Subscriptions: One Year, \$5; One Month, 25 cts; Single Copy, 1 cent.

Entered at the Postoffice at Barre as Second Class Matter.

MONDAY, SEPTEMBER 11, 1905.

The average daily circulation of the Barre Daily Times for the week ending Saturday was

3,665

copies, the largest paid circulation of any daily paper in this section.

A scientist declares that 39 people out of 78 carry pneumonia germs in their mouths. Spit them out.

The pernicious effect of dime novel reading was illustrated in the suicide of a Nashua, N. H., youth, whose mind was poisoned by the drivel which is to be found between the covers of these yellows. There's opportunity for missionary work.

Marquis Ito, whose statue was torn down and dragged through the streets of Tokio by an enraged mob, may rest assured that when Japan returns to its senses the damage will be repaired and the indignity wiped out as much as possible. That country is just now passing through a ferment, but the cool, collected thinking will be resumed.

The base ball management is somewhat startled at the size of the band's bill for playing at the serenade to the base ball boys on their return home the last week of the season. The bill is \$40, but one of the directors said today it would be paid without any jockeying.—Montpelier news item.

In other words it comes high to pay the fiddler.

It's interesting to learn that a little miss in New York, who is heiress to millions, is to begin a course in the public schools. But what are the public school for, if not to educate the rich as well as those who are not so rich? The public school system is one of the most treasured features of our democratic life, and it is late in the day for Mrs. Clarence H. Mackay of New York to be learning that fact. Mrs. Mackay's election to an important position in the management of the schools in her home town opened her eyes to expediency, at any rate.

THE CONTRACT HOLDS.

Government Will Take 72 Monotype Machines.

Oyster Bay, Sept. 11.—President Roosevelt yesterday made public the report of the Keop commission on its recent investigation of affairs in the government printing office at Washington. The inquiry was made by special direction of the president on account of a protest which he had received from officials of the Mergenthaler Typesetting Machine company against the award of a contract by Public Printer Frank W. Palmer to the Lanston Monotype company for 72 machines of its make.

By order of the president the contract with the Lanston company was held up until an investigation could be made with a view of ascertaining whether the charges of favoritism and corruption in the letting of the contract were substantially founded.

The president decided after examining the report, that the contract for the Lanston machines should stand.

Good Cooking Makes Happier Homes.

COMPLETE DEVASTATION.

Is the Scene of the Powder Plant Explosion.

Connellsville, Pa., Sept. 11.—The scene of complete devastation in the vicinity of the site of the Rand powder works, which were destroyed by an explosion Saturday beggars description. Men were at work work ploughing over and digging in the debris, finding more bodies but only an arm, shoulder, foot or portion of charred bone could be found now and then and it is likely that the bodies of the five missing will never be identified.

A revised list of the identified dead follows:

- Clyde Wood, stenographer. Geo. Levellyn. Chas. Bartlett. Albert Woods. Fred Waterstraw, Jr. Harry Underwood. Homer Humphrey. Geo. Martin. Elmer Hughes. Wm. Levellyn. James Breakiron. Gilbert Mitchell, killed while carrying father's dinner to the works.

A child of Isaac Matthews of Leith was run over by a wagon on its way to the scene of the explosion and killed.

The missing are: Frank Ryelan, Chas. Ellifritz, Fred Waterstraw, Sr., Isaac Medcraft, Homer Swaney.

Of the injured, C. M. Rand, manager of the plant, is much better, though still confined to his room.

Some of the employees of the company believe that the explosion was planned. A man living on the mountain side chanced to be looking in the direction of the plant and saw the first explosion. He says:

"More quickly than I can tell you the other mills went off one after the other and I am sure there was not a minute between the first explosion and the last one, showing plainly that fire from one could not have been communicated with the others as they were from 500 to 1,500 feet apart."

One of the night employees who was at his home on the side of the mountain and could look down on the mills says the fire started in the southeast corner of the plant in the finishing mill and he thinks it was caused by friction of the machinery.

GETS A NEW BERTH.

Frank Dillingham to Be Consul to Aix la Chapelle.

It was announced at the state department at Washington Saturday that J. Martin Miller, appointed United States consul to Aix la Chapelle, but refused an exequatur by the German government, has been appointed consul-general to Auckland, New Zealand, and Consul-General Frank Dillingham, at Auckland, had been given the Aix la Chapelle post.

The refusal of the German government to receive Mr. Miller, is said to be due to certain statements made by him to which the German authorities took exception.

Consul-General Dillingham is a brother of United States Senator William P. Dillingham, of Montpelier. Although the salary of the two posts is the same, \$2,500 annually, the fees are much better at Aix la Chapelle, where they amounted to \$4,743 last year, while at New Zealand, for the same period, they amounted to \$1,206.

IT IS WELCOME NEWS.

Russian Soldiers Cheered Roosevelt and Are Glad to See Peace.

Gunshu Pass, Manchuria, Sept. 11.—Since news was received from the peace negotiators at Portsmouth, a survey of all the Russian positions from Mongolia to headquarters has been made. The object in part was to ascertain the extent to which the efforts making for peace were viewed by the army. The negotiations received no official recognition in the field prior to their successful conclusion, the army keeping in a state of preparedness for a battle until the receipt by General Linevitch of the telegram from Emperor Nicholas declaring that the treaty had been signed and that his majesty accepted the conditions arrived at. This telegram was officially published in the army newspaper on Sept. 6, and the outlines of the peace conditions were printed in the same publication yesterday.

The result of these notifications was to bring to the officers a heavy sense of military desecration, while the soldiers in many places with the consent and through the generosity of the officers, engaged in feasting and other forms of celebration. It may be said that to the great majority of the officers and men so far informed, the news that the war is at an end is most welcome.

Thousands are daily drinking to the health of President Roosevelt. Everywhere the soldiers expressed their joy by singing late into the night, at intervals cheering for President Roosevelt. With the exception of the loss of a

MERCHANT & FRASER, Telephone 131-11 6 Elm Street, Barre, Vt.

THE BIRTH OF THE GENUINE ROUND OAK thirty four years ago marked the change in heating stoves from crudity to perfection. No other stove will burn all kinds of fuel with economy, success and satisfaction to the user. In using coal, for instance, it has a double fire pot with cone-center grate, which prevents the formation of clinkers and gives the hottest fire around the outside of fire pot, instead of in the center. It has a hot blast, used for soft coal only. The air is taken in at the feed door, carried around the top of the fire pot and discharged on top of fire through a series of openings. This burns the soot and gases, and makes the smoke white, thus a steady, even fire can be maintained with the hot blast alone, burning coal from the top downward. Then, for hard coal, with or without magazine, and coke or wood, it is equally successful. You simply cannot afford to pass the ROUND OAK by, if you need a heating stove. Always look for the name "ROUND OAK" on the leg. There are hundreds of imitations. C. W. AVERILL & Co., 61 North Main St., - Barre, Vermont.
