REYNOLDS & SON, BARRE

STUBBORN MURDERERS.

Excited Attorneys Barely Save Two Chicago Clients from the Gallows.

Chicago, Sept. 15.—Two Chicago murderers escaped final sentence to the gallows Wednesday by a margin of a minute after one of them had declared again and again that he preferred hanging to life imprisonment. The other had persistently averred his innocence and refused to make the plea of guilty that was necessary for the change of sentence to imprisonment for life.

Two excited lawyers worked with the two men and won from them confession just as Judge Barnes in the criminal court was starting to speak the words setting the date of execution. John Lorens and John Nadolski were the prisoners. They already had been convicted of killing Fritz Krueger on March 18, 1905, in a saloon.

Fifteen New Cases Yellow Fever.

New Orleans, La., Sept. 15.—The following is the official noon yellow fever report:

New cases in New Orleans since 6 p. m., Wednesday 15; total cases to date, 2428; deaths yesterday, 3; total deaths, 326.

LOGGE FAVORS SUBSIDY.

As Best Method of Reviving New England Shipping.

Peabody, Mass., Sept. 14.—A speech by Senator Henry Cabot Lodge strongly advocating subsidies as the best method of reviving New England shipping, and opening new markets of trade, was the feature of a dinner held by the Essex club here yesterday. Referring to the shipping bill he said:

"All industries have been protected except the ship owner. While he has been allowed to import his materials free, he has been given only the coastwise trade, and has been left to compete with highly protected foreign merchant marine."

ENDS RIOTOUS LIFE.

Young Boston Man Commits Suicide In San Francisco.

San Francisco, Sept. 15.—Arthur Ralston, recently a young business man of Boston, has ended a month of riotous living in this city by committing suicide at Delmonico's, on O'Farrell street. Ralston, who belonged to an old Bay State family, was found in one of the rooms and died in a cab after being removed from the hotel. In his clothes was found a note addressed to M. B. Scarth, his friend and companion, which said in part:

"There is nothing left for me but to pass out. Good-by. I am glad we have been such bully good friends. My money is gone, my reputation is gone—there is no bright outlook anywhere. Take care of my body for old time's sake. Don't let them put me in the morgue, where the crowd can come and look at me and laugh."

In the last thirty days, since coming to San Francisco, friends of Ralston here say he had spent \$4,000.

MUST PAY A TAX.

Liquor Patent Medicines to Come Under Rectifying.

Washington, D. C., Sept. 15.—The commissioner of internal revenue yesterday rendered a decision that will seriously affect a number of patent medicines composed largely of distilled liquors.

He has reversed a ruling of his department made many years ago, and now decides that the manufacturers of these medicines must take out licenses as rectifiers and liquor dealers and that druggists and others handling them will have to pay the usual retail liquor dealers' license.

He authorizes collectors to impose the special tax upon manufacturers of every compound composed of distilled spirits, even though drugs are declared to have been added thereto, "when their presence is not discoverable by chemical analysis of it is found that the quantity of drugs in the preparation is so small as to have no appreciable effect upon the liquor."

DOCTORS ON WATCH.

Fear Mrs. Morrill, Shot in Greenwich, May Develop Blood Poison.

Greenwich, Conn., Sept. 15.—The condition of Mrs. Antoinette Morrill, daughter of E. H. Converse, was unchanged yesterday. She is not dying, as has been persistently reported, but her condition is very serious, and two physicians and surgeons are watching her closely. Blood poisoning may develop at any time.

No operation has yet been performed. The kidnapping theory of the attack on her is exploded. Burglary was the sole purpose of the man's entering the house. Three detectives are now on the case. They are looking for a second man, a companion of Brown, who is locked up. Miss Tierney, Brown's sweetheart, says she will give up her position and devote her time to procuring evidence which will acquit him.

WIFE SHOTS HIM.

Enraged Because Husband Did Not Pay Weekly Allowance.

New York, Sept. 15.—Enraged because he would not pay her \$4 weekly for her support, to which he had agreed in a police court, Mrs. Elizabeth Wilson shot and probably fatally wounded her husband, Edward Wilson, a compositor, in Centre street, yesterday. The bullet entered Wilson's left side.

