

LODGE FAVORS SUBIG BAY

Would Give Station Part of Appropriation

OTHER PLACES NEED IT

\$900,000 Is Held to Be Insufficient for the Philippines—Mr. Teller Makes a Vigorous Speech Against Imperialism.

Washington, D. C., March 21.—When the fortification appropriation bill was taken up in the Senate yesterday, the first discussion rose over the amendment prohibiting the use at Subig bay of any of the appropriation for fortifications in the Philippine islands. Mr. Lodge criticized the provision, saying that over \$3,000,000 had been expended there; that it was sure to be a naval station for the United States whether we retain the islands or not, and that the advice of the naval experts in the matter should not be disregarded.

Mr. Bacon agreed that a naval station should be retained in the Philippines and said that he would consent to the designation of Subig bay if some island containing coal could not be utilized for that purpose. He considered Cavite undesirable.

Mr. Frye, who assisted in the negotiations of the Spanish treaty, said that during the progress of the negotiations no other place than Subig bay had been mentioned as the site for a naval station for the United States.

Mr. Perkins, in charge of the bill, said the only reason the committee had for eliminating Subig bay was the fact that the appropriation of \$600,000 for the Philippines was not sufficient to do appreciable service at the bay. There were other places needing protection where the money could be used in an effective manner. One of these was Manila. He spoke of the dry dock Dewey, saying that if it had been built in California it would now be at its destination. He declared the distance was 5,000 miles less, and said the cost was incalculably greater by the route taken. One item of cost mentioned was that of \$5,000 for toll through the Suez canal.

Senate Amendment to the Rate Measure

Washington, D. C., March 21.—When the Senate convened yesterday, Mr. Overman presented an amendment to the railroad rate bill providing that in cases of review of the findings of the interstate commerce commission by the courts "no writ of injunction or interlocutory order shall be granted by any district or circuit court without first giving five days' notice to the adverse party, nor until petition and answer are filed and hearings thereon had."

Arguments on Plan to Regulate Interstate Traffic in Liquor.

Washington, March 21.—The House committee on judiciary held a hearing yesterday on the Hepburn-Dodge bill and other measures for the regulation of interstate traffic in liquor. Representative Webber of Ohio spoke in favor of the pending measure to regulate shipments of liquor into local option districts. Representative Boutelle of Illinois spoke in opposition to the bills.

LEGISLATIVE BILL BEFORE HOUSE

Considered for Amendment Under Five-Minute Rule.

Washington, March 21.—The House yesterday proceeded to the consideration of the legislative appropriation bill for amendment under the five minute rule.

SPECIAL RULE ON STATEHOOD

The House Today Will Take Up the Measure.

Washington, March 21.—The statehood bill will be taken up in the House today under the protection of a special rule, the adoption of which will be the necessary step on the part of the House to get the bill into the hands of a conference committee of the Senate and House. Forty minutes' debate will be divided between the friends and opponents of the rule, when a vote will be taken. The special rule is declared to be the only way the bill can be taken from the speaker's desk as otherwise it would have to go to the committee on territories because of the Senate amendment making a different disposition of certain government property than was contemplated in the House bill. A meeting of the Republican "insurgents" is contemplated. Their leaders say the rule probably will be adopted, but that within the week no real objection to sending the bill to conference, they will vote against the rule, as they consider it constructive instruction to the House conferees that they are not to report unless they can reach an agreement in accordance with the House bill.

The average gross weight of the bales this season is shown to have been 508.8 pounds and the equivalent 500-pound bales to have been 10,777,610. SHORTS NOT TO RESIGN.

Washington Officials Say the Stories Are Unfounded.

Washington, D. C., March 21.—Reports have been current for some time past to the effect that Mr. Shonts was about to resign from his position as the chairman of the isthmian canal commission. It is authoritatively stated at the war department that these reports were without foundation so far as the officials knew.

TO INVEST HERE.

Vatican Millions Coming to America to Be Placed.

New York, March 21.—The Press says:

Confirmation is given by Charles A. Conant, vice president of the Morton Trust company, to the report that Pope Pius X is about to invest in this country Vatican wealth amounting to \$40,000,000. Mr. Conant says there is no question about it. It is added that about \$10,000,000 of the papal funds are ready for investment, and shortly will be placed here.

