87 gallons a minute, would cost \$10,500 which includes no land damage. A supply from long pond, through the Chase pond would cost \$45,000, with a ten inch pipe.

Buck lake, which is 518 feet above the water tub in postoffice square, it is estimated would supply 4,000 people with 70 gallons per capita, would cost \$28,300 and to add the Chase pond to this would cost \$32,350. To erect a pumping station would cost for machinery \$2,086 and reservoir would cost \$3,900. To get supply from the Porter brook, which springs, together with the Foss brook before mentioned and several other large springs empty into it, including the reservoir will cost \$20,823. To get a supply from Lake Caspian, in Greensboro, would cost \$15,000. This would empty into the Porter brook.

# ASKED TO RESIGN.

## Report as to President J. W. Alexander.

# ORDER INCLUDES TARBELL

### Effort to Get Hyde to Retire Promised—Crisis Seems to Be Reached in the Equitable Affair.

New York, May 3.—The Evening World says that the Frick investigating committee summoned James W. Alexander before it today and asked him to resign his place as president of the Equitable Life Assurance society. According to the Evening World, Mr. Frick said that although he could not promise it for a certainty, he would try to get Mr. Hyde to retire tomorrow temporarily anyway if Mr. Alexander would resign.

The World says: "Mr. Frick did not criticize Mr. Alexander's administration of the office he has held so long, but said it must be obvious that his period of usefulness was over and nothing but his retirement would accomplish what the committee is striving for, the end of the entire controversy."

"Mr. Alexander was also asked to use his influence with Second Vice President Gage E. Tarbell to get him to resign too. Mr. Alexander was very much affected, but declined to resign them. He told the committee he would think the matter over."

The Evening World also announces that Mr. Hyde is about to bring suit for the removal of Mr. Alexander from his position as one of the trustees of the Hyde holdings of stock in the Equitable.

### BITTER BOWEN-LOOMIS FIGHT.

#### Exciting Time Expected When Minister Reaches Washington.

Washington, May 3.—A fight of great bitterness is looked for when Herbert W. Bowen arrives here from Caracas and is required to substantiate his charges against Assistant Secretary of State Loomis.

The great question here is whether Bowen will be able to adduce proofs. His friends believe he will, and point to his prompt sailing from Venezuela as evidence that he has material at hand to back up his statements. He will reach here May 9 or 10. President Roosevelt will return the morning of May 12.

Bowen's political backing has always been the New York Independent, the religious publication. His brusque methods made him many enemies among the European diplomatic circles in Venezuela, as well as among South American politicians.

He has never fully recovered from this operation.

### STORM STOPS PRESIDENT.

#### Hunting Impossible for His Party—Cannot Move Camp.

Glenwood Springs, Col., May 3.—A storm raged all night at Camp Roosevelt, and the weather was threatening yesterday. The muddy roads made a hunt impossible, delayed the moving of the camp back to East Divide Creek, and delayed Secretary Leob's departure for Glenwood Springs.

The hunt Monday was unsuccessful. The president and his party were in the saddle from 8 o'clock in the morning until 4:30 in the afternoon without even seeing a bear.