Mrs. Wilson made no attempt to escape, and admitted the shooting. After she was arrested she told the police that Wilson wanted her to continue to work as a stenographer after their marriage and that he finally left her. She then caused his arrest on a charge of non-support, and a police court magistrate compelled him to agree to pay her \$4 a week.

WILLIAMSTOWN.

Bear in mind the entertainment for Tuesday evening by Prof. Blanchard.

Mr. Sawyer, inspector of rural routes has been here several days, looking up the routes.

John Jackson is improving his house greatly inside and out, plastering, painting and putting in new windows, etc.

There will be a special Rebekah meeting next Saturday evening, Sept. 16. All members are requested to be present as there is very important business.

Mrs. Hovey of East Brookfield was in town yesterday on her way home from Barre, where she has been spending a few days, the guest of Mrs. Lauretta Goodrich.

The local order of the N. E. O. P. will hold a social in the Odd Fellows' hall, Monday evening, Sept. 18. The programme will include speaking by noted members of the order from other states, and it is hoped to provide a pleasant evening's entertainment. The adult public are cordially invited to be present. No admission fee will be charged.

WARSHIP TO BACK DEMAND

Minister Will Inquire into Nicaragua's Treatment of Albers

A DEPARTMENT SECRET.

Officers of Department of State Charged Over the Publicity of Matter and Refuse to Give Further Information Whatsoever.

Washington, Sept. 15.—Officers of the State and the Navy departments yesterday refused to discuss the plan to send a warship to Nicaragua, as published in despatches, yesterday, but at the same time they are much aroused because the facts of the matter became public, and an earnest inquiry has been set on foot in the two departments to discover who let the matter out.

Inquiries concerning the vessel that will be sent to take Minister Merry from Costa Rica to Nicaragua are met with flat refusals on the part of all officers to discuss the matter. It is not believed that the orders came from Washington direct from Oyster Bay to take definite action in the case of the Albers brothers, who are imprisoned in a Nicaraguan jail.

The matter has been regarded as one necessitating the greatest of secrecy, and government officers do not propose to allow any further details to become public. It is thought that Minister Merry when he reaches Nicaragua will, under instructions from the department here, make some strong demands of Nicaragua for the relief of the Albers brothers.

There is nothing to indicate what vessel will be turned over to Minister Merry, but it is believed that the gunboat Princeton, now at Panama, will be sent on the mission.

ARMED HIS MEN.

Albers Would Not Pay Any Tax Upon His Tobacco.

Washington, D. C., Sept. 15.—The minister of Nicaragua, Sen. L. F. Corea, has received copies of the proceedings in the case of William S. Albers, arrested in March, of this year and whose trial began before the district court in Ocotlan, Nicaragua, April 7. He also has received full information regarding the question of the withdrawal of the exequatur of American Consul Donaldson at Managua, which occurred Aug. 11 last, after the consul had been charged with writing a far from flattering letter to President Zelaya of the Nicaraguan republic. Minister Corea said:

"Albers has resided in Nicaragua for some time, and has been engaged in trade and among other things in the raising of tobacco. The tobacco industry in Nicaragua is in the hands of a syndicate, which pays every year a certain sum to the government, and has the right to ask that all the private growers of tobacco shall pay a certain tax in return for the privilege of keeping their tobacco in their storehouses and selling it as they may wish. In case any one refuses to pay this tax, his tobacco is sold publicly, the tax is kept out of that amount, and the rest of the money is returned to the owner. The copy of the legal documents state that Albers did have tobacco in his possession, but refused to pay his tax and comply with the law."

"For this reason, about the beginning of March, the authorities of Jalapa were instructed to demand the tobacco from Albers, who stated that any one who tried to collect this tax and enter his house would do so at his own risk."

"Albers began to arm his laborers, at the same time raising the American flag in his house, threatening the authorities with trouble if anything should be done to him."

MAY AVERT STRIKE.

Freight Handlers Hope to Make Satisfactory Agreement.

Chicago, Sept. 15.—Conferences between officers of the various railroads and committees of their freight handlers were held yesterday, and it is believed that some understanding may be reached that will avert a strike. With a few exceptions all the roads sent answers to the men yesterday, and President Flannery at once made arrangements for a series of conferences. Flannery believes that the roads will grant some slight concessions, if not in wages then in working conditions.

