The Times' Daily Short Story.

A Valuable Antidote

"There's an old saw, 'An ounce of prevention is worth a pound of cure.' I am a practical illustration of its truth. Indeed, an ounce of fluid once saved my life. As a medicine? Well, ho, I wasn't sick, and I hadn't been poisoned. Nevertheless that ounce saved my life.

When Cheeks are Pale

A woman's physical condition shows quickly in her face. Pale cheeks, colorless lips, biliousness, sick headache and lassitude indicate conditions that need to be promptly remedied. Every woman is subject to the weaknesses of her sex, but prudence should lead her to strengthen the system at those times when Nature needs assistance. A little forethought will save much distress and prevent painful complications. Taken as needed

BEECHAM'S PILLS

will prove an efficient remedy for the relief of womanly ills. They strengthen the nervous system, purify the blood, improve the appetite and exert a very necessary tonic action on the entire system. Their use is never attended by any disagreeable effects. They are a mild medicine, but a peculiarly efficacious one. Full directions for women accompany each box.