The Pope, it is explained, not only wishes to obtain full returns from his investments, but is determined that none of the Vatican's money shall be invested in France, owing to the attitude of the French government toward the priests and bishops.

It is revealed further that J. Pierpont Morgan has been in close competition with Thomas F. Ryan in the struggle to get the Pope's wealth here. Mr. Morgan is in Rome, where it is understood he has brought to bear upon the papal mind every influence which, in his opinion, could serve to decide Pope Pius. Ryan is equally resolved, it is added, and without the knowledge of the people the two financiers long have been locked in a finish fight.

COULD HAVE SAVED McCALL.

If Hamilton Had Come Back Earlier, Says Louis F. Payn.

Albany, March 21.—Former State Superintendent of Insurance Louis F. Payn yesterday in an interview expressed the opinion that "if Andrew Hamilton had returned four months ago from Europe John A. McCall would not have died of a broken heart."

"I don't suppose," said Mr. Payn, "that as a matter of fact the \$148,000 which the New York Life trustees have volunteered to make good represents any large proportion of the political contributions of that company. I don't believe it would cover even the amount contributed to Senator Platt for state campaigns."

"The people want blood now, and there is great danger of overdrastic legislation. They don't seem to realize that the fellow who will be damaged chiefly in the outcome will be the policyholder."

GERMANY AND FRANCE AGREED

Success Said to Be at Last in Sight at Algierais

CREDIT GIVEN HENRY WHITE

American Delegate to Morocco Conference Understood to Have Suggested Plan by Which International Rupture Was Averted.

Washington, March 21.—Advices received at the state department indicate that there will be an agreement at Algierais within a day or two and that the differences between France and Germany will be amicably settled.

The conclusion of the conference is being rapidly reached, and it is understood that the American ambassador, Henry White, has had much to do with bringing it about, although the state department declines to say that Mr. White made a formal proposition to the representatives of the two countries. It is not denied, however, that he made an informal proposal upon which an agreement might be reached.

London, March 21.—The Evening News says it has authority for the statement that France and Germany have arrived at an agreement on the questions in dispute concerning Morocco. All danger of a rupture of the conference at Algierais, the paper says, is ended.

Russia Faithful to France.

Paris, March 21.—Following the action of Great Britain in resuming the false statements of the German press as regards the attitude of Great Britain and Russia toward France, Count Lamorski, the Russian minister of foreign affairs, has telegraphed to Count Cassini, Russian ambassador to Spain and delegate at the Moroccan conference, that it is absolutely false that Russia thinks France can allow the police control at Casablanca to be neutral. Russia has never ceased and will not cease to maintain toward France the attitude of a faithfully ally. Lamorski instructs Cassini to communicate the foregoing to the French and other delegates.

London, March 21.—William Barmash, who was sentenced three years ago to ten years in prison for counterfeiting notes of the Bank of England, in connection with which Joseph Stern was arrested in New York in 1902, was liberated yesterday. It is supposed the remission of so much as six years of the sentence may be due to Barmash having given information as to what became of a large quantity of spurious notes which never were traced.

SCHMIDT A MARTYR

Russian Revolutionists Mourn Naval Lieutenant

WAS EXECUTED MONDAY

Confronted Death Bravely—"I Die for the Russian People and the Fatherland," He Exclaimed Before the Rifles Rang Out.

St. Petersburg, March 21.—Lieutenant Schmidt, leader of the naval revolt at Sebastopol in November last, who was tried by court martial and shot near Otechakoff fortress, South Russia, Monday, with three sailors sentenced to death for mutiny, is being made a hero and a martyr by the revolutionists. The boys of the St. Petersburg gymnasium struck yesterday in order to compel the offering of a prayer in school for the repose of the soul of the lieutenant.