Although the men are formally demanding 10 per cent. increase in wages the demand is made only as a basis for negotiations. One half the increase asked for or even less will probably be accepted, and there is a general feeling that the railroads may concede something in order to maintain harmony.

Rest, Health and Comfort to Mother and Child.

MRS. WINSLOW'S SOOTHING SYRUP, for children teething, softens the gums, reduces inflammation, allays all pain, and cures wind colic. Perfectly safe in all cases. We would say to every mother who has a suffering child: Do not let your prejudice, nor the prejudices of others, stand between you and your suffering child and the relief that will be sure—yes, absolutely sure—to follow the use of this medicine, if timely used. Price 25c a bottle.

"How Good That Tastes"

is the verdict of every member of the family when you serve for dessert

D-Zerta

Quick Pudding

Quickest of Quick Desserts

No labor required. All ingredients in the package. Just add milk, bring to a boil, cool and serve. Result—the most delicious dessert you ever tasted. Five choice flavors—Vanilla, Lemon, Chocolate, Strawberry and Orange. All grocers, 10c.

ORDER TO-DAY.

OPERATIONS AVOIDED

Two Grateful Letters from Women Who Avoided Serious Operations.—Many Women Suffering from Like Conditions Will Be Interested.

Margrite Ryan

Margret Merkle

When a physician tells a woman, suffering from ovarian or womb trouble, that an operation is necessary it, of course, frightens her.

"The very thought of the operating table and the knife strikes terror to her heart. As one woman expressed it, when told by her physician that she must undergo an operation, she felt that her death knell had sounded. Our hospitals are full of women who are there for ovarian or womb operations!"

It is quite true that these troubles may reach a stage where an operation is the only resource, but such cases are much rarer than is generally supposed, because a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after the doctors had said an operation must be performed. In fact, up to the point where the knife must be used to secure instant relief, this medicine is certain to help.

The strongest and most grateful statements possible to make come from women who, by taking Lydia E. Pinkham's Vegetable Compound, have escaped serious operations.

Margrite Ryan, Treasurer of St. Andrew's Society, Hotel English, Indianapolis, Ind., writes of her cures follows:

Dear Mrs. Pinkham—

"I cannot find words to express my thanks for the good Lydia E. Pinkham's Vegetable Compound did me. The doctor said I could not get well unless I had an operation for ovarian and female troubles. I knew I could not stand the strain of an operation and made up my mind I would be an invalid for life."

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

TRAGIC EXPOSE.

Ex-Senator Bunkers Tells All About Boodling.

Sacramento, Cal., Sept. 15.—Brought from his prison cell to confront his alleged associate in the boodling combine of last winter, Harry Bunkers, former state senator from San Francisco, has made a complete confession on the witness stand in Judge Hart's court room, where the trial of E. J. Emmons, one of the state senators indicted by the grand jury, was in progress.

From the moment of his entry into the court room until he left it, pale and perspiring, three hours later, Bunkers was the central figure in one of the most dramatic exposures in criminal trials of this state. He left nothing untold, and in his eagerness to unshackle himself, he forestalled the objections of the defense with statements relating to the motives and actions of the four disgraced legislators. Much of this was stricken from the record. He detailed the plan of campaign, which, he says, was one whereby the building and loan associations of the state were to be "held up" and compelled to pay for protection.

He told also of receiving money, stating that Joseph Johnson had dropped his roll of \$350 in his pocket as he stood in the street, just as Jordan said he did, and had said that Emmons received his share, but two minutes before. Lastly, he told of the terror and fright that followed the exposure in the senate, the last conference held in Emmons' room over the disposal of the marked bills, and of suggestions that were made to clear themselves of guilt.

MEDICAL COLLEGE CHANGES.

H. L. White Succeeds Dr. B. J. Andrews as Secretary of Faculty.

Burlington, Sept. 15.—It has been announced that the fifty-third year of the medical department of the University of Vermont will open Monday, December 4.

