

BAD INNING FOR BOSTON

Tailenders in National League Defeated Them Yesterday.

VIC. WILLIS AGAIN IN BOX

Leaders in National League Downed by the 'irates—Rain Again Prevented Boston Americans from Getting into Game.

Boston, May 19.—The Boston Nationals were again defeated with Willis in the box yesterday afternoon, the score being five to two. Willis pitched a good game with the exception of the fourth inning, when aided by two errors by Wolverton, St. Louis crossed the plate four times. Boston was weak at the bat, getting but five scattered hits.

The visitors scored in the first inning when Tenney fumbled Dunlevy's grounder and went to third on Smoot's hit by first base. Beckley then hit Tenney and Dunlevy came in on the out. The remainder of their runs came in the fourth. Beckley doubled to the left field fence, and Arndt got a free pass. On Shay's rap to the pitcher Willis tried to get Beckley at third and all were safe, as Wolverton dropped the throw. Then Wolverton fumbled Burke's ground hit and Beckley scored. Arndt went in on Warner's out, Raymer to Tenney. Pitcher Thielman made a safe swing and two more tallied.

Boston waited until the last inning and then scored twice. Cannell got hit and Tenney got a free pass. Batty singled and Cannell went in on Wolverton's out. On Barclay's out to Dunlevy, Tenney scored. Sharpe then worked in a single but to no good.

Norwich 9, Potsdam Normal 1.

Northfield, May 19.—Yesterday afternoon on the parade Norwich University won easily from Potsdam Normal by a score of 9 to 1. The game was slowly played from the start, due to rain. Oram had the visitors completely at his mercy in the seven innings that he pitched. In the first inning Potsdam had three men on bases, but the next three men failed to connect with the ball. The only feature of the game was a home run by Brown, which brought in two men.

BASE BALL NOTES.

The Spaulding high school boys are to play Randolph high at Randolph this afternoon and Bethel high tomorrow.

Bob Dunbar, the sporting writer for the Boston Journal, has a good word to say for Ruelbach, Chicago's new man in the pitcher's box.

The strong University of Vermont team will be at Intercity park tomorrow afternoon in the game with Norwich University, and the lovers of the game will see some ball playing. The Vermonters go on a trip next week, playing Yale, Holy Cross, Andover and Brown.

The second team of the St. Albans high school considers that it has ample grounds to claim the right to finish the baseball schedule of the high school. The second team has defeated the first team which seems unable to beat an egg, let alone a baseball team, and the members of the second team think they could do better than the first team has done so far, at least.

To Bare American Goods—Chinese Markets to Be Closed, He Says, Until Some Concession Is Forthcoming.

Washington, May 19.—The Chinese minister says that his country means business in its reported purpose to boycott American goods, unless we conform to our treaty obligations. Since the agreement of 1904 has lapsed all exclusion of Chinese citizens, and the deportation from the United States, is contrary to the old treaties, which come into force. The minister says his government will prepare to claim an indemnity for damages suffered. The negotiations of a treaty which can be ratified by the Senate, will prove a highly difficult matter. The minister does not hesitate to express his mind freely. This will be a "hard nut" for the administration to crack.

TART TO GO DEEP.

Will Call Witnesses in the Bowen-Loomis Scandal.

Washington, May 19.—Contrary to expectations, witnesses are to be called in the Bowen-Loomis case. It had been thought that all of the evidence could be set forth in writing in a satisfactory manner, but developments of the past few days have made it necessary for Secretary Taft to send for several men who are interested and who are familiar with the case.

Just who these witnesses will be has not been made public. There are several men now in Washington who may be called, including Senor Pastor, for some time the Caracas agent for the New York and Bermudez Asphalt company; Rudolph Dolge, United States consular agent at Caracas, and A. F. Jauret, at one time editor of the Venezuelan Herald. Jauret was banished by President Castro and he now has a claim of \$25,000 against the Venezuelan government. Mr. Dolge and Senor Pastor have already presented some testimony in the case.

It is quite possible that the witnesses who are to be called to Washington will come for the purpose of showing that Mr. Bowen made the charges against Mr. Loomis public.

WHAT TO DO FOR AN UNHEALTHY COMPLEXION.

There is Only One Way to Get a Good, Healthy Complexion. You Can Have Red Cheeks, Rosy Lips and Bright Eyes All Your Life Without Using Poisonous Lotions, Washes or Powders.