The Russ prints a detailed account of the execution, from which it appears that when Schmidt received the news that the authorities had refused to commute the death penalty he went for the three sailors his companions, saying they were so young and honest and he would prefer to die alone. The condemned men were taken to the small deserted island of Borizan and were shot at sunrise. Schmidt addressed his executioners, sixty sailors of the cruiser Teretz, saying:

"I die for the Russian people and the fatherland, and any of you doubtless will hereafter share my death for the same cause."
Schmidt refused to accept the sacrament, and asked not to be blindfolded. He met his death with head up and eyes open. The firing party was stationed at a distance of fifty yards. Two of the sailors were killed at the first volley, and one more at the third. Schmidt did not fall until the fourth volley.

WHY RUSSIA LOST.

General Kurapatkin Speaks Very Plainly on the Subject.

St. Petersburg, March 21.—General Kurapatkin, last order of the day to the first Manchurian army, printed in the Ruskly Invalid (the military organ) yesterday, is a remarkable exposure of the causes of the Russian defeat, showing that they were due to lack of preparation and equipment, and to the fact that there were no explosive shells for the mountain artillery, etc., in the early stages of the war.

He does not shrink his own responsibility as minister of war (before the war broke out) but points out that the causes of defeat were deeper, namely the morale of the troops and of the officers, who did not display initiative, independence or enthusiasm, in spite of the iron nerves and heroic spirits of the soldiers.

IT AMUSES SCOTTY.

Warrant for His Arrest Gives Him More Advertising.

San Francisco, March 21.—Walter Scott, the Death Valley miner and hero of melodrama, is threatened with the law. Warrants have been issued at Los Angeles for the arrest of Scott and Shorty Smith and Bill Keyes, Scotty's Indian scout. Smith was arrested at Daggett, Keyes is in Death Valley with officers in pursuit, and Scotty is in the limelight in a Portland theatre. His play is "Scotty, the King of the Desert Mine," and Scotty paid Charlie Taylor, the playwright, \$10,000 for the privilege of appearing in public.

A. J. De Lyle St. Clair was Scotty arrested. He was a team driver for Scotty, and was in the line of battle during the recent ambush in Death Valley, when Walter Scotty was wounded. Scotty says that his enemies were trying to exterminate him. St. Clair asserts that Scotty planned the ambush himself for the purpose of frightening off the mine experts accompanying the "king."

Scotty has wired from Portland to friends in this city.
"Holy smoke! The next thing they'll say is that I tried to commit suicide to get even with myself. St. Clair has had too much tarantula juice."

GETS INTO LINE.

Philadelphia to Have Subway and Elevated Structure.

Philadelphia, Pa., March 21.—Mayor Weaver yesterday met the officers of the Philadelphia Rapid Transit Company, which controls all the railway facilities of the city, and practically signed an agreement by which the system of transportation will be revolutionized.
The agreement includes rapid transit by subway and elevated lines, in three years an assurance of completion, and the recovery by the city of millions of dollars' worth of franchises.

While the old Republican organization under the leadership of Former State Insurance Commissioner I. W. Burman was in control of the political situation here, the Philadelphia Rapid Transit Company secured franchises which precluded the possibility of competition. The company's failure to complete the Market street subway within the stipulated time compelled the corporation to seek an extension of three years in which to finish the work. It was with the mayor's power to hold up this work and, supported by the various business men's associations, he secured the concessions later by agreeing to grant the extension of time. The Philadelphia Rapid Transit Company will also pay into the city \$400,000 in cash to be used in abolishing Philadelphia & Reading Railway grade crossings.

New York, March 21.—Word has been received by W. M. K. O'Leary that Corporal Alexander B. Stanbery, who is coming half-way round the world to testify in behalf of Albert T. Patrick, has arrived in this country.

Stanbery, who is now a corporal in company G, 13th United States infantry, stationed in the Philippines, was ordered to come here for the hearing before Recorder Goff. On his arrival in San Francisco last Friday he was directed to proceed to Fort Jay, in New York harbor.

GIVEN NO IMMUNITY.

Atty-Gen. Moody Says Packers Failed to Take Oath.

Chicago, Ill., March 21.—Atty-Gen. Moody resumed his argument in the packers' case yesterday. He began by citing a number of authorities in support of the position maintained by the government in the case, and contended that in order to obtain immunity a witness must claim it under oath, and while on the witness stand. He declared that none of the defendants in the present case had done this, and that, therefore, their claims for immunity could not be seriously considered by the court.