Changes in the faculty include the appointment of H. L. White of this city, chemist of the state board of health, to be secretary of the board of faculty in place of Dr. B. J. Andrews, superintendent of the Mary Fletcher hospital, resigned. Prof. Rudolph A. Witthaus of New York retires as emeritus, professor of chemistry and toxicology. James E. Pederson of New York is added to the faculty, also Doctors Dalton and Morrison of Burlington. Doctor Pederson is a professor of genito-urinary diseases at the Post Graduate Medical School of New York and at the University of the City of New York and Bellevue Medical school.

VOLCANO OF SULPHUR.

Strange Liquid Thrown Out From Mountain In Mexico.

Galveston, Tex., Sept. 15.—A dispatch from Morales, Mex., says that a party of geologists, investigating the volcanic eruptions of Cerro Dolores mountain, in the state of Michoacan, have discovered a stream of sulphurous liquid oozing from the crater formation.

The scientists declare the liquid more than superheated hot water, because it is thick and heavy and turns to a deep reddish hue. The rocks thrown from the mountain differ from any material of volcanic origin and are pure white.

Neither fire nor smoke is emitted, but a suffocating vapor arises from the sulphur stream.

Hearing how Lydia E. Pinkham's Vegetable Compound had saved other women from serious operations I decided to try it, and in less than four months I was entirely cured; and words fail to express my thankfulness."

Miss Margret Merkle of 275 3d Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham—

"Loss of strength, extreme nervousness, severe shooting pains through the pelvic organs, cramps, bearing down pains and extreme irritation compelled me to seek medical advice. The doctor, after making an examination, said that I had ovarian trouble and suggested, and advised an operation as my only hope. To this I strongly objected—and I decided as a last resort to try Lydia E. Pinkham's Vegetable Compound."

"To my surprise the ulceration healed, all the bad symptoms disappeared, and I am once more strong, vigorous and well; and I cannot express my thanks for what it has done for me."

Ovarian and womb troubles are steadily on the increase among women—and before submitting to an operation every woman should try Lydia E. Pinkham's Vegetable Compound, and write Mrs. Pinkham at Lynn, Mass. for advice.

For thirty years Lydia E. Pinkham's Vegetable Compound has been curing the worst forms of female complaints, all ovarian troubles, inflammation, ulceration, falling and displacement of the womb, leucorrhoea, irregularities, indigestion and nervous prostration. Any woman who could read the many grateful letters on file in Mrs. Pinkham's office would be convinced of the efficiency of her advice and Lydia E. Pinkham's Vegetable Compound.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

Robbins' Extravagant Wife.

"Have a cigar?" said Robbins.

"Don't care if I do," said Robbins. The two men were seated in their luxuriously appointed club, and had fallen into that intimate and confidential conversation in which men occasionally indulge.

"You appear gloomy," Robbins remarked.

"Well, I don't mind telling you, old man, that my wife's extravagance would be enough to make any man have the dumps at times. I don't like to say it, but I should dislike to appear small, but—"

"Tell me about it, old boy."

"Oh, it's pretty constant, but the latest thing she wants is a new hat. Of course, I want her to be a credit to me, but, as I suggested to her, she had a new one only last spring. Women are expensive luxuries."

"So some of my married friends tell me."

"Yes, they have no conception of a man's necessary expenses—have a gin fizz?"

"Don't care if I do."

"They had it."

"For instance, what do they know of one's club expenses? I only belong to three clubs—and you know how essential it is to keep up on that sort of thing—and although the three combined cost little more than my family expenses, still they count, and a woman cannot understand it. It is a pity they are so extravagant, for otherwise they would be quite desirable."

"So some of my married friends say," said Robbins. "It's too bad about their extravagance. Have a game of poker?"

"Don't care if I do," said Robbins. "Five dollar limit?"

"Sure."

But although Robbins said so little, it should be evident to anybody that he must have been sorry for Robbins.—San Francisco Call.

That Little Pain in Your Back threatens your kidneys. If allowed to go on a little while you will suffer throughout the entire system. Take at once Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y., which costs only one dollar. It is the most certain cure for the treatment of all diseases of the Kidneys, Liver and Blood. All druggists, \$1.00; six bottles, \$5.00.