It has come to be a habit with many women to make use of powders, cosmetics and other beautifiers, to cover up defects and to conceal the fact that their skin is rough, mottled or pimply. It is foolishness, however, to attempt to correct a bad complexion by the use of beautifiers. There is only one way to secure a lasting result and that is to remove the cause. If you have an unhealthy complexion you may depend upon it that your blood is also unhealthy. It must be purified and enriched and this can only be accomplished by keeping the liver active and establishing regularity of the bowels. Smith's Pineapple and Butternut Pills act directly on the liver, regulate the bowels, cleanse and enrich the blood, and in this way purify the complexion. Never use cosmetics, many of which are poisonous, containing lead, arsenic and other mineral poisons, and all of which eventually are sure to make a bad complexion even worse, but use a remedy which is known to cure all stomach and bowel troubles, cleanse the blood of all impurities and regulate and strengthen the functions of digestion and assimilation. If you would have red cheeks, rosy lips and bright clear eyes, keep your bowels regular by the use of Smith's Pineapple and Butternut Pills. Their daily use will establish conditions of perfect health. Remember these little pills are purely vegetable, and not only quickly restore the complexion, but are a positive cure for sick headache, constipation and biliousness in one night. PRESIDENT UPHOLDS TAFT

Believes He is Right on Canal Purchases.

A BLOW TO COMBINATIONS

Believes Act will Cause Tariff Revision—Extension of Plan to Serve as Object Lesson.

Washington, May 19.—President Roosevelt insists on the "most favored nation clause" for the United States, and the manufacturers of the country will have to accord that treatment to the Government in so far as purchases made from the Panama Canal are concerned—at least until Congress can pass a law compelling the Commission to pay domestic prices for supplies. The vehement and numerous protests of disappointed manufacturers and indignant "stand-patters"—even those within the cabinet—are not having the slightest effect on the President, unless, possibly, it be to satisfy him that the policy on which he and Secretary Taft have determined is so stirring up the tariff question as to insure extended consideration of the recommendations for readjustment which he purposes to embody in his message to Congress next fall.

Several members of the cabinet have gone to the President and begged him to "call Taft off," but he refuses. Secretary Shaw, Wilson and Metcalf deplore the decision of the President and the Secretary of War. Every other member of the cabinet who is in Washington approves the stand taken by the President. The President is determined to carry the war into the stronghold of the trusts and compel the apostles of high prices to come to a realization of their obligations to "the folks at home." He is convinced that the people will understand that this policy is merely another step in the progress of his campaign against combinations which have hoisted prices of domestic goods far above the point warranted by the wages they pay to American workmen and who are now bringing every possible influence to bear to defeat the readjustment of the tariff schedules which the President regards as essential to a square deal to all American citizens.

Moreover, the President believes that this decision will serve to call the attention of the great mass of the people to the absolute necessity of that readjustment of the tariff schedules for which he contends.

"The President is resolved to bring the trust magnates to a realization of their debt to the people of this country," said a close friend of the President, in commenting on the situation, "and will accomplish that result even at the risk of bringing a storm about his ears. He wishes to make Congress act on the tariff question, and the sooner they take action the better he will like it. There will be very few supplies, relatively speaking purchased by the Canal Commission between now and the time Congress meets. The President hopes, however, that enough will be bought to serve as an object lesson to the country on the subject in hand. For instance, he believes it is little short of criminal for the big manufacturers to charge the home consumers a third more or double the price for goods that is charged the people of Europe. The high protection gentlemen will probably will cry out loudly over what they will term an 'outrage perpetrated on the American workmen,' but the people at large will understand who is perpetrating that outrage. It is the man who is selling the produce of their labor for twice what it is worth here at home and still making good profits on the sales abroad. The President expects to receive calls from a great many protesting magnates of the party before this thing is settled, but you may accept it as a straight tip that he will not recede one inch from his stand."

Washington, May 19.—Speaker Cannon arrived in Washington Wednesday. In connection with the decision of the Panama canal commission to purchase ships and materials abroad, Mr. Cannon said: "My recollection is that the act of 1902 authorizes the president to construct the Panama canal and to acquire and operate the Panama railway, and it especially authorizes him to enter into the necessary contracts to accomplish the work, and the authority of the president in the premises is plenary. I am under the impression that the labor in the construction of the canal will probably come from the tropics—the West Indies, Central and South America—on account of the climate of the Isthmus. So far as the purchase of materials for the construction is concerned, we have here in the United States the greatest market in the world, making one-third of the whole manufactured product of the civilized world. I take it for granted that all the supplies needed should be, and will be, the product of our own labor wherever practicable."

Weak Stomach.

A weak stomach is most frequently caused by the overworked and exhausted nervous system.

The power that runs the stomach is the nerve force sent to it from the brain through the nerves. When the nerves are weak or exhausted the supply of energy is insufficient and the action of the stomach is impaired, and results in imperfect digestion—dyspepsia.

Dr. Miles' Restorative Nervine increases nerve force. It strengthens and builds up nerve tissue, gives vigor to the nerves and muscles of the stomach; this produces a healthy activity.

Nervine allays the inflammation, heals the membranes, and makes the stomach strong and healthy. There is nothing that so quickly gives energy to the whole system as Restorative Nervine.

"I can't say enough for Dr. Miles' Nervine. I don't know what it will do for others, but it certainly cured me of stomach trouble, and now I am as well as I ever was. Two physicians failed to relieve me, but in three or four days after taking Nervine I was much relieved. Four bottles made me a sound man, at the cost of \$4.90."

JAMES E. HART, Detroit, Mich.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.
